Zoom Meeting

Welcome & Introductions:

Morgan Fitzgerald, co-chair, opened the meeting by welcoming all and briefed all attendees on the main topic of reviewing the goals and make any changes/updates.

Goals Review:

1. By 2023, Include the Cognitive decline module during odd years and the Caregiver module during even years to the CDC Oklahoma Behavioral Risk Factor Surveillance System (BRFSS) survey in order to provide the Oklahoma Healthy Brain Initiative workgroups sound data to support projects and coalition related work.

- Approved as written.

2. By 2026, utilize current data and needs assessments to collaborate with the Caregivers Coalition to create and implement a new caregiver survey to address the current needs of caregivers in Oklahoma.

- Approved as written. Plan to start this work in 2024/2025 to allow time to receive enough responses for enough data.

3. By 2025, Utilize synthetic estimates and other data sources to create and distribute infographics regarding older adults and Alzheimer's disease and related dementias to Oklahoma Caregivers, Providers, and the general public in order to educate and inform about current trends in Oklahoma.

- Leslie gave a brief overview of synthetic estimates, etc. Establish to look at doing this every year. John and Morgan will look at updating the language for every year. Want to make sure we share this with the Alzheimer's Association-Oklahoma Chapter once created.

Survey Updates:

Morgan updated everyone that all 3 surveys have closed. We received 346 caregiver surveys, 63 provider surveys, and the majority of the coalition members completed our evaluation survey.

Morgan will be presenting a poster at the BOLD Dementia Caregiving Conference this month on the Caregiver Survey. She shared the poster with the group, and they looked over the findings together.

Close:

John and Morgan will edit Goal #3 and present it to everyone at the August meeting.

Next Coalition Meeting Date- July 19, 2022 from 1-3pm.
