(2) the succeeding Architect or Landscape Architect clearly identifies all modifications to the submissions.

(3) the succeeding Architect or Landscape Architect assumes responsibility and liability for the adequacy of the design on the modifications.

(4) the documents are prototypical technical submissions. An architect may sign and seal technical submissions prepared by another person if the signing and sealing architect has reviewed the work and has integrated the work into their own technical submissions and the other technical submissions are prototypical building documents. Any licensed architect signing or sealing technical submissions integrating the work of another into the licensed architect's own work as

permitted above shall maintain that such review and integration met the required professional standard of care. In applying his or her seal, the Oklahoma licensed architect assumes full responsibility in its entirety for the documents as if fully prepared by or under the Oklahoma licensed architect's responsible control.

- (g) **Retention period.** An Architect, Landscape Architect or Entity shall retain a copy of all technical submissions produced for a minimum of ten (10) years following the date of preparation.
