### Overview

The Oklahoma Department of Career and Technology Education (ODCTE) is committed to improving the academic proficiency of CTE students. This grant is designed to increase academic outcomes in English/Language Arts, Science, and/or Mathematics. Funds are provided so that schools can implement innovative strategies to improve academic performance. The grant is intended for secondary students to address academic shortfalls as evidenced by our Perkins performance metrics. Remediation and credit recovery are unallowable expenditures by law. Funds can be used as a proactive measure to address shortfalls and improve performance prior to requiring remediation. Tutoring and integrating academics into CTE programs would be examples of how these funds could be used. **Perkins LEA or consortia meeting the \$15,000 requirement, technology centers or technology center co-ops, and postsecondary institutions or consortia meeting the \$50,000 requirement are eligible to complete the grant application. Successful applicants will receive two-year innovation funding for up to \$25,000 each year.**

### Expectations

1. Provide CTE students with resources to improve academic performance in Reading/Language Arts, Science, and/or Mathematics.
2. Strategies could be implemented during or outside regular school hours.

### Eligible Applicants:

Eligible Applicants who successfully complete the Perkins application under the current Perkins V Act are invited to participate in the Reserve Fund Grants process by:

- Meeting the criteria designated in the Local Application for Perkins Funding, including the Comprehensive Local Needs Assessment.
- Meeting the criteria in the Overview section for the desired Reserve Fund Grant,
- Successfully completing the Reserve Fund Grant Application, and
- Documenting the human, financial, and time commitment required to meet the intent of the focused grant.

### **Application Evaluation and Award**

All Reserve Fund Grant Applications will be evaluated and awarded on a competitive basis. Applications will be reviewed and evaluated, using a rubric, by a team of state agency personnel. All reviewers' evaluations will be compiled for a final scoring. If members of the evaluating team have questions or require verification regarding the application, they will notify the grant contact person to provide the requested supplemental information.

Funds are made on a reimbursement basis. Each applicant awarded funds will receive instructions for receiving such funds in the approval award letter.

### **Process**

To ensure a comprehensive and expeditious review, applicants must submit their application package as follows:

- Applications must be submitted through the CareerTech Information Management System's grant module. The online system is located at the link below:
  - <https://ctims.okcareertech.org/CTBDSWeb/>
  - Video tutorials on how to utilize the system are in the help section of the Information Management system. You can also find them here.
