## AUDIT FINDINGS

### **Narrative:**

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

### **Pre-Onsite Audit Phase**

#### **Audit Planning and Logistics:**

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Carla Braggs. We coordinated the dates for the onsite audit at the facility. During these conversations we outlined an overall audit schedule, and she notified the facility of the estimated time of arrival onsite.

#### **Posting Notice of the Audit:**

I forwarded the audit posting to the Agency PREA Coordinator on August 19, 2021, she then forwarded the posting to the facility. The posting included the dates of the audit, purpose of the audit, my contact information, and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas, and all common areas. I verified the placement of the audit notices through time stamped photographs and during the facility tour, and inmate and staff interviews. I did not receive any letters from staff or inmates at the audited facility.

#### **Review of Agency and Facility Policies, Procedures and Supporting Documentation:**

The Agency had previously provided me all Oklahoma Department of Corrections Policies and Procedures related to the Prison Rape Elimination Act. The facility PREA Compliance Manager provided me with a flash drive containing all facility level Policies and Procedures, as well as documentation that all Department and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed Pre-Audit Questionnaire. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

#### **Outreach to Community Advocacy Organizations:**

I contacted INTEGRIS Grove Hospital who provides victim advocacy as well as the forensic examination, the agency holds a Memorandum of Understanding with them. I confirmed that they provide victim advocacy for the facility, and they provide the services as outlined in the MOU. She also related that she knew of no issues at the facility.

I also contacted Kathy Bell the Statewide SANE Coordinator. I verified that all SANE examinations in the State of Oklahoma are provided at no cost to the victim. I also confirmed that when a Sexual Assault Examination takes place a victim advocate is dispatched with the nurse, and provides victim advocacy during the examination, interviews and for any follow-up advocacy. Ms. Bell knew of no issues at the audited facility, nor at any other Oklahoma Department of Corrections Facility.

#### **Agency level interviews:**

During the current audit I verified that there have been no changes in any agency process since the last audits conducted in October 2020. From 05/03/21 through 05/14/21 I interviewed agency level staff again these included the Director, Investigative Staff, Administrative Personnel, and the PREA Coordinator.

### **Onsite Audit Phase**

#### **Site Review:**

The Agency PREA Coordinator and I met with the Center Director on October 4, 2021 at approximately 7:30 a.m. to conduct a briefing and facility tour. We discussed the onsite portion of the audit, including facility tour, inmate and staff interview location, and document review.

During the tour I had the opportunity to view all areas of the facility. I interacted with both staff and inmates, as well as observed the interaction between the staff and inmates. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While in the housing areas I observed the related PREA information, audit posting, and applicable policies and procedures posted in the common areas, which are accessible to all inmates. These postings were further observed in common areas throughout the facility. While conducting the tour I reviewed the logbooks on the housing units.

The inmate interviews began immediately following the facility tour. The interviews were conducted in the Center Directors Office which provided privacy for the interviews as well as social distancing. The inmates were randomly selected from inmates on the housing units. During this process I interviewed inmates in the following categories:

Interview Type

Random Inmate Interviews 15

Inmates with a Physical Disability 1

Inmates who are Blind, Deaf, or Hard of Hearing 1

Inmates who are Limited English Proficient 0

Inmates with a Cognitive Disability 3

Inmates who Identify as Lesbian, Gay or Bisexual 0

Inmates who identify as Transgender or Intersex 0

Inmates in Segregated Housing for High Risk of Sexual Victimization 0

Inmates who Reported Sexual Abuse 0

Inmates who Reported Sexual Victimization During Risk Screening 0

Total Inmate Interviews 20

During the interview process several targeted categories of inmates were not being housed at the facility.

I conducted the interviews with all inmates in the same manner, a preamble to the interview was relayed to the inmate explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No inmates refused to speak with me. All inmates were asked questions related to the Random Inmate Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received by inmates, Inmate Handbook, OK DOC Self Report Form, and the OK DOC Cell Assessment Form to visually stimulate the inmate's recollection of their initial intake process.

