Audit Findings

Audit Narrative

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Jeff McLaughlin. We coordinated the dates for the onsite audit at the facility. During these conversations we outlined an overall audit schedule and he notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Agency PREA Coordinator on March 27, 2020 he then forwarded the posting to the facility. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour, and during the inmate and staff interviews. I did not receive any letters from inmates at the facility.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency PREA Coordinator had previously provided me all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted the YWCA of Oklahoma City. I confirmed that they provide victim advocacy and Sane for the facility, and that they would respond to any local hospital where the examination would be occurring. She also related that she knew of no issues at the facility.

I also contacted Kathy Bell the Statewide SANE Coordinator. I verified that all SANE examinations in the State of Oklahoma are provided at no cost to the victim. I also confirmed that when a Sexual Assault Examination takes place a victim advocate is dispatched with the nurse, and provides victim advocacy during the examination, interviews and for any follow-up advocacy. Ms. Bell knew of no issues at the audited facility, nor at any other Oklahoma Department of Corrections Facility.

Agency level interviews:

I have conducted the agency level interviews throughout my scheduled two weeks of PREA Auditing for the Oklahoma Department of Corrections, this period was from 05/11/2020 through 5/22/2020. Due to the Covid 19 pandemic several interviews were conducted via telephone, other personnel who were allowed to travel were interviewed onsite at a facility. These interviews included the Director, Investigative Staff, Administrative Personnel, and the PREA Coordinator. During these interviews I verified that there have been no changes in any agency process since the last audits conducted in October 2019.

Onsite Audit Phase

Site Review:

The audit was conducted during the Covid 19 Pandemic and the facility was on lockdown. The Agency, Facility and Auditor took all necessary precautions outlined by the Oklahoma Department of Corrections. These precautions included temperature check prior to entering the facility, questionnaire, universal masking for all staff, inmates and visitors. During the facility tour social distancing was practiced. The staff and inmate interviews were conducted with the participants seated at minimum of 6 feet apart, and both wearing masks.

The Agency PREA Coordinator and I met with Director Peggy Carter, Assistant Director and PREA Compliance Manager Tammey Lane and Chief of Security Richard Arnold on May 11, 2020 at approximately 8:00 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review. During the tour I had the opportunity to view all areas of the facility. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While in the housing areas I observed the related PREA information, audit posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed the log book in the main control.

The inmate interviews began on the morning of May 11, 2020 immediately following the facility tour. The interviews were conducted in a conference room, which provided privacy for the interviews. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

Interview Type	Number
Random Inmate Interviews	13
Inmates with a Physical Disability	0
Inmates who are Blind, Deaf, or Hard of Hearing	0
Inmates who are Limited English Proficient	0
Inmates with a Cognitive Disability	2
Inmates who Identify as Lesbian, Gay or Bisexual	4
Inmates who identify as Transgender or Intersex	1
Inmates in Segregated Housing for High Risk of Sexual Victimization	0
Inmates who Reported Sexual Abuse	0

Inmates who Reported Sexual Victimization During Risk Screening	0
Total Inmate Interviews	20

During the interview process several targeted categories of inmates were not being housed at the facility.

I conducted the interviews with all inmates in the same manner, a preamble to the interview was relayed to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, Inmate Handbook, OK DOC Self Report Form, and the OK DOC Cell Assessment Form to visually stimulate the inmate's recollection of their initial intake process.

Upon completion of the inmate interviews the staff interviews were conducted in the same conference room, these interviews were all conducted in private. These interviews were conducted on May 11th and May 12th 2020. The facility was currently working two shifts, interviews were conducted on both shifts. During the process I interviewed staff in the following categories:

Interview Type	Number
Random Staff Interviews	9
Intermediate or Higher Level Staff Conducting Unannounced Rounds and Intake Staff	2
Medical and Mental Health Staff	3
Administrative Staff	1
Volunteers and Contractors	0
Investigative Staff	1
Staff who Perform Screening	2
Staff on the Sexual Abuse Incident Review Team	2
First Responders	1
Director	1
PREA Compliance Manager and Designated to Monitor for Retaliation	1
Total Staff Interviews	23

I conducted the interviews with all staff in the same manner, a preamble to the interview was relayed to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff were asked questions related to the Random Staff Interviews, and if they were in a targeted category. They were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility. The interviews with the medical staff, mental health staff, education staff, and training staff were conducted at Kate Barnard Correctional Center. The medical and mental health is provided at Kate Barnard Correctional Center, the

staff personnel files are kept at Clara Waters Community Correctional Center. The Administration staff transported a sample of the staff files to the audited facility for review, and interview.

