If based on this assessment it is determined that the inmate needs to be placed in a single cell, the Unit Classification Committee (UCC) will be convened and a determination of appropriate housing will be made. If no single cells are available, the unit team will forward this assessment to mental health services for completion of Section VII. Upon mental health services review, the recommendation will then be forwarded to the facility head for final approval/disapproval. Justification for the need to be single celled will be documented below. In addition, the inmate profile screening form and any other supporting documentation will be attached.