Upon completion of the inmate interviews the staff interviews were conducted in an office area throughout the facility, these interviews were all conducted in private. These interviews were conducted on both days of the audit and during all shifts. During the process I interviewed staff in the following categories:

Interview Type

Random Staff Interviews 9

Intermediate or Higher Level Staff Conducting Unannounced Rounds and Intake Staff 2

Medical and Mental Health Staff 1

Administrative Staff 1

Volunteers and Contractors 0

Investigative Staff 1

Staff who Perform Screening 2

Staff on the Sexual Abuse Incident Review Team 1

First Responders 2

Warden/PREA Compliance Manager and Designated to Monitor for Retaliation 1

Total Staff Interviews 20

I conducted the interviews with all staff in the same manner, a preamble to the interview was relayed to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff were asked questions related to the Random Staff Interviews, and if they were in a targeted category. They were then asked questions pertaining to that area. During the interviews I utilized a copy of the training they received, and any documentation related to a specific targeted interview. These items were used to visually stimulate the staff's recollection on the daily practices at the facility.

The onsite documentation review was conducted during both days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

**Post Audit:**

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Community Confinement.

## AUDIT FINDINGS

### Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Lawton Community Corrections Center is located at 605 SW Coombs Road Lawton, Ok. The immediate area surrounding the facility is residential.

The concept of community corrections has been well established in Oklahoma for some time. On March 18, 1970, the Oklahoma Crime Commission awarded the Department of Corrections a grant to open community treatment centers in the state. The first, Oklahoma City Community Treatment Center was opened October of 1970. Since that time the Department of Corrections has introduced additional centers in Tulsa, Enid, Lawton, Muskogee, Oklahoma City, McAlester and Union City. All operate under guidelines set forth by state statutes, the Board of Corrections, and the policies of the Oklahoma Department of Corrections. Inherent in these guidelines is a basic philosophy of providing increased opportunities to inmates for engaging in responsible behaviors.

This facility was opened in 1973. The majority of the inmates are assigned to work for surrounding city, county, or state agencies under provisions of the Prisoner Public Works Program. Inmates at Lawton CCC can also participate in the work release program. The facility provided programming on site for inmates, volunteers also come into the facility multiple times a week to provide various programming

The main facility is located within one building, this building houses all inmates, the kitchen, dining hall and recreation area for the facility. The compound within fence houses the Case Managers Building, Administration Building, Programs Building (which is vacant at this time), a visitation building, and the maintenance building. A Probation and Parole Office, Administration building, and warehouse are also located on the property general inmates do not have access to these building, but orderly's do clean and work in the buildings.

The majority of the housing areas throughout the facility are multi occupancy rooms, the facility also has one dormitory style housing unit. The facility also has a four-man room connected to control that is utilized for individuals being sent back to higher security facilities. The inmates are not housed in this area for more than 24 hours.

Showers and toilets are located in three separate housing areas of the facility. The toilets have doors or curtains, and the showers all have curtains.

The facility has a full kitchen that provides meals to the inmates.

During my tour of the facility I found that the information on the Prison Rape Elimination Act, and reporting avenues located throughout all of the buildings at the facility, all of this information is also available to the inmates in their issued handbook.

I found that administrative staff, as well as general staff move throughout the compound facility, this movement of staff deters any violation of the PREA policy, and more importantly provides an overall safe environment for both inmates and staff.

During the onsite audit I was impressed with the overall culture of the facility, and the professional as well as respectful treatment of the inmates. I strongly believe that this culture helps to maintain the safe environment at the facility, and has built a confidence in the inmates to report any issues directly to staff. This was corroborated during my interviews with the inmates during the onsite audit.