The onsite documentation review was conducted during all days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me. The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

Facility Characteristics

The Oklahoma City Community Corrections Center is located at 315 West I-44 Service Road Oklahoma City, Oklahoma. The immediate area surrounding the facility is both industrial and residential. The facilities located within a short distance to a bus station, as well as businesses where the inmates can work.

The concept of community corrections has been well established in Oklahoma for some time. On March 18, 1970, the Oklahoma Crime Commission awarded the Department of Corrections a grant to open community treatment centers in the state. The first, Oklahoma City Community Treatment Center was opened October of 1970. Since that time the Department of Corrections has introduced additional centers in Tulsa, Enid, Lawton, Muskogee, Oklahoma City, McAlester and Union City. All operate under guidelines set forth by state statutes, the Board of Corrections, and the policies of the Oklahoma Department of Corrections. Inherent in these guidelines is a basic philosophy of providing increased opportunities to inmates for engaging in responsible behaviors.

The Thunderbird Motel (T-Bird) was leased by the Department of Corrections in 1970 and was originally used for administrative offices. The Oklahoma City Community Corrections Center was opened for inmates in 1971 and was the first Community Treatment Center in the state of Oklahoma. The Thunderbird Motel was also the first correctional property ever purchased by the state of Oklahoma, under a lease/purchase agreement. The center was an all-male facility until 2000 when the males were transferred to other community corrections centers and the facility became the Mabel Bassett Minimum Unit, an all-female unit. In 2003, the Mabel Bassett Correctional Center, including the minimum unit, was transferred to McLoud, Oklahoma, and OKCCCC was vacant for approximately two months. On May 9, 2003, the Clara Waters Community Corrections Center was severely damaged by a tornado and the OKCCCC was reopened earlier than expected to house the displaced male inmates. In July 2017 OKCCCC transitioned to an all-female Facility.

The housing areas are the former motel rooms. These rooms are multi occupancy with a private bathroom in each room. The bathrooms have doors for privacy, all showers throughout the facility have shower curtains. The construction of the bathrooms in this manner provide privacy while toileting and showering.

The facility has a full kitchen that provides meals to the inmates.

During my tour of the facility I found that the information on the Prison Rape Elimination Act, and reporting avenues are located throughout all of the buildings at the facility, all of this information is also available to the inmates in their issued handbook.

I found that staff move throughout the facility, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

I had previously conducted a PREA Audit of this facility in July of 2018. At that time, I outlined in the audit report the overall poor culture of the facility, and the lack of professionalism by some of the staff. During the closeout meeting for that audit I outlined my concerns, and the need to immediately rectify the situation.

During this audit I found that all of these issues have been rectified. I found all of the staff to be very professional and respectful. This view was also shared by the inmates who were interviewed. The change has resulted in only one reportable PREA incident at the facility since July 2018.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy outlines the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and further outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During the interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator, he was an Inspector General Investigator, as a prior investigator he brings a level of knowledge of the investigative process for PREA incidents, and has the experience of working on these investigations. The PREA Coordinator works directly with the PREA Manager, the PREA Manager is a second agency level position. This position is also dedicated to the implementation of the PREA Standards throughout the OKDOC. During the second audit cycle audits of the OKDOC facilities, every Warden and PREA Compliance Manager stated that the PREA Coordinator and the PREA Manager are always available to answer questions and provide advice on the implementation of the PREA policies.

The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview the PREA Compliance Manager they related that they have enough time to implement the PREA Standards at the facility. During the onsite audit I found that the PREA Compliance Manager is making routine tours of the facility to ensure overall operational safety, which includes sexual safety.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

Standard 115.212: Contracting with other entities for the confinement of residents

(N/A if the agency does not contract with private agencies or other entities for the confinement of residents.) Yes No NA

115.212 (b)

115.212 (c)

- If the agency has entered into a contract with an entity that fails to comply with the PREA standards, did the agency do so only in emergency circumstances after making all reasonable attempts to find a PREA compliant private agency or other entity to confine residents? (N/A if the agency has not entered into a contract with an entity that fails to comply with the PREA standards.) Yes No NA
- In such a case, does the agency document its unsuccessful attempts to find an entity in compliance with the standards? (N/A if the agency has not entered into a contract with an entity that fails to comply with the PREA standards.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The Oklahoma Department of Corrections has eleven contracts with agencies to house inmates. I reviewed these contracts in their entirety, the contracts specify that the contractor has to adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.

