OKLAHOMA CareerTech

# CREDENTIALS

Updated 05/17/2024

Introduction

Oklahoma has 1,670,046 jobs by industry, and the number is projected to grow 7.8 percent to 1,946,040 by 2025. This aggressive growth projection reinforces the need for all Oklahomans to have the skills and knowledge necessary to be productively engaged in the workplace. The Oklahoma Department of Career and Technology Education provides programs and services that support Oklahoma's job growth for each of the key business ecosystems identified by the Oklahoma Department of Commerce.

The specific needs of the current workforce and the workforce projected to exist in 2025 indicate most workers will need certificates, credentials or associate degrees to maintain the growth of Oklahoma's economy. Business and industry require and will continue to require a qualified workforce.

Oklahoma's Career and Technology Education System is focused on developing a world-class workforce.

Oklahoma CareerTech delivers educational experiences through a network of 391 K-12 school districts, 29 technology center districts, 17 skills center sites and 32 adult basic education providers.

CareerTech's ultimate goal is to improve Oklahoma's economy by providing individuals with the training and skills necessary to be successful in the workplace and providing companies with the required workforce necessary to compete globally.

Oklahoma's Workforce Gap

	High School and Less	Associates/Certificate/Credential	Bachelors	Graduate
Percent of 2025 New Jobs	27	48	19	6
Percent of 2015 Attainment	46	30	16	8

Source: Oklahoma Office of Workforce Development, EMSI 2016.2

2025 estimates based on new jobs created and entry-level job requirements.

Industry-Valued Credentials

What is a credential?

An education- and work-related credential, which could include a license or certificate, can be defined as a verification of an individual's qualification or competence issued by a third party with the relevant authority to issue such credentials *(U.S. Department of Labor, 2010).*

To ensure an educated and skilled workforce, many industries and educational entities have successfully developed and implemented industry-recognized credentials to connect individuals to the skills they need to enter and advance in jobs. Many credentials are stackable, meaning they can build on previous competencies and skills through an individual's lifetime.

Through ODCTE leadership, agency operations, dissemination of best practices and multiple delivery arms, Oklahoma CareerTech strives to increase student educational attainment of industry credentials. (In FY2021, Oklahoma students earned 45773 industry credentials.)

"Industry-recognized," used with respect to a credential, means a credential that meets these criteria:

A. *It is sought or accepted by employers within the industry or sector involved as a recognized, preferred or required credential for recruitment, screening, hiring, retention, or advancement purposes.*

B. *Where appropriate, it is endorsed by a nationally recognized trade association or organization representing a significant part of the industry or sector.*

Credential types

License:
- Awarded by a governmental licensing agency.
- Gives legal authority to work in an occupation.
- Requires meeting predetermined criteria, such as having a degree or passing a state-administered exam.

Certification:
- Awarded by a professional organization or other nongovernmental body.
- Is not legally required to work in an occupation.
- Requires demonstrating competency to do a specific job, often through an examination process.
  (U.S. Department of Labor, 2016)

MicroCredential:

- Issued for specific skill sets
- Desirable, by not required

The value of credentials

It is imperative that the educational process focus on successful outcomes that provide individuals with the skills and abilities to enter the workforce and/or enter postsecondary education. For example, completion of industry-recognized certifications and credentials enables individuals to work in high-wage, high-demand occupations. The certifications/credentials that students receive are an essential component to decreasing the educational gap that blocks a more vibrant Oklahoma economy. Oklahoma's future hinges on business and industry's ability to successfully compete in a global economy. A highly skilled workforce is essential for success in today's challenging business environment.

Socioeconomic mobility

To further demonstrate the importance of credentials, the 2016 national data from the U.S. Bureau of Labor Statistics revealed employed people were more likely to hold an active certification or license (25.0%) than unemployed people (12.5%) or those who were not in the labor force (6.0 percent). People who held certifications or licenses also had a lower unemployment rate than those who did not (2.5% versus 5.6%, respectively). Workers with certifications or licenses also earned 35 percent more than those who did not hold such credentials ($1,032 versus $765 respectively).

Credential criteria

Skill (SK)

- **SK —** The credential is for basic skills and may or may not be related to a project.

Industry-Aligned (IA)

- **IA —** The credentialing standards are aligned to industry-recognized standards. The alignment is intended to show how the CTE standards can enhance, reinforce or provide an application for a specific career major.

Industry-Endorsed (IE)

- **IE —** The credentialing standards are aligned to and endorsed by industry. The endorsement shows that a major industry entity has determined that the credential encompasses the skills, knowledge and abilities required by people entering this job area in order to be successfully employed as entry-level workers.

Industry-Required (IR)

- **IR —** The certification or license is a credentialing exam that leads to an industry-required credential for a given occupation.

Secure-and-Proctored (S/P)

- **S/P —** The credential is administered in a secure environment and proctored by a third-party entity with no relation to the candidates or area being assessed.

