Audit Findings

Audit Narrative

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Jeff McLaughlin. We coordinated the dates for the onsite audits at the facility. I further had the opportunity to discuss the audit with the PREA Compliance Manager at the facility.

During these conversations we outlined an overall audit schedule and notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit postings to the Agency PREA Coordinator on February 21, 2018, he then forwarded the postings to the individual facilities. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour, and during the inmate and staff interviews. No staff nor inmates contacted me.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency PREA Coordinator had previously provided me a flash drive containing all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted Tulsa Sane who provides both forensic examinations and victim advocacy during the examinations. They knew of no ongoing issues at the facility.

Agency level interviews:

I had previously conducted the agency level interviews on October 16, 2017. At that time I met with the Agency PREA Coordinator at his office in Oklahoma City, a portion of his interview was conducted at this time. I also interviewed investigative staff, as well as Region I Director Millicent Newton-Embry as the Agency Head Designee. I also had the opportunity to meet with Director Joe M. Allbaugh, we discussed the overall aspects of the PREA Audits, as well as the overall agency implementation of the Prison Rape Elimination Act.

Onsite Audit Phase

Site Review:

The Agency PREA Coordinator and I met with Warden Terry Royal, Deputy Warden/PREA Compliance Manager Natalie Cooper, Deputy Warden Maurice Warrior, and Chief of Security Shawn Price on April 18, 2018 at approximately 8:00 a.m. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. After this brief meeting a facility tour was conducted. During the tour I had the opportunity to view all areas of the facility, no areas were not toured. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While on the housing units I observed the related PREA information, Audit Posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed log books on the housing units.

Upon completion of the facility tour the inmate interviews were conducted. These interviews were conducted on 04/18/18 and 04/19/18. They were conducted in the separate housing unit utilizing a vacant office, these offices provided a private area to conduct the interviews. I randomly selected the inmates from inmates on the housing unit, and highlighted them on the daily master roster. During this process I interviewed inmates in the following categories:

| Interview Type | Number |
|---|--|
| Random Inmate Interviews | 23 |
| Youthful Inmates | Facility does not house |
| Inmates with a Physical Disability | 1 |
| Inmates who are Blind, Deaf, or Hard of Hearing | 1 |
| Inmates who are Limited English Proficient | 1 |
| Inmates with a Cognitive Disability | 1 |
| Inmates who Identify as Lesbian, Gay or Bisexual | 2 |
| Inmates who identify as Transgender or Intersex | 1 |
| Inmates in Segregated Housing for High Risk of Sexual Victimization | No inmates housed at facility at this time |
| Inmates who Reported Sexual Abuse | 1 |
| Inmates who Reported Sexual Victimization During Risk Screening | 0 |
| Total Inmate Interviews | 31 |

During the interview process several targeted categories of inmates were not being housed at the facility. I conducted the interviews with all inmates in the same manner, a preamble to the interview was related to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. During the interviews I utilized a copy of the initial PREA information received by inmates, Inmate Handbook, and Screening form to visually stimulate the inmate's recollection of their initial intake process.

Upon completion of the inmate interviews the staff interviews were conducted throughout multiple locations in the facility. The facility was currently working two shifts, interviews were conducted on both shifts. During the process I interviewed staff in the following categories:

| Interview Type | Number |
|---|----------------|
| Random Staff Interviews | 11 |
| Intermediate or Higher Level Staff Conducting Unannounced Rounds and Intake Staff | 2 |
| Line Staff who Supervise Youthful Inmates | Not Applicable |
| Education and Program Staff who Work with Youthful Inmates | Not Applicable |
| Medical and Mental Health Staff | 4 |
| Administrative Staff | 1 |
| Volunteers and Contractors | 1 |
| Investigative Staff | 2 |
| Staff who Perform Screening | 3 |
| Staff who Supervise Inmates in Segregated Housing | 2 |
| Staff on the Sexual Abuse Incident Review Team | 2 |
| First Responders | 1 |
| Warden | 1 |
| PREA Compliance Manager and Designated to Monitor for Retaliation | 1 |
| Total Staff Interviews | 31 |

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. During the interviews I utilized a copy of the training they received and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time I provided an overview of the audit findings during the onsite audit portion. During our facility tour we found bathroom doors that allowed the inmates to lock them from the inside, as well as shower curtains that needed to be shortened.. These issues were identified and immediately rectified by the facility, the areas were checked on the final day of the audit and I viewed the corrections.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Prisons and Jails.

