Re: Use of the Driver Risk Inventory (DRI) and Defendant Questionnaire (DQ)

Dear ADSAC Assessors,

Effective immediately, please use the following parameters in deciding whether to use the DRI or DQ:

- Use the DRI if the individual is legally charged with the following alcohol or drug related offenses:
 - Driving Under the Influence;
 - Driving While Impaired; or
 - Actual Physical Control.

- For all other charges which an assessment needs to be completed for driver's license reinstatement (i.e. a possession charge), use the DQ. This includes situations when an individual is stopped by law enforcement while driving, but only receives a possession charge.

Sincerely,

Stephanie Gay, LPC
Director of ADSAC and Provider Certification
