Full-Time Enrollment Guidelines

All enrollments will be submitted to the ODCTE. The enrollment file should be a **quarterly** file for each submission to include all students who were enrolled regardless of number of hours enrolled during each quarter. For the purposes of reporting clock hours, use the 'enroll date' and 'end date/drop date' as the basis for calculating hours. Do not subtract hours due to 'attendance'. Students that enroll late during the quarter or exit early should have clock hours adjusted accordingly.

Enrollments will be submitted 4 times per year as indicated by the due dates above. Submit one record for each course for actively enrolled students during the quarter that the data is being submitted:

- Clock hours will represent hours for the quarter that the student is eligible to attend.
- Records will only represent students actively enrolled during that quarter.
- PID listed will be the primary teacher of record for the program.
- Instructor's teaching number can be left blank if they are only teaching adult students.

Clock hours will need to be divided out if a student is concurrently enrolled in 2 or more programs.

NOTE: A secondary student missing 10 consecutive class periods within a semester should be dropped from the class for reporting purposes. The student's clock hours need to be adjusted if the student does return to class.

All technology centers should have an attendance policy in place for post-secondary students.

Technology Center Enrollment Student Data Documentation

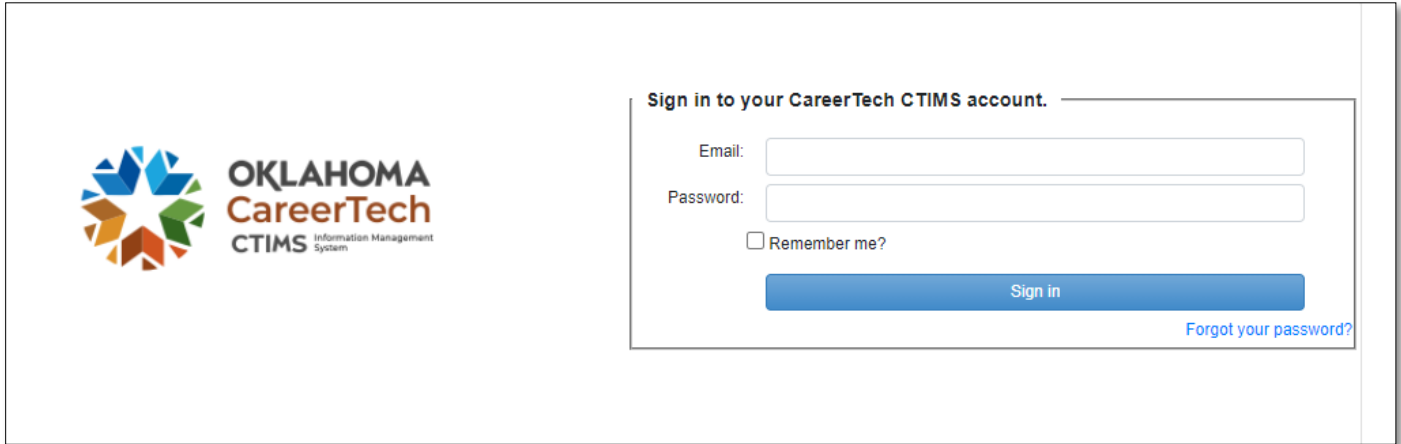

The original source document must be maintained such as intake forms, an enrollment form that is completed by the student or a combination of data sources. A computer-generated report will not suffice for documentation purposes unless the student enrolled on-line. Clock hours reported will be based on the enroll date and end/drop date of the student. Transcripts must be maintained on a permanent basis.

All secondary students must be submitted with a 10-digit numeric Student Testing Number. The only exception is students attending a private school, home school or from out of state. Adult students may be submitted without a Student Testing Number. All students must be submitted with a unique alpha/numeric school assigned number. The PID should reflect the instructor who is primarily responsible for the student in the program being submitted.

Objective: This guidebook will take you through the steps to submit Full-Time enrollments in CTIMS.

The table contains data for the year 09, with 21 CTE enrollments and 81 SDE enrollments.

