

Oklahoma Board of Architects, Landscape Architects and
Registered Commercial Interior Designers

FY22 Annual Report

Executive Summary—Year in Review

- HB1147, signed by Governor Stitt on May 10, 2021, went into effect on July 1, 2021. The bill changed the Board's name to the Oklahoma Board of Architects, Landscape Architects and Registered Commercial Interior Designers; it also gave Registered Commercial Interior Designers the ability to seal their work and changed the Board's composition to six Architects, two Landscape Architects, two Registered Commercial Interior Designers, and one public member.
- The Board began collaborating with the Oklahoma Board of Professional Engineers and Land Surveyors, along with the State Fire Marshal's office, to address some of the issues created by the expansion of the medical marijuana industry in Oklahoma. The two Boards and the State Fire Marshal's office are currently working together to create a building guide that will aid design professionals, those in the construction industry, and members of the public to navigate state laws as to when a project requires licensed design professionals to be involved.
- The Board is also working as an intermediary between the Registered Commercial Interior Designers of Oklahoma, the American Institute of Architects, and other national organizations to expand the scope of practice for commercial interior designers, in order to acknowledge the skill set their education, examination, and experience have given them.