I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the first auditing cycle, and will be audited during this auditing cycle.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment.

The staffing plan was completed and reviewed by the Director and Agency PREA Coordinator on March 27, 2020. This was confirmed through interviews and viewing their signatures on the staffing plan. I also reviewed the prior two years of staffing plans to ensure the yearly review is consistent.

During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis, this includes the Director, PREA Compliance Manager/Unit Manager, and Chief of Security. During this meeting the overall facility operations are discussed to include staffing.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.215: Limits to cross-gender viewing and searches

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.215 (a)

- Does the facility always refrain from conducting any cross-gender strip or cross-gender visual body cavity searches, except in exigent circumstances or by medical practitioners?
 Yes No

115.215 (b)

- Does the facility always refrain from conducting cross-gender pat-down searches of female residents, except in exigent circumstances? (N/A if less than 50 residents) Yes No NA

115.215 (c)

- Does the facility document all cross-gender pat-down searches of female residents?
 Yes No

115.215 (d)

Yes No
- Does the facility require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing? Yes No

115.215 (e)

- Does the facility always refrain from searching or physically examining transgender or intersex residents for the sole purpose of determining the resident's genital status? Yes No
- If a resident's genital status is unknown, does the facility determine genital status during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner?
 Yes No

115.215 (f)

- Does the facility/agency train security staff in how to conduct cross-gender pat down searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No
- Does the facility/agency train security staff in how to conduct searches of transgender and intersex residents in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility is an all-female facility and does not conduct any cross-gender searches. The facility does not limit any access by female inmates, the facility always has female staff on duty to conduct searches.

The above policies outline procedures and practices that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks. The policy further dictates that staff of the opposite gender announces their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. All rooms at the facility are multi-occupancy with bathrooms which have doors on them. These bathrooms are for one occupant at a time, and allow complete privacy while performing bodily functions and showering. All showers have curtains on them for further privacy.

The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. If a transgender or intersex inmate was placed at this facility, they would have been identified as such by the facility they were being transferred from. I interviewed one inmate who identified as transgender. They related that they

are treated professionally and have privacy showering, performing bodily functions, and changing clothes.

The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency and facility are substantially compliant with the requirements of this standard, and all provisions.

Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.

The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.

During the inmate interviews I interviewed inmates with Cognitive Disabilities. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies, and ensured that the inmates understood the reporting avenues.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form. This form specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews I verified they were asked these questions.

During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

The agency has implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files, I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency utilized the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer, or Contractors Criminal History, this system runs constantly and negates the five-year Criminal History Check.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are initially responded to at the facility level utilizing a team approach, where the administration, medical and mental health will initially be notified. The investigation is further conducted by the investigators in the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification. I reviewed the training materials utilized, and interviewed investigators from this division. I found that they follow the evidence protocols outlined in the policy, and are well versed in evidence identification and collection.

The facility utilizes a SANE from the YWCA of Oklahoma City. This nurse would be contacted by the hospital where the victim was transported to and proceed to the hospital to conduct the examination. This was confirmed during the interview with the YWCA. The YWCA also provides victim advocacy during an incident. I confirmed the utilization of this program through interviews and review of the MOU. The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The aforementioned victim advocates are available to the victim during the forensic medical examination process and investigatory interviews and they provide emotional support, crisis intervention, information, and referrals. Although these services have not been utilized at this facility, I verified their availability through interviews and review of the memorandum of understanding.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency ensures that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment. This was confirmed through review of policies which outline the procedures for investigating sexual abuse and sexual harassment. I further verified all allegations are investigated during investigator interviews, staff interviews, and review of the agency investigative reports.

The agency investigates all allegations. I verified that the investigative procedure is published on the agency's website.

The agency has policies in place that govern the investigative process. This was confirmed during policy review and investigator interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency provides yearly training to all employees on the areas enumerated in this standard. I reviewed the training curriculum and materials, I found that they address all areas. I further confirmed the training during the staff interviews and the review of training records. The employees receive the initial training and annual updates. It was confirmed during staff interviews that they also receive updates during roll calls.

All employees receive training on interacting with males, females, transgender, and youthful inmates. This was confirmed during review of training materials and during staff interviews.

The employees are verifying the receipt of the training through a signature, this was verified during the review of the sample signature logs.

