87 injection wells in the Panther Creek Hart SU, # 35580.

These are all the injection wells that were operated by Phillips, Moran-Kahn, Superior Oil Company and Mobil Oil Co. in the Panther Creek Hart Sand, # 35580. Visual inspection on 9-6-88 by OCC Field Inspector Bob Brooks and Mobil Field Superintendent Charles McCulley verified these injection wells had been plugged. Several of these wells have not had a plugging report filed in the Duncan OCC Office. It is not known which operator plugged which wells, however, all wells appear to have been plugged.
