What is Lightcast Data?

Lightcast data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Lightcast data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

 The Atlantic Forbes Harvard Business Review The New York Times WSJ USA TODAY

Report Parameters

The information in this report pertains to the chosen occupation and geographical area.

Workforce Map

Executive Summary

Aggressive Hiring Competition Over a Deep Supply of Regional Talent

Supply (Jobs)

Oklahoma is a hotspot for this kind of talent. The national average for an area this size is 7,325* employees, while there are 12,485 here.

Compensation

The cost for talent is low in Oklahoma. The national median salary for Licensed Practical and Licensed Vocational Nurses is \$54,555, while you'll pay \$47,822 here.

Demand (Job Postings)

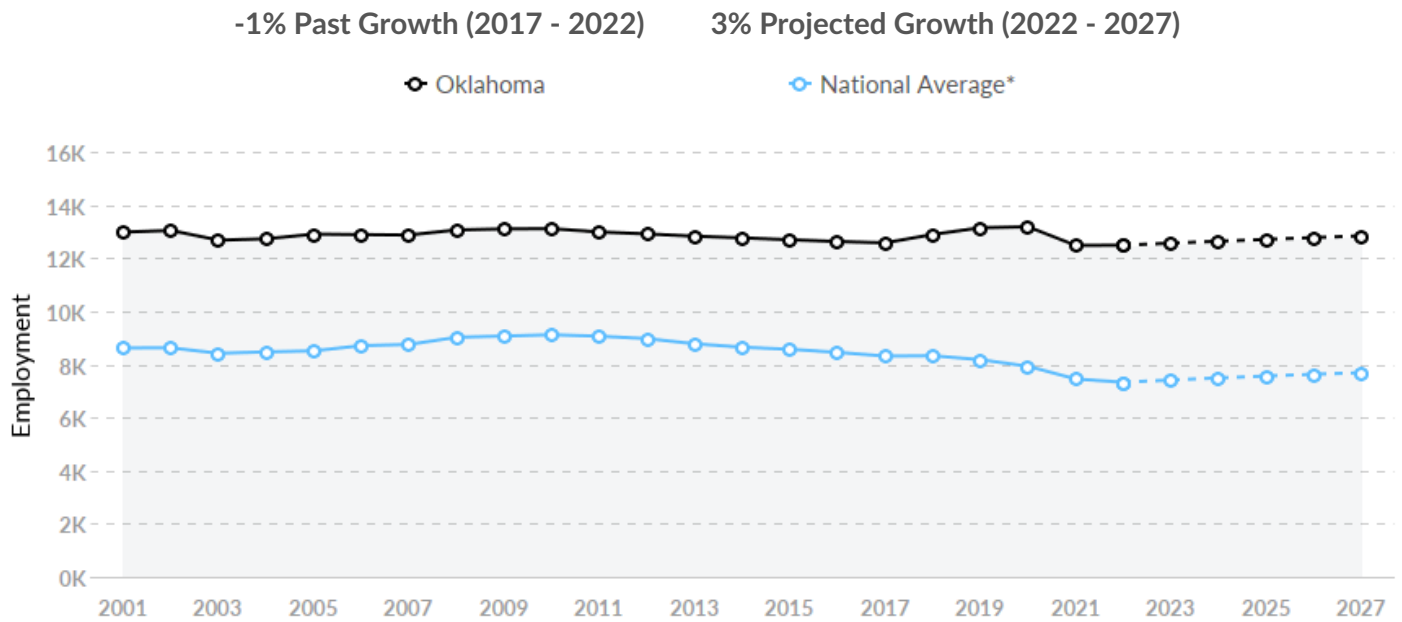

Competition from online job postings is high in Oklahoma. The national average for an area this size is 429* job postings/mo, while there are 565 here.

*National average values are derived by taking the national value for Licensed Practical and Licensed Vocational Nurses and scaling it down to account for the difference in overall workforce size between the nation and Oklahoma. In other words, the values represent the national average adjusted for region size.

Supply (Jobs)

Supply Is Higher Than the National Average

The regional vs. national average employment helps you understand if the supply of Licensed Practical and Licensed Vocational Nurses is a strength or weakness for Oklahoma, and how it is changing relative to the nation. An average area of this size would have 7,325* employees, while there are 12,485 here. This higher than expected supply may make it easier to find candidates. The gap between expected and actual employment is expected to remain roughly the same over the next 5 years.