## AUDIT FINDINGS

### Summary of Audit Findings:

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy ). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

## Standards

### Auditor Overall Determination Definitions

- Exceeds Standard  
(Substantially exceeds requirement of standard)
- Meets Standard  
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard  
(requires corrective actions)

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.211	<b>Zero tolerance of sexual abuse and sexual harassment; PREA coordinator</b>
	<b>Auditor Overall Determination:</b> Exceeds Standard
	<p><b>Auditor Discussion</b></p> <p><b>Documentation Reviewed:</b></p> <p>Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy Memorandum of Appointment of PREA Coordinator</p> <p>Memorandum of Appointment of PREA Manager</p> <p>PREA Compliance Manager List</p> <p>Organizational Chart – Dept. of Corrections</p> <p>Organizational Chart – Facility</p> <p>The Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy outlines the agency’s mandated zero tolerance toward all forms of sexual abuse and sexual harassment and further outlines the agency’s approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.</p> <p>I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.</p> <p>The agency has designated an agency wide PREA Coordinator. During the interview she related that she has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the Oklahoma Department of Corrections. Prior to becoming the Agency PREA Coordinator, she was the PREA Manager. The PREA Coordinator works directly with the PREA Manager, the PREA Manager is a second agency level position. This position is also dedicated to the implementation of the PREA Standards throughout the OKDOC. During the second audit cycle audits of the OKDOC facilities, every Warden and PREA Compliance Manager stated that the PREA Coordinator and the PREA Manager are always available to answer questions and provide advice on the implementation of the PREA policies.</p> <p>The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview, the PREA Compliance Manager related that they have enough time to implement the PREA Standards at the facility. During the onsite audit I found that the PREA Compliance Manager is making routine tours of the facility to ensure overall operational safety, which includes sexual safety.</p> <p>Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and inmates.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the agency's overall commitment to sexual safety in their facilities.</p>

115.212	<b>Contracting with other entities for the confinement of residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p><b>Documentation Reviewed:</b></p> <p>Executed contracts between ODOC and Private Prisons, or Jails with relevant PREA language</p> <p>The Oklahoma Department of Corrections contracts with several agencies to house inmates. I reviewed these contracts in their entirety, the contracts specify that the contractor must adhere to specific Oklahoma Department of Corrections policies, one being OP-030601 the Oklahoma Prison Rape Elimination Act Policy.</p> <p>I further confirmed during interviews that the facilities are monitored for compliance through direct assignment of staff at each facility. All contracted facilities were audited during the previous auditing cycle and will be audited during this auditing cycle. The PREA Audit is a requirement of the contract.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.</p>

	<p><b>Documentation Reviewed:</b></p> <p>Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy Staffing Plan (review February 2021)</p> <p>Daily Assignment Post Roster</p> <p>Master Roster</p> <p>Facility Brochure</p> <p>Facility diagrams showing camera locations</p> <p>Log for all shifts</p> <p>The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment.</p> <p>The staffing plan was completed and reviewed by the Center Director on February 12, 2021 and the Agency PREA Coordinator on February 15, 2021. This was confirmed through interviews and viewing the signature on the staffing plan. I also reviewed the prior two years of staffing plans to ensure the yearly review is consistent.</p> <p>During the interviews with the administration at the facility I confirmed a daily review of the staffing at the facility. The administration meets on a regular basis, this includes the Center Director/PREA Compliance Manager, Unit Managers, and Chief of Security. During this meeting, the overall facility operations are discussed to include staffing.</p> <p>The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime if needed.</p> <p>The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.</p>

115.215	<p><b>Limits to cross-gender viewing and searches</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p><b>Documentation Reviewed:</b></p> <p>Oklahoma Department of Corrections Policy: OP-030601 Prison Rape Elimination Act Policy</p> <p>Oklahoma Department of Corrections Policy OP-040110 Search and Seizure</p> <p>Pat Search Lesson Plan</p> <p>Training rosters</p> <p>Transgender Pat Search power point</p> <p>The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and inmate interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.</p> <p>The facility does not house female inmates.</p> <p>The above policies outline procedures and practices that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks. The policy further dictates that staff of the opposite gender announces their presence when entering an inmate housing unit. These practices were confirmed during the staff and inmate interviews as well as during the facility tour when I observed the announcements taking place. The housing areas are either multi occupancy rooms or open dorm style. The bathrooms have either curtains or concrete walls that provide privacy. During the facility tour I viewed every bathroom at the facility, I found that all bathrooms provide privacy for showering and performing bodily functions.</p> <p>The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it is determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. If a transgender or intersex inmate were placed at this facility, they would have been identified as such by the facility they were being transferred from.</p> <p>The agency has trained security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency and facility are substantially compliant with the requirements of this standard, and all provisions.</p>

These steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to inmates in these categories in the above directives as well as the Limited English Proficiency (LEP) Plan. This plan outlines procedures for inmates who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and inmate interviews.</p> <p>The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. The agency has a list of approved interpreters within the agency who are available when needed. This interpretation includes verbal as well as sign language.</p> <p>The agency does not rely on inmate interpreters, inmate readers, or other types of inmate assistants. The interviewed agency investigator is aware of the approved interpreters and confirmed during their interview that they utilize these services.</p> <p>During the inmate interviews I interviewed inmates with cognitive disabilities and hearing loss. All of these inmates related that the staff further explained the sexual abuse and sexual harassment policies and ensured that the inmates understood the reporting avenues.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.</p>

The agency has developed the Oklahoma Department of Corrections Applicant Questionnaire and Background Investigation Form. This form specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with staff, and Human Resources I verified that the form is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all the reviewed files. During the staff interviews I verified they were asked these questions.</p> <p>During the documentation review, and review of personnel files I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.</p> <p>The agency has implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per Department policy. During the review of personnel files, I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency further utilizes the Rap Back System through the Oklahoma Law Enforcement Telecommunications System. The Rap Back System notifies the agency if any changes occur in any Staff, Volunteer, or Contractors Criminal History, this system runs constantly and negates the five-year Criminal History Check. The facility is also conducting a separate five-year Criminal History Check, I reviewed the logs and confirmed that these are occurring for all staff.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.</p>

The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with inmates. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. I also confirmed this practice with several Chaplains, who are designated as the volunteer coordinator. The volunteers are trained at the agency level and receive recertification training every two years. This screening is conducted utilizing the Self Report Form and the Cell Assessment Form. These instruments identify all areas of victimization and abusiveness enumerated in this standard. This was verified through interviews with staff and inmates, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if an inmate is transferred to another facility, they would receive a screening again.</p> <p>The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and inmates.</p> <p>The facility is reassessing all inmates within 30 days of arrival, this reassessment is being conducted by the case managers, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.</p> <p>The facility would reassess an inmate's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the inmate's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.</p> <p>Inmates are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools and during the staff and inmate interviews.</p> <p>The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is only available to case managers, medical if needed, and administration. The screening information is stored in the inmate field files, which are kept in locked filing cabinets in the case managers offices.</p> <p>The agency further screens all inmates through medical, where they again ask questions relative to sexual victimization, this was confirmed by reviewing the medical screening forms and interviews.</p> <p>The inmates are constantly being reassessed by their assigned Case Managers. The Case Managers make housing unit inspections and interact with the inmates. They also meet with all inmates monthly and make case notes on the meeting. This was confirmed through interviews and watching the interaction between inmates and the Case Managers.</p> <p>After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency substantially exceeds the requirements of this standard, and all provisions.</p>

This was confirmed during review of the policy, and during staff and inmate interviews.</p> <p>The agency makes all these determinations on an individualized basis, this ensures the safety of each inmate. This was confirmed during policy review, and staff and inmate interviews.</p> <p>I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems. I also confirmed that the inmate's own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that a transgender inmate would be given the opportunity to shower separately from other inmates.</p> <p>I confirmed during interviews with the Case Manager Supervisor and Case Managers that placement and programming assignments for each transgender or intersex inmate would be reassessed at least twice each year. This is also addressed in policy.</p> <p>Neither the agency nor facility place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely based on such identification or status.