Facility Characteristics

The Oklahoma State Penitentiary is located at 1301 N. West Street McAlester, OK 74502. The immediate area surrounding the facility is best described as residential, farming, as well as Pittsburgh County Government Buildings and the Jackie Brannon Correctional Center a minimum security Oklahoma Department of Corrections Facility.

The history of the Oklahoma State Penitentiary begins prior to statehood in 1907. At that time all felons convicted in Oklahoma were transferred to Kansas, at a cost of 25 cents per day. After statehood, McAlester was chosen as the site for the Oklahoma State Penitentiary and 1,556 acres northwest of McAlester was set aside for the maximum security facility. In 1908, offenders returned from Kansas and began construction. In order to provide work for offenders, an industry program was developed including a tailor shop and shoe manufacturing plant. As the population grew new housing units were added. The most costly prison riot in the history of the nation broke out at the Oklahoma State Penitentiary on July 27, 1973. Damages to the facility were estimated between \$20 million and \$40 million. In 1978 a federal court found the conditions at the penitentiary unconstitutional. Consequently, four new housing units were built and in 1984 the aging "East" and "West" cell houses were closed. A special care unit opened July 20, 1992, to ensure that the needs of special management offenders are met. This unit was recently remodeled to house medium security inmates, who started arriving at the facility on March 27, 2018. These inmates are providing the workforce for the secure perimeter of the facility. Prior to this change the inmates from Jackie Brannon Correctional Center were providing the workforce for the facility. The newest addition, "H" unit, provides new quarters for administration segregation, death row, and the lethal injection chamber.

The facility has five multi occupancy cell housing units, these units are identified as A Unit, C Unit, D Unit, E unit, and H Unit. Units A, C, and H are maximum security housing units with A and C housing general population. H Unit houses the maximum segregation units on three of the tiers, and death row is on the last tier. Housing units D and E are for the medium security offenders who comprise the workforce at the facility. These offenders work in various locations within the secure perimeter.

All of these housing units are constructed with the toilets in the cells, this provides privacy for the inmates while toileting. The showers in the D and E housing units have curtains on them which allow privacy to the inmates while showering. The facility process utilized by the facility to shower the inmates in A, C, and H units allow for the inmate to have privacy, and eliminates any issues with cross gender viewing.

The facility has one single cell housing unit, and one open bay housing area in the infirmary. Privacy is provided through curtains for inmates in these areas when toileting. The showering process is the same as the other housing units which eliminates cross gender viewing.

The facility grounds are best described as a compound style facility, with several locked perimeter fences dividing the areas of the facility, specifically housing units from each other.

The inmate movement is strictly monitored, inmates in the maximum security units are secured and escorted by two officers when they exit their cells. The only exception to this is the inmates involved in the Phase Step down Program that is located in A Unit. The inmates in this program work through phases to return to lower security through components designed to address criminal thinking and pro-social behavior. These inmates are afforded the opportunity to interact in a dayroom environment and during yard.

The facility also provides faith-based programs, and education programs.

Cameras are located throughout the facility, with the main monitors in a secure surveillance room.

During my tour of the facility I found that information on the Prison Rape Elimination Act, and reporting avenues are located throughout all of the buildings at the facility, all of this information is also available to the inmates in their issued handbook. The facility has placed cards in the windows of the individual cells in the segregation units to ensure access to the PREA information.

