---

### **ITEM PRESENTED BY THE DIRECTOR – Mr. Patterson**

**134. Declaration of Emergency**

Bryan County – District II - Repair SH-22/US-69 Bridge, 15.96 miles north of the Junction US-69 Business, – Less than \$300,000.00

**Information Only:** No Commission action required.

**OKLAHOMA TRANSPORTATION COMMISSION**  
**September 6, 2016**

**AGENDA ITEM NO.: 134**

**SUBJECT: Declaration of Emergency**  
**SH-22/US-69 Bridge, Bryan County**  
**NBI: 20307**

On August 24<sup>th</sup> a truck traveling south on US-69 carrying industrial sulfuric acid left the traveled portion of the roadway, ran up the bridge embankment and impacted the SH-22/US-69 bridge in Bryan County. The impact resulted in an 18-22 inch misalignment of beam 1, deflection of the top flange, separation of the shear connection from the deck, a compression failure of diaphragm 2, as well as acid damage to the western third of span 1, the abutment slope wall and deck. Division Two forces closed the bridge and the bridge remains closed to traffic. On August 31, 2016, I declared an emergency in accordance with Title 61 Oklahoma Statute Section 130 and the authority provided in the Oklahoma Administrative Code to repair the bridge.

Under the authority of my declaration, the Department prepared repair plans and using expedited bidding procedures and will take bids for the repair on Friday, September 9, 2016. It is expected that work will begin on September 12<sup>th</sup> and will take approximately 60 days for completion. It is expected that the cost of repair will be less than \$300,000.00.

No Commission action is required on this Item.
