Dear Mr. Furgeson,

The Department of Defense (DoD) Military Aviation and Installation Assurance Siting Clearinghouse (Clearinghouse) has received notice from the Federal Aviation Administration, pursuant to section 44718 of title 49, United States Code, of the Twelvemile wind project near Milburn, Oklahoma. Based on our preliminary review of your wind energy project, we have found that it will have an adverse impact on flight operations conducted by the U.S. Air Force within routes VR1145 and VR1146 if constructed as proposed.

This notice of presumed risk for the wind project, required by section 183a(c) of Title 10, United States Code, requests that you enter into discussions of possible mitigation actions with the Department of the Air Force.

Please let us know within 30 days from receipt of this letter if you are willing to enter into mitigation discussions. As also required by section 183a(c), DoD is providing a copy of this letter to the Oklahoma Governor's office and requesting any comments the Governor believes of relevance to the application.

If you agree to enter into mitigation discussions, the Clearinghouse will task the U.S. Air Force to establish a mitigation response team and will provide you the contact information for the primary Air Force point of contact. The Clearinghouse contact, Mr. Michael Lignowski, can be reached by phone at (571) 372-6853 or by email at michael.j.lignowski.ctr@mail.mil.

Sincerely,