I found that administrative staff, as well as general staff move throughout the compound frequently, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

I have had the opportunity to conduct multiple audits for the Oklahoma Department of Corrections, throughout these audits I have found that the Department has created a culture of professionalism and respect. This culture enable the Department to create a safe environment in their facilities. During the audit of the Oklahoma State Penitentiary I found that the staff have exceeded this culture, and has set the standard for the other facilities. I have made this conclusion after interacting with both staff and inmates, and personally viewing their interactions. Eighty percent of the inmates are incarcerated for violent offenses ranging from Assault to Homicide, the majority of these inmates are categorized as predatory in nature. The staff have the ability to manage this extremely difficult population with minimal incidents related to Sexual Abuse and Sexual Harassment, this is accomplished by an in depth offender management program, where all staff from Security, Treatment, Administration, and Medical and Mental Health utilize a hands on approach to manage the population. Furthermore the facility has recently added medium security inmates, which added an additional challenge to staff who are accustom to inmates who are confined. I found that the staff had quickly adjusted to the new population, and immediately created a safe environment.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy

dictates the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During the interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator he was an Inspector General Investigator, as a prior investigator he brings a level of knowledge of the investigative process for PREA incidents, and has the experience of working on these investigations. I reviewed the Department of Corrections Organizational Chart and found that the PREA Coordinator is in the upper-level of the administration.

The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview with the PREA Compliance Manager they related that they have enough time to implement the PREA Standards at the facility. During the administration interviews the Warden and Deputy Wardens were concerned over the amount of time needed to perform these duties, especially during an investigation when other duties had to be put on hold. My recommendation moving forward is to have several administrators at the facility trained as administrative investigators to share in the investigatory duties.

During the interviews at the facility I was informed that the Agency PREA Coordinator is always accessible to answer questions and provide advice on PREA related issues. I personally observed this during the onsite audit process when he was answering questions via email or phone that arose at other facilities. I was also advised that the Agency PREA Coordinator will spot check the facilities to ensure that they are consistent in the application of the agency policies that apply to PREA.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agencies overall commitment to sexual safety in their facilities, this commitment is shared by all staff from the Director down.

Standard 115.12: Contracting with other entities for the confinement of inmates

115.12 (a)

- If this agency is public and it contracts for the confinement of its inmates with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates.) Yes No NA

115.12 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of inmates OR the response to 115.12(a)-1 is "NO".) Yes No NA

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections has eleven contracts with agencies to house inmates. I reviewed these contracts in their entirety, the contracts specify that the contractor has to adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.

I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the first auditing cycle, and will be audited during this auditing cycle.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment. The facility also has the ability to collapse posts and limit inmate activity and movement when needed.

The staffing plan was completed and reviewed by the Warden on February 20, 2018 and the Agency PREA Coordinator on February 23, 2018. This was confirmed through interviews and viewing their signatures on the staffing plan.

During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The Warden is provided with a copy of the roster from the previous day, this is reviewed by the Warden, Deputy Wardens, and Chief of Security. This review of the roster ensures that all critical posts at the facility are manned at all times.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and inmate interviews as well as reviewing the logs generated by the housing unit officers. I further recognized this during the facility tour with the Warden and Deputy Wardens. They were familiar with individual inmates, and these inmates were familiar with them, they would occasionally interact with an inmate, I found this interaction to be professional and extremely respectful.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.14: Youthful inmates

- Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No
- Does the facility/agency train security staff in how to conduct searches of transgender and intersex inmates in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility is an all-male facility and does not house any females.