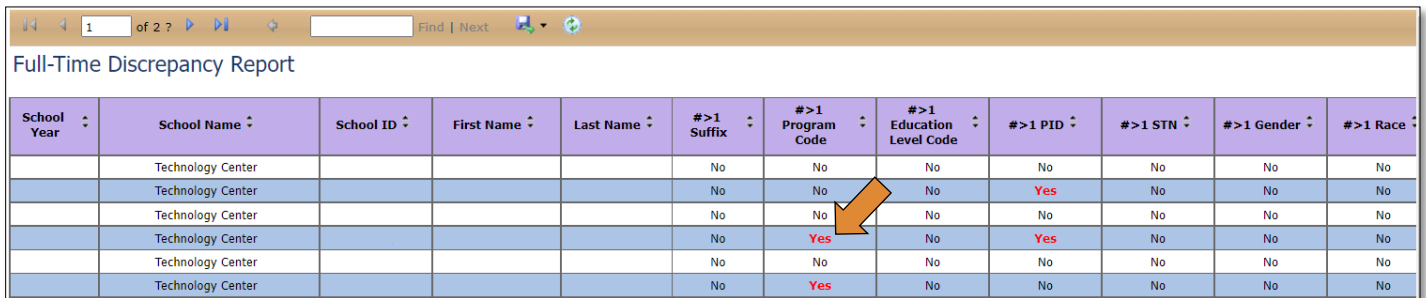

Discrepancy Report

Before the deadline of each quarter, please run the **Discrepancy Report**.

The error will be highlighted in blue to indicating that there is something in the record that may be an issue. **Yes**, will appear in red in the field that there may be a discrepancy.

Things to remember:

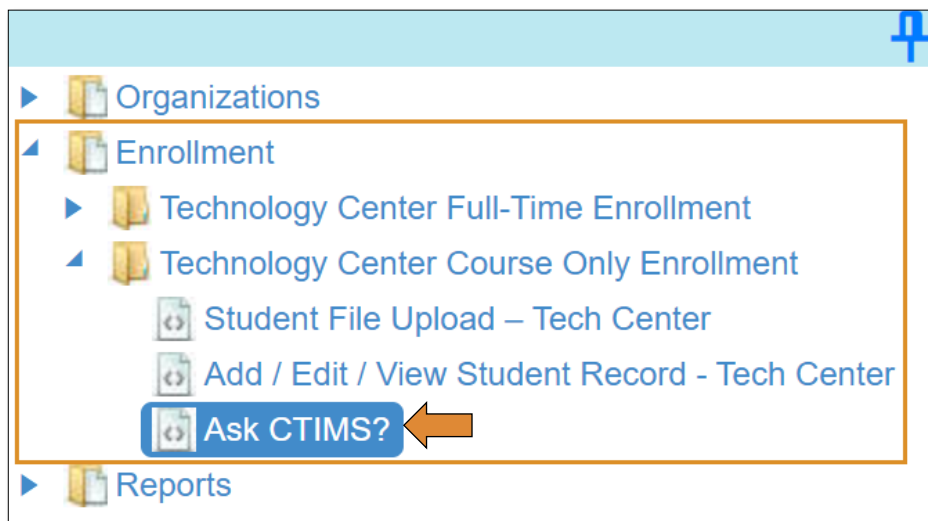

- Columns for student race, gender, disability, out of workforce, single parent, English learners, academically disadvantaged, economically disadvantaged, migrant, homeless, individuals in foster care, parents on military active duty and tribal affiliations should be reported the same for every quarter.
- If a student changes schools (sending schools), you will need to go back into CTIMS and change the previous quarter(s) to reflect the change, otherwise CTIMS will duplicate the student record. If the student changes schools in the middle of the 3rd or 4th quarter, it will be up to the tech center to determine which school is reported in CTIMS.
- It is acceptable for a student to be reported in more than one program, which puts them in more than one PID. For example, if a student completes one program and enrolls in another, the student **should be** a duplicate on your enrollment. Their enrollments will transfer to Follow-up for each program accordingly.