All staff at the facility is provided a laminated card that outlines the required response to a PREA incident. Several of the interviewed staff showed me their cards during the interview process.

The training provided by the agency is yearly by the PREA Coordinator. At the beginning of each year he meets with all training officers and provides them with the yearly training and explains any changes to the training. The PREA Coordinator is constantly improving on the training materials, and during our many discussions we talk about how to better train staff on the prevention of sexual abuse, and what additional training is most beneficial. He has incorporated this into the staff training, providing the most up to date information to the OKDOC staff.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has trained all volunteers and contractors who have contact with inmates on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. I also confirmed this practice with the several Chaplains, who are designated as the volunteer coordinator. The volunteers are trained at the agency level, and receive recertification training every two years. This training consists of a one-day training, this training includes the agency's zero tolerance policy and PREA. The facility has trained 299 volunteers and contractors who currently have contact with inmates at the facility.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

The agency is far exceeding the expectations of the standard. They are training the volunteers every two years and ensuring they are aware of the zero-tolerance policy and PREA.

No volunteers or contractors were available during the audit, at this time they are not allowed to enter the facility due to the Covid 19 pandemic.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

During the intake process inmates receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment, this information is located in the inmate handbook. This was confirmed during the inmate and staff interviews, I further confirmed this by reviewing inmate files and ensuring that the Zero Tolerance Acknowledgment for Offenders Forms were in the files and signed by the inmates.

The inmates receive an in depth orientation at which time the facility provides training on the Prison Rape Elimination Act. This was confirmed during the staff interviews and the inmate interviews. This orientation takes place within seven days of arriving at the facility.

The facility provides inmate education in formats accessible to all inmates, this includes inmates who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to inmates who have limited reading skills. The facility provides materials to inmates in Spanish, they also have designated staff who can provide interpretation of other languages. The Case Managers confirmed they would provide education to other individuals if needed.

The facility has all key information on the zero tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the inmate and staff interviews.

I conducted several interviews with inmates who have been in custody at several OKDOC facilities. They confirmed that they received training and education at every facility they were transferred to. I further confirmed this by reviewing the inmate files, several inmates had the Zero Tolerance Acknowledgment for Offenders Forms from other facilities in their file.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency is responsible for both the administrative and criminal investigations of all sexual abuse and sexual harassment incidents. These investigations are conducted by the Office of Fugitive Apprehensions and Investigations. These investigators are sworn law enforcement officers and are trained in conducting criminal investigations. The training they have received includes the use of Miranda and Garrity warnings, techniques for interviewing sexual abuse victims, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for

administrative action or prosecution referral. This was confirmed during the investigator interviews, investigation review, and policy review.

The agency documents all training attended by the investigators. This was confirmed during the interviews with the investigators, as well as review of the training records.

All of the agency investigators are certified through the Oklahoma Council on Law Enforcement Education and Training, and have received extensive training in criminal investigation. The investigators have also attended specific training courses on sexual abuse investigation.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

 Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All full and part-time medical and mental health care practitioners have been trained on the following:

- How to detect and assess signs of sexual abuse and sexual harassment;
- How to preserve physical evidence of sexual abuse;
- How to respond effectively and professionally to victims of sexual abuse and sexual harassment; and
- How and to whom to report allegations or suspicions of sexual abuse and sexual harassment.

This was confirmed by reviewing the training materials utilized by the Oklahoma Department of Corrections, and during the review of the PREA Training for Medical & Mental Health Course Rosters at the Oklahoma DOC facilities where medical and mental health staff is assigned. Medical and Mental Health for all inmates at Oklahoma City CCC is offered at Kate Barnard Correctional Center, the inmates are transported there for these services. I also confirmed this training with the medical and mental health staff during interviews at Kate Barnard Correctional Center.

The medical staff employed by Oklahoma DOC does not conduct sexual assault examinations. All sexual assault examinations throughout the agency are conducted by hospital staff or rape crisis center staff.

The medical and mental health care practitioners also receive the training mandated for employees under § 115.31 or for contractors and volunteers under § 115.32, depending upon the practitioner's status at the agency. This was confirmed during the review of training rosters at Kate Barnard Correctional Center. I also confirmed this training with the medical and mental health staff during interviews there.

Kate Barnard Correctional Center is providing this training on a yearly basis to all medical and mental health care practitioners. This practice far exceeds the requirement of the standard. They have also

created a Medical PREA binder with all training materials, policy, and a flow chart to utilize during incidents. This is utilized by staff as a refresher and also as a quick reference during an incident.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All inmates are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identify all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility, they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.