*National average values are derived by taking the national value for Licensed Practical and Licensed Vocational Nurses and scaling it down to account for the difference in overall workforce size between the nation and Oklahoma. In other words, the values represent the national average adjusted for region size.

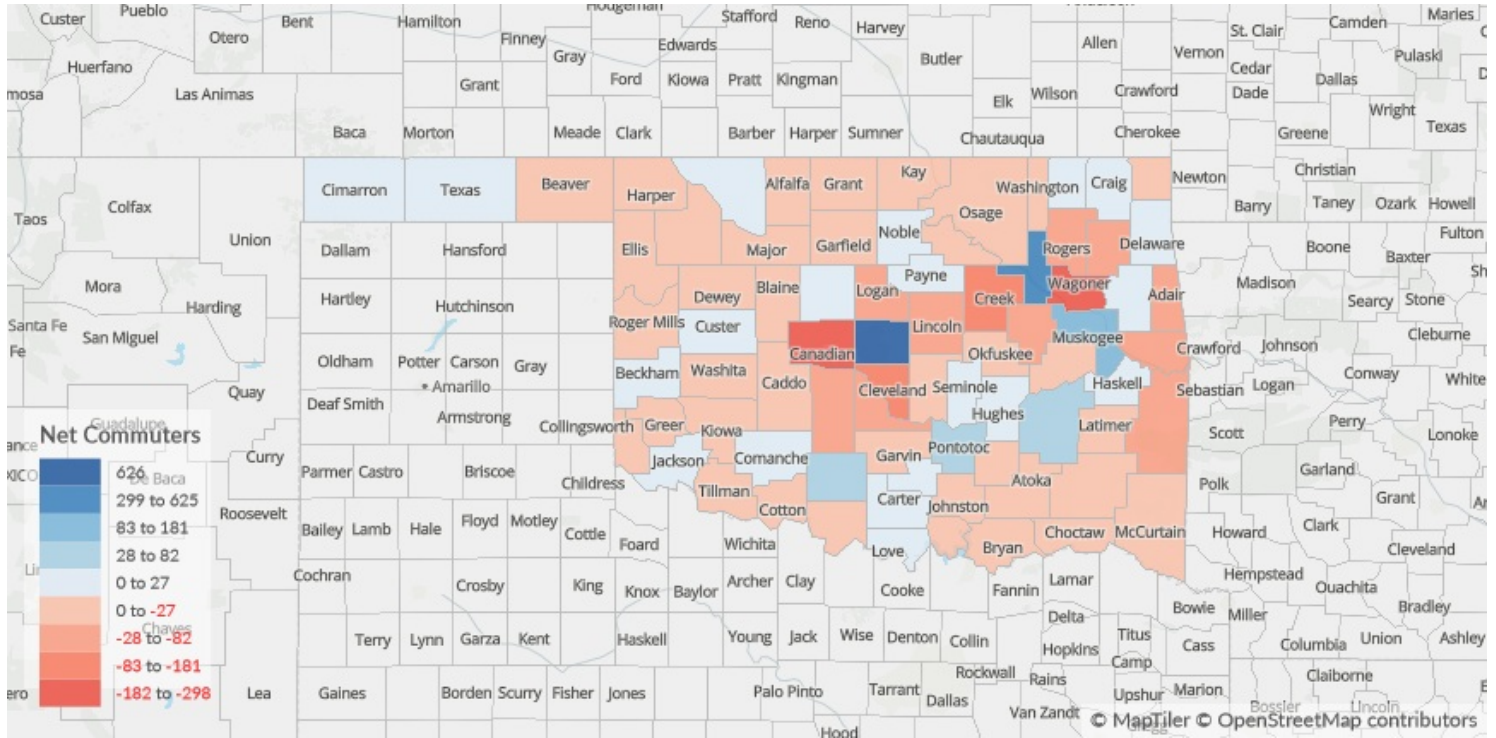

Most Jobs are Found in the Nursing Care Facilities (Skilled Nursing Facilities) Industry Sector

Industry	% of Occupation in Industry (2022)

Compensation

Talent Is 12% Cheaper, While the Cost of Living May Make Attraction Difficult

In 2022, the median compensation for Licensed Practical and Licensed Vocational Nurses in Oklahoma is \$47,822. Based on the national median wage of \$54,555 for this position, this means you will spend about 12% less to employ Licensed Practical and Licensed Vocational Nurses here. However, their actual purchasing power will be 6% less than the national median when we adjust for regional cost of living (which is 7% lower than average). This may make it harder to attract talent to the region at this price.
