<i>O.A.C. 310:641-5-1 (G) states: If the proposal proposes the use of matching funds, points shall be awarded consistent with the following formula:</i>	
Matching fund formula: Total encumbered matching dollars / total project amount = % of matching dollars. Encumbered matching dollars means the total dollar amount of both in hand and in kind matching funds.	
Total project amount is the sum of the total encumbered matching dollars and the amount of requested funds from Section 7.	
Example: \$25,000.00 (Total encumbered matching dollar)/\$100,000.00 (Encumbered and requested funds) = 25% matching dollars	
Entities providing matching funds shall provide documentation that verifies a commitment to provide matching funds and the amount to be provided. There are two types of matching funds: 1) "In Hand", which are funds set aside to accomplish the goals and benchmarks of the project; and 2) "In kind" contributions, that have been received to complete the proposal. In-kind matching funds will be required to have a monetary value for budgeting purposes.	
In kind matching funds are services or goods that are donated to the grantee agency by a third party. <b>Note: that one division/department within an agency/organization CANNOT donate goods or services to another division/department with that same agency/organization.</b>	
Examples of "In kind" matching funds or contributions include: 1) Personnel time given to the project (no cash payment for time); 2) Person on loan from another organization/corporation; 3) Use of existing equipment; 4) Use of existing laboratory equipment or facilities; 5) donations from a third party- (excluding cash)	
<b>The matching fund allocation will need to be detailed in the proposed expenditures in Section 10 of this application.</b>	
<b>Failure of the applicant to clearly detail the budget, to include matching funds and expenditures, may result in the application being rejected.</b>