The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools and during the staff and inmate interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to case managers, medical if needed, and administration. The screening information is stored in the inmate field files, which are kept in locked filing cabinets in the case managers offices.

The agency further screens all inmate through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.

The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers make weekly room inspections and interact with the inmates. They also meet with all inmates monthly, and make case notes on the meeting. Currently the case managers are going room to room on a daily basis to check on all inmates. This gives the Case Managers the opportunity to observe the inmates and ensure there is no change in their behavior or status. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

- Does the agency make individualized determinations about how to ensure the safety of each resident? Yes No

115.242 (c)

- When deciding whether to assign a transgender or intersex resident to a facility for male or female residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems (NOTE: if an agency by policy or practice assigns residents to a male or female facility on the basis of anatomy alone, that agency is not in compliance with this standard)? Yes No
- When making housing or other program assignments for transgender or intersex residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems? Yes No

Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and inmate interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmate's own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates. These practices were confirmed during the interview with the transgender inmate.

I confirmed during interviews with the Case Manager Supervisor and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy.

Neither the agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during agency level interviews, as well as inmate interviews, several inmates interviewed at the facility identified as gay, and bisexual.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

The facility provides the inmates the information on reporting in the inmate handbook provided at intake and through signage throughout the facility. The inmates can report directly to any staff, through the PREA reporting hotline at #73 on the phone, or to the Oklahoma State Bureau of Investigations, which is the agencies external reporting avenue. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the inmates. During the interviews with both staff and inmates I confirmed that they were aware of the reporting avenues and that they can remain anonymous.

The agencies website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of inmates. The policy allows the staff to report directly to the Inspector Generals through a telephone number or email. All interviewed staff was aware of these reporting avenues.

I found during the inmate interviews that the inmates who were interviewed felt that if something was happening, they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all inmates, the agency has provided so many different reporting avenues that an inmate should feel comfortable with one of them.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All provisions of this standard are addressed in the agencies Inmate/Offender Grievance Process. I reviewed this policy in its entirety. I further questioned staff on this procedure, they understood the process if an inmate filed a grievance pertaining to sexual abuse.

The audited facility did not have any grievances filed within the last 12 months relating to sexual abuse. This was confirmed through interviews and a memo from the facility. The interviewed inmates were aware of the opportunity to file a grievance related to sexual abuse, but they all stated they would utilize another reporting avenue. The interviewed staff was aware of their responsibility to assist an inmate in filing a grievance if they asked, but they also stated they would report the incident as per policy and respond accordingly.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

Access to outside confidential support services is outlined in the agencies policies and procedures. The inmate would have the ability to utilize the services of the YWCA of Oklahoma City who provides both the SANE and Victim Advocacy. The services that the inmates would receive are the same as the level received in the community. This was confirmed during my interview with the supervisor at the YWCA of Oklahoma City.

Through interviews I further established that follow up mental health care would be provided by the facility, for any inmate who was involved in an incident.

All of the information required under this standard and all provisions is provided to the inmates, this was verified through review of the documentation and interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The agencies website outlines the third party reporting avenues, this was confirmed through review of the agency website. The website has the following posted:

- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency has established a policy that meets these provisions of this standard. The agency has identified the facility designated monitors to monitor the inmate or staff member for alleged retaliation.

The agency has established through past incidents that they utilize housing transfers, as well as facility transfers of perpetrators to protect the victim in an incident. This was confirmed during review of investigations and through staff interviews.

The Case Managers interact with the inmates daily, they would be assigned to help monitor the inmate to ensure that no issues were occurring.

This facility has not had an incident in the past 12 months. I reviewed completed Protection Against Retaliation forms from other facilities that show the agencies monitoring of the inmates.

The PREA Compliance Manager understood his obligation under this policy.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

During the policy review I established that the agency has policies in place that address all provisions of this standard. More importantly during the review of agency investigations, and staff interviews I found they understand the provisions of the standard and are applying them throughout their investigations.

The Administrative Investigators have received training on how to conduct the investigations at the facility level. They work closely with the Office of Fugitive Apprehensions and Investigations during any investigation. The members of this unit are highly trained sworn law enforcement officers who will conduct both in depth administrative investigations as well as all criminal investigations. After reviewing investigations throughout the agency I was impressed with the consistency of the overall investigation process.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.
