About the National Breast and Cervical Cancer Early Detection Program

The Centers for Disease Control and Prevention's National Breast and Cervical Cancer Early Detection Program (NBCCEDP) provides consumer education, free and low-cost breast and cervical cancer screenings, and diagnostic services to low-income, uninsured, and underserved women. The NBCCEDP provides funding to all 50 states, the District of Columbia, 5 U.S. territories, and 12 American Indian/Alaska Native tribes or tribal organizations. Since 1991, NBCCEDP grantee programs have served more than 3.7 million women, and provided more than 9.2 million breast and cervical cancer screening examinations.

Federal guidelines establish eligibility to uninsured and underinsured women at or below 250% of federal poverty level, ages 18–64 for cervical cancer screening and 40–64 for breast cancer screening.

Take Charge! eligibility guidelines are tailored specific to Oklahoma. For details see the web site.
