19. Describe the eligible individuals to be served in this Correctional/Institutional Education program.

20. What demographics or other data were used to determine the target population for this Correctional/Institutional Education program?

21. How are the demographics or other data aligned with the State's content standards for adult education?

Section Four: Budget

Funding

Regarding the federal money ODCTE receives, up to 12.5 percent is allowed for Leadership activities; 5 percent of the Federal money is allowed for administrative activities; a minimum of 82.5 percent of the Federal money must be distributed to grantees.

Allocations for Correctional/Institutional Education programs are subtracted from the money distributed to grantees (minimum of 82.5 percent) prior to allocating monies to local grantees. The total amount allocated to Correctional/Institutional Education programs may be up to 20 percent of the 82.5% of the total grant award (this may be up to 16.5% of the total award that is allowed for Correctional/Institutional Education services).

The remaining balance (after Correctional/Institutional Education) of the minimum of 82.5% is the amount to be allocated to local grantees. ODCTE staff will determine an allocation amount for each Workforce Development Areas by using demographic data for each of Oklahoma's 77 counties. This allocation for each ABE Workforce Development Area will include the number of eligible individuals within the counties of each Workforce Development Area. This will include population, eligible individuals 18-24 years of age that do not have a high school diploma or its recognized equivalent, and eligible individuals 25+ years of age that do not have a high school diploma or its recognized equivalent. A formula will be determined using these variables to determine an allocation amount for each Workforce Development Area. Applicants will select which counties that they would like to serve. Eligible providers will compete for the allocation of their selected counties. Multiple providers may be granted an allocation within a specific county, and the allocation will be divided between those providers within that specific county. Multiple service providers may be selected within an ABE Service Area based on funding requested on dollars available.

Eligible providers will determine a budget for providing services in the Workforce Development Area(s) requested and the ODCTE will evaluate these budgets. Budgets should reflect counties which eligible providers plan to serve. The ODCTE requires a local match of dollars and/or in-kind donation of 25 percent of state funds received. This match may be direct or in-kind. All match items must meet the same guidelines for allowability and allocability as the federal funds. Negotiations will occur when more than one eligible provider is determined for a specific county. Awards may be based on multiple factors including reasonableness of the budget relative to the service area, quality of the eligible provider application, past performance including Measurable Skill Gain attainment relative to the state performance target, expected number of individuals to be served, workforce development area board recommendations, previous year allocation, past expenditures, and results from the pre-award risk assessment. The amount received by eligible recipients will be held steady for not more than two years.

After the two-year period, allocation amounts for each service provider will be determined using a formula that accounts for the eligible individuals in an ABE service area, performance of the service provider, and provider need. Service providers not meeting negotiated performance levels may see a reduction in their allocation for the following year(s). Those service providers meeting or exceeding their performance levels may be eligible for an increase in their allocation in their funding for the following year(s) from the pool of funds not allocated to those providers not meeting performance levels. Performance funding will be based on the average of two years of performance data. The ODCTE may limit the carryover of an ABE service provider. The carryover limit may not exceed 25% of their projected allocation for the upcoming year. The overage will then be redistributed to other service providers.

Budget Narrative

Directions: In the space below, provide a detailed description for each line item of how awarded funds will be spent consistent with the grant requirements described on pages 5-6 of this document. Include items such as positions that will be funded by salaries and benefits and specific supplies and the purpose for which they are purchased.

Local Administrative Cost Limits

Not more than five percent of a grant to an eligible provider can be expended to administer the adult education and literacy grant. In cases where five percent is too restrictive to perform administrative activities, the eligible provider may negotiate with the ODCTE an adequate level of funds to be used for non-instructional purposes. Administrative costs include: planning; administration including carrying out performance accountability requirements; professional development; providing adult education and literacy services in alignment with local workforce development area plans; carrying out the one-stop partner responsibilities, including contributing to the infrastructure costs of the one-stop delivery system. As with all adult education and literacy expenditures, administrative costs must be allowable, necessary, and reasonable. The 5% administrative cost limit or negotiated administrative cost limit applies to federal, state, and local adult education and literacy activities. Examples of disallowed costs include: bad debts; contingencies; entertainment; food; alcoholic beverages; fines/penalties; fundraising; lobbying; promotional items; unused leave payouts; tuition and fees; construction; and acquisition of property.

Oklahoma Cost Accounting System

The following is an excerpt taken from the Oklahoma Cost Accounting System Manual. Please review these definitions prior to completing the projected budget form. If the applicant is awarded funds, the applicant will be required to submit initial budgets for federal and state funds after allocations have been awarded.

Expenditure Function Definitions

1000 Instruction: Instruction includes the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in locations such as a home or hospital, and in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as television, radio, telephone, correspondence and other educational or assistive technology devices. Included here are the activities of teacher assistants of any type which assist in the instructional process. The activities of tutors, translators and interpreters would be recorded here. Also include department chairpersons who teach for any portion of time.

- **2120 Guidance Services:** Those activities of counseling pupils and parents; providing consultation with other staff members on learning problems; assisting pupils in personal and social development; assessing the abilities of pupils; assisting pupils as they make their own educational and career plans and choices; providing referral assistance; and working with other staff members in planning and conducting guidance programs for pupils.
- **2212 Instruction and Curriculum Development Services:** Activities designed to aid teachers in developing the curriculum, preparing, and using special curriculum materials and understanding and appreciating the various techniques that stimulate and motivate students.
- **2213 Instructional Staff Training Services:** Activities designed to contribute to the professional or occupational growth and competence of members of the instructional staff during the time of their service to the LEA or school. Among these activities are workshops, demonstrations, school visits, courses for college credit, sabbatical leaves, and travel leaves. Personnel with Function 1000 salaries would be coded here.
- **2220 Library/Media Services:** Activities concerned with directing, managing and supervising education media services, as well as such activities as selecting, acquiring, preparing, cataloging and circulating books and other printed materials; planning for the use of the library by students, teachers and other members of the instructional staff; and guiding individuals in their use of library books, reference guides and materials, catalog materials, special collections and other materials, whether maintained separately or as a part of an instructional materials center.

Internal, public and management information services would be included here, as well as personnel (staff) services.

These include driving buses or other student transportation vehicles and costs of pupil transportation vehicle insurance.

5400 Indirect Cost: Federal AEFLA is a supplement, not supplant grant subject to a restricted rate. Providers wishing to capture indirect administrative costs must have an annually negotiated indirect cost rate on file with their cognizant agencies. Providers must use a restricted rate, if available. However, if a restricted rate is not available, the provider may use an 8% rate if the approved rate is above 8%. If an entity (e.g., LEA) has a restricted rate, you must use that rate not the 8%. However, indirect cost is an administrative cost by nature and falls within the 5% cap on all administrative costs that may be charged against federal funds. Only for use with Object Code 970.
