### Age Specific Rates of Suicide, 2013-2017

### Suicide is Preventable

Suicide is a serious public health problem that can have lasting harmful effects on individuals, families, and communities. While its causes are complex and determined by multiple factors, the goal of suicide prevention is to reduce factors that increase risk and increase factors that promote resilience. Ideally, prevention addresses all levels of influence: individual, relationship, community, and societal. Effective prevention strategies are needed to promote awareness of suicide and encourage a commitment to social change.

## We Can All Take Action

Evidence shows that providing support services, talking about suicide, reducing access to means of self-harm, and following up with loved ones are just some of the actions we can all take to help others.

The Prevention Division at the Oklahoma Department of Mental Health and Substance Abuse Services offers extensive suicide prevention training, consultation, technical assistance and resources to assist in creating comprehensive strategies for reducing suicides in Oklahoma. For more information about suicide prevention programs and resources available in your community, please contact the Shelby Rowe, Suicide Prevention Program Manager, at [Shelby.Rowe@odmhsas.org](mailto:Shelby.Rowe@odmhsas.org), or visit [https://www.ok.gov/odmhsas/Prevention\\_/index.html](https://www.ok.gov/odmhsas/Prevention_/index.html).

## Suicide Death Rates by County of Injury, Oklahoma, 2013-2017

Source: OSDH, Injury Prevention Service, Oklahoma Violent Death Reporting System

The Oklahoma Violent Death Reporting System (OKVDRS) is a statewide surveillance system for suicides, homicides, undetermined manner deaths, unintentional firearm injury deaths and legal intervention deaths. Data are collected from medical examiner reports, death certificates, law enforcement reports, and child fatality review data. The data are included in the National Violent Death Reporting System and can be accessed at [www.cdc.gov/injury/wisqars/](http://www.cdc.gov/injury/wisqars/).