Digital Badges

The Oklahoma CareerTech system issues digital badges utilizing the Credly platform. Digital Badges are issued using information entered into the "Real-Time" certification section of the CTIMS system. Certifications must be included on the Approved Assessment list, in order to be listed in the "Real-Time" certification section.

If a testing vendor currently offers a digital badge, we will not duplicate those efforts. We are focusing on those areas that do not currently receive a badge from an existing vendor. To search our library of badges, please click on the following link: Badge LIbrary

In order to earn a credential that is digitally badged by the Oklahoma CareerTech, a student must:

- Complete any course work in an Oklahoma Department of Career and Technology Education approved program that encompasses the areas included in the objectives/blueprint for an assessment. All approved programs within the Oklahoma CareerTech network of accredited technology centers lead to industry-recognized credentials.

Once a student completes an assessment listed on the Approved Assessment list, the instructor/designated representative will need to add it into the "Real-Time" certification section of the CTIMS system to allow us to gather the information to issue a badge to the student if it meets the criteria required.

Credential Information

The credentials listed on the following pages were submitted and added to the lists over several years. Before utilizing a credential listed, please verify with the vendor the current availability and pricing.

Industry-Valued Credentials

Credential	Code	Issuing Agency	Type	Endorser
3G Vertical Fixed Position - Oklahoma Welder Certification	4404	Oklahoma Department of Labor	IA, IE, IR, S/P	Oklahoma Department of Labor
5G Horizontal Fixed Position - Oklahoma Welder Certification	4412	Oklahoma Department of Labor	IA, IE, IR, S/P	Oklahoma Department of Labor

Collision Repair	2056	National Occupational Competency Testing Institute	IA, S/P	
Collision Repair/Refinishing Technology	2061	National Occupational Competency Testing Institute	IA, IE, S/P	
Commercial Driver's License	5401	Oklahoma Department of Public Safety	IA, IE, IR, S/P	Oklahoma Department of Public Safety
CRR: Mechanical & Electrical Components (ASE Student)	2060	National Institute for Automotive Service Excellence	IA, IE, S/P	National Institute for Automotive Service Excellence
CRR: Non-Structural Analysis & Damage Repair (ASE Student)	2059	National Institute for Automotive Service Excellence	IA, IE, S/P	National Institute for Automotive Service Excellence
CRR: Painting & Refinishing (ASE Student)	2057	National Institute for Automotive Service Excellence	IA, IE, S/P	National Institute for Automotive Service Excellence
CRR: Structural Analysis & Damage Repair (ASE Student)	2058	National Institute for Automotive Service Excellence	IA, IE, S/P	National Institute for Automotive Service Excellence
Diesel Engine Repair Technician	2151	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Electrical/Electronic Systems Repair Technician	2153	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Electrical/Electronics Systems Technician	2103	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Engine Performance Technician	2104	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Engine Repair Technician	2107	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association

Credential	Code	Issuing Agency	Type	Endorser
EPA Section 608 Technician Certification	3457	ESCO Institute	IA, IE, IR	Air Conditioning Contractors of America
ESA-1 (DC)	4064	International Society of Certified Electronics Technicians	IA, IE, S/P	International Society of Certified Electronics Technicians
ESA-2 (AC)	4065	International Society of Certified Electronics Technicians	IA, IE, S/P	International Society of Certified Electronics Technicians
ESA-3 (Semi)	4066	International Society of Certified Electronics Technicians	IA, IE, S/P	International Society of Certified Electronics Technicians
ESA-4 (Digital)	4067	International Society of Certified Electronics Technicians	IA, IE, S/P	International Society of Certified Electronics Technicians
Forklift Certification	2410	OSHA	IA, IE, IR	Department of Labor
Fundamentals of Electricity – AC	1470	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Electricity – DC	1471	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Fluid Power – Hydraulics	1473	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Fluid Power – Pneumatics	1472	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Industry 4.0	1465	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Mechanical Systems	1476	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of PLCs – Allen Bradley	1478	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of PLCs – Siemens	1480	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Fundamentals of Robotics	1483	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Hazwoper 40/24/8	5255	New Environment	IA, IE, P	Nat'l Safety Council
Heating and Air Conditioning Technician	2105	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Heating, Ventilation & Air Conditioning Repair Technician (MHT)	2156	CareerTech Testing Center	IA, IE, S/P	Oklahoma Automobile Dealers Association
Honda Engines Certified Technician	2409	Lightbourne Equipment	IA, IE	Honda
I-CAR Non-Structural Repair Technician Pro Level 1	2012	Inter-Industry Conference on Auto Collision Repair	IA, IE	I-CAR
I-CAR Refinish Technician Pro Level 1	2013	Inter-Industry Conference on Auto Collision Repair	IA, IE	I-CAR
Introduction to Exploring Electricity	1469	National Coalition of Certification Centers	SK, IA, IE, P	Festo
Introduction to Mechatronics	1475	National Coalition of Certification Centers	SK, IA, IE, P	Festo
