**RE: Publication of Newspaper Notice of Intent to Construct a Wind Farm in Beckham and Roger Mills Counties, Oklahoma**

Dear Commission:

On behalf of the owners of the New Liberty Energy Center (New Liberty), this is a filing to demonstrate compliance with the requirement of the Oklahoma Wind Energy Development Act, 17 Okla. Stat. §160.21.B to publish a copy of the notice of plans for the erection of wind turbines in newspapers in the counties that would be affected by the Project. The newspaper notice and this filing are being provided within six (6) months of the notice provided to OCC on February 9, 2016 regarding our initial filing of a Notice of Construction (Form 7460-1) with the Federal Aviation Administration (FAA). As of the date of this notice, and based on publicly available data, New Liberty attests that the Project design complies with the setbacks required by the Wind Energy Development Act.

The Project site is located in north-central Beckham County and southern Roger Mills County, north of the city of Sayre. On the advice of the respective county commissioners, notices were published in the *Sayre Record-Democrat* and *Elk City News* for Beckham County, and in the *Cheyenne Star* for Roger Mills County. Exhibit A to this letter is a copy of the notice as provided to the newspapers, which includes a brief description of the project and a map indicating the proposed wind turbine locations, as filed with FAA and provided to the OCC in February. Exhibit B provides photo images of each of the three newspaper pages showing the notice and the dates of publication.

If you have any questions about this filing, you can reach me at the number or email below.

Sincerely,

Thomas Kruger

# NOTICE OF INTENT TO CONSTRUCT A WIND ENERGY GENERATION FACILITY

In October 2015, the owners of the New Liberty Wind Energy Project filed a Notice of Intent to Construct a wind energy generation facility with the Federal Aviation Administration (FAA). The Project will be located on private lands north of Sayre, in northern Beckham and southern Roger Mills Counties, Oklahoma. The Project will consist of approximately 100 wind turbine generators and associated infrastructure.

The FAA filing, shown below, represents a preliminary conceptual project layout. Turbine locations are subject to change as the project matures toward construction.

Pursuant to the Oklahoma Wind Energy Development Act (O.S. 17.160) Section 21, notice of the FAA filing was provided to the Oklahoma Corporation Commission and the Beckham and Roger Mills County Commissioners in February 2016.

A public information meeting will be held in the near future to provide area residents information about the development of the Project.

**WHEN:** Saturday, August 7, 2:00 p.m.  
**WHERE:** Washita Battlefield National Historic Site

CHEYENNE, Oklahoma - On Sunday, August 7, at 2:00 p.m. Washita Battlefield National Historic Site invites the public for the second presentation of the Summer Lecture Series. The park will highlight Audrey Kalojeda on "Following the Parker Trail." Ms. Kalojeda will reveal the saga of the Parker family.

Most people are familiar with the story of Cynthia Ann Parker, the 9 year old, blue-eyed Indian captive that became the wife of a Comanche Chief. Her oldest son became the well known Fennellville Comanche Chief, Quanah Parker. What about the rest of the Parker family? Ms. Kalojeda will dive deep

into the stories of a typical pioneering family of the 1800s. If not for the raid on Fort Parker, Texas, and the capture of little Cynthia Ann... they would have been just another family "passing through."