The above policies outline procedures and practices that enables inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. The policies further dictates that staff of the opposite gender announce their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The celled housing units have the toilets in the individual cells which limits viewing while the inmates are toileting. The infirmary dormitory style housing unit has toilets located in an area that provides curtains for privacy. Showers in several areas have curtains that provide privacy for the inmates while showering. The showers in the maximum security housing units, segregated housing units, have showers with open grated doors. The facility procedure to shower the inmates in this area takes place as follows, the inmate is handcuffed prior to exiting his cell, and he is dressed boxer shorts. He is escorted to the shower area where he is secured in the shower by himself, and the handcuffs are removed. The

officers leave the immediate area to allow the inmate to shower, after a predetermined amount of time the officer's return, if a female officer is present a male officer will ensure that the inmate is clothed in boxer shorts. The inmate will then be handcuffed and escorted back to his cell. This process eliminates any cross gender viewing while showering.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. This process was also confirmed during my interview with the inmate who identified as transgender.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews. This process was also confirmed during my interview with the inmate identified as transgender.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.

During the inmate interviews I interviewed inmates with limited English proficiency, Cognitive Disabilities, Physically Disabled and hard of hearing. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form. This form specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff, volunteer and contractor interviews I verified they were asked these questions.

During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

The agency has also implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency utilized the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer or Contractors Criminal History, this system runs constantly and negates the five year Criminal History Check.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.18: Upgrades to facilities and technologies

115.18 (a)

- If the agency designed or acquired any new facility or planned any substantial expansion or modification of existing facilities, did the agency consider the effect of the design, acquisition, expansion, or modification upon the agency's ability to protect inmates from sexual abuse? (N/A if agency/facility has not acquired a new facility or made a substantial expansion to existing facilities since August 20, 2012, or since the last PREA audit, whichever is later.)
 Yes No NA

115.18 (b)

- If the agency installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology, did the agency consider how such technology may enhance the agency's ability to protect inmates from sexual abuse? (N/A if agency/facility has not installed or updated a video monitoring system, electronic surveillance system, or other monitoring technology since August 20, 2012, or since the last PREA audit, whichever is later.)
 Yes No NA

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency has not made any substantial expansion to this facility, but during the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the inmates.

This facility has installed several new cameras since the previous PREA audit. During the review of the facility schematics I found that they have identified key areas throughout the facility and installed these cameras in those areas. I further confirmed all of the camera location during the facility tour, and my discussions with staff during the tour.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are initially responded to at the facility level utilizing a team approach, where the administration, medical and mental health will initially be notified.

The investigation is further conducted by the investigators in the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification. I reviewed the training materials utilized, and interviewed investigators from this division. I found that they follow the evidence protocols outlined in the policy, and are well versed in evidence identification and collection.

The facility utilizes a SANE nurse through the Tulsa SANE program, which is coordinated through the Tulsa Police Department. The examinations are conducted at the Hillcrest Medical Center. I confirmed the utilization of this program through interviews and review of medical documentation on the one SANE exam performed over the last twelve months.

The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The Tulsa Sane program also provides victim advocacy.

The aforementioned victim advocates are available to the victim during the forensic medical examination process and investigatory interviews and they provide emotional support, crisis intervention, information, and referrals. Although these services have not been utilized at this facility, I verified their availability through interviews and review of the documentation with Tulsa Sane.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on both genders and youthful inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs.

The facility has posted signage on Red Flags for staff, these are located in staff areas as a reminder to staff.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. This was confirmed during the volunteer and contractor interviews at the facility. They are trained at the agency level, and receive recertification training every two years. The facility has trained 198 volunteers and contractors to date.

The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. This was confirmed during the volunteer and contractor interviews.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

During the intake process inmates receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. This was confirmed during the inmate and staff interviews, this information is located in the inmate handbook. I further confirmed this by reviewing inmate files and ensuring that the Zero Tolerance Acknowledgment for Offenders Forms were in the files and signed by the inmates.

The inmates receive an in depth orientation at which time the facility provided training on the Prison Rape Elimination Act. This was confirmed during the staff interviews and the inmate interviews. This orientation takes place within seven days of arriving at the facility. During the onsite audit I had the opportunity to view the orientation process.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have designated staff who can provide interpretation of other languages. The Case Managers would provide education to other individuals if needed.

