

Programs

WIC - a nutrition education and supplemental food program for pregnant women, postpartum women and their infants and children.

WIC PLUS - adds Child Development Specialist services to WIC visits, including parenting information and children's books

Child Guidance - a public health program designed to strengthen the parent-child relationship and promote optimal development. Behavioral Health, Speech-Language and Child Development services are offered for children birth through 12 years of age.

SoonerStart - Oklahoma's early intervention program designed to meet the needs of families with infants or toddlers (ages birth to 3 years old) with developmental delays and/or disabilities.

Cleveland County Health Department

Child Health Services are offered by Advanced Practice Nurses (APRNs). They provide well child care and treatment for minor acute illnesses for ages 0-18 years in county health departments. Providers use the American Academy of Pediatrics' Bright Futures Guidelines to assure care is evidence-based and family-centered.

Child Health Services

Well-Child Exams

Well-child exams are essential in making sure children stay healthy. These visits are important in tracking growth and developmental milestones and discussing concerns about your child's health, and referring to specialists such as speech therapy, occupational therapy, physical therapy, and counseling. Well-child visits include routine preventative screenings including vision, hearing, lead, hemoglobin and cholesterol.

Sick Child Visits

When your child is sick, you need reassurance and guidance. These visits may include a physical assessment, point of care testing including strep, RSV, COVID-19, Flu A/B, Urinalysis and prescriptions.

Immunizations

Vaccinations can save your child's life by protecting against preventable diseases. All children two months of age and older must present an immunization record or file for an exemption before they are allowed to attend child care or school in Oklahoma.

Head Start & Sports Physicals

Physicals can identify any potential health concerns or risks that may affect the student's ability to safely participate in school activities. It also serves as an opportunity to provide education and guidance on injury prevention, healthy lifestyle habits and necessary medical accommodations.

Car Seat Checks

Is the car seat you are using the correct size and type for your child? Has it expired or been included in a recall? Certified technicians can do free car seat checks and installations. Eligible clients may receive car seats at no cost.

Community Health Worker Resources

Community Health Workers connect clients to services that address their specific needs. Resources offered through health department programs and community assistance services.

Insurance is accepted, but services will not be denied due to an inability to pay.