The facility has all key information on the zero tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

I conducted several interviews with inmates who were in custody at the time of the implementation of the Prison Rape Elimination Act. The inmates informed me that they were provided initial written material on PREA, and also viewed a video. They also confirmed that the facility has placed cards in their cell door windows with the PREA reporting information on it.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

All inmates are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identifies all areas of victimization enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools are only available to case managers, medical if needed, and administration.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.

The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers are located on the housing units and are accessible to the inmates, or the case managers will tour the housing unit to interact with the inmates. This gives the Case Managers the opportunity to observe the inmates and ensure there is no change in their behavior or status. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Standard 115.42: Use of screening information

EVIDENCE OF COMPLIANCE

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmates own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that the transgender inmate would be given the opportunity to shower separately from other inmates.

I confirmed during interviews with the Unit Manager and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy. This was also confirmed during the interview with the transgender inmate and review of their field reports.

The agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during agency level interviews, as well as inmate interviews, several inmates at the facility interviewed identified as gay, bisexual and transgender.

Due to the nature of the segregated housing the inmates are constantly being monitored by Security, Treatment, Administration and Medical and Mental Health. Staff from all of these areas make rounds throughout the housing units, interacting with each inmate in turn. This was confirmed during the tour of the facility, staff interviews and inmate interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially exceed the requirements of this standard, and all provisions.

Standard 115.43: Protective Custody

115.43 (a)

- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Education to the extent possible? Yes No
- Do inmates who are placed in segregated housing because they are at high risk of sexual victimization have access to: Work opportunities to the extent possible? Yes No

115.43 (e)

- In the case of each inmate who is placed in involuntary segregation because he/she is at high risk of sexual victimization, does the facility afford a review to determine whether there is a continuing need for separation from the general population EVERY 30 DAYS? Yes No

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLAINT

The agency has a policy prohibiting the placement of inmates at high risk for sexual victimization in involuntary segregated housing unless an assessment of all available alternatives has been made. This policy addresses all provisions in the standard, the language in the policy meets all aspects of the standard.

This facility has had no incident where they have segregated an inmate due to being at high risk of sexual victimization.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The facility provides the inmates the information on reporting in the inmate handbook provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting hotline at #73 on the phone, or to the Oklahoma State Bureau of Investigations, which is the agencies external reporting avenue. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates I confirmed that they were aware of the reporting avenues, and that they can remain anonymous.

The agencies website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of inmates. The policy allows the staff to report directly to the Inspector Generals through a telephone number or email.

I found during the inmate interviews that the inmates who were interviewed felt that if something was happening they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Standard 115.52: Exhaustion of administrative remedies

115.52 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address inmate grievances regarding sexual abuse. (Computation of the 90-day time period does not include time consumed by inmates in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA

- If the agency claims the maximum allowable extension of time to respond of up to 70 days per 115.52(d)(3) when the normal time period for response is insufficient to make an appropriate decision, does the agency notify the inmate in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.)
 Yes No NA
- At any level of the administrative process, including the final level, if the inmate does not receive a response within the time allotted for reply, including any properly noticed extension, may an inmate consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (e)

- Does the initial response document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency's final decision document the agency's action(s) taken in response to the emergency grievance? (N/A if agency is exempt from this standard.) Yes No NA

115.52 (g)

- If the agency disciplines an inmate for filing a grievance related to alleged sexual abuse, does it do so ONLY where the agency demonstrates that the inmate filed the grievance in bad faith? (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

EVIDENCE OF COMPLIANCE

All provisions of this standard are addressed in the agencies Inmate/Offender Grievance Process. I reviewed this policy in its entirety. I further questioned staff on this procedure, they understood the process if an inmate filed a grievance pertaining to sexual abuse.

The audited facility did not have any grievances filed within the last 12 months relating to sexual abuse. This was confirmed through interviews and a memo from the facility.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

EVIDENCE OF COMPLIANCE

Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services of Tulsa SANE who provide victim advocacy. The services that the inmates would receive are the same as the level received in the community.

Through interviews I further established that follow up mental health care would be provided by the facility for any inmate who was involved in an incident.

All of the information required under this standard and all provisions is provided to the inmates, this was verified through review of the documentation and interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.54: Third-party reporting

The staff interviewed understood their responsibilities under this policy. During interviews with staff who reported an allegation I verified that they followed the policy.

The policy further states that staff is prohibited from revealing any information related to sexual abuse to anyone other than the extent necessary. All staff interviewed understood this requirement.

The agency would report to the Oklahoma Department of Human Services for any individual under the age of 18.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency has established a policy that meets this provisions of this standard. The agency has identified the facility designated monitors to monitor the inmate or staff member for alleged retaliation.

The agency has established through past incidents that they utilize housing transfers, as well as facility transfers of perpetrators to protect the victim in an incident. This was confirmed during review of investigations and through staff interviews.

As previously mentioned the Case Managers and Unit Managers are located on the housing units, they would be assigned to help monitor the inmate on a daily basis to ensure that no issues were occurring.

I reviewed completed Protection Against Retaliation forms that show the monitoring of the inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

EVIDENCE OF COMPLIANCE

The agency has a policy in place that addresses the provisions of this standard. I found that the agency digitally securely retains all data collected, this data is available to the public through the website.

The annual reports from 2012 through 2016 are published on the website. All personal identifiers have been removed from the reports.

The agency has a policy in place that maintains all sexual abuse data for at least 10 years from the date received.

Staff interviews and review of the annual reports further confirmed this procedure.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

All agency facilities and contracted facilities were audited once during the auditing cycle from August 20, 2013, and August 20, 2016.

The agency had formulated their Audit Schedule for the current audit cycle utilizing a Frequently Asked Question from the PREA Resource Center dated April 23, 2014. The question and answer are as follows:

What happens to an agency's three-year audit timeline if an agency fails to have the required minimum of one-third of its facilities audited by August 19, 2014?

The standards require generally that an agency must have "at least one-third" of its facilities audited during each one-year period, which began on August 20, 2013; and that all facilities must be audited by the conclusion of each three-year period, which began on the same date. See 28 C.F.R. § 115.401(a) & (b). Compliance with the audit timeline is evaluated both on a year-to-year basis and at the conclusion of the three-year audit cycle. Failure to comply with the audit timeline during the initial year of an audit cycle does not preclude compliance during years two and three of an audit cycle. Similarly, failure to comply with the audit timeline during the first two years of an audit cycle does not preclude compliance during the final year of each audit cycle. It is important to note that, for purposes of complying with standard 115.401(a) (requiring audits of each facility during the three-year audit cycle), agencies must ensure that each facility is audited at least once by August 19, 2016, and during every three-year anniversary thereafter.

The agency had scheduled all audits for the current auditing cycle on the three year anniversary of the facilities original PREA Audit, this in turn caused the agency to have only one audit completed during the first year of the current audit cycle.

The PREA Coordinator participated in a conference call with officials from the State of Oklahoma, and the Department of Justice, during this conference call they discussed this issue, and the confusion that was caused by this Frequently Asked Question was rectified. The State of Oklahoma has issued a new Certification of Assurance, stating that all facilities will be audited prior to the end of the current audit cycle.

The agency is currently on schedule to complete all necessary audits for the current audit year.

During the audit process I was able to receive copies of all relevant documentation, conduct private interviews with staff and inmates, tour the complete facility, and receive confidential correspondence from both inmates and staff.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.403: Audit contents and findings

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.403 (f)

- The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years PRECEDING THIS AGENCY AUDIT. In the case of single facility agencies, the auditor shall ensure that the facility's last audit report was published. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.) Yes No NA

The agency has published all final audit reports on their website, this was confirmed by navigating to the page on the website and reviewing all of the audit reports.
