A concrete bridge spans across a creek. The bridge has a concrete railing and is supported by several concrete pillars. On the bridge, there is a line of traffic including a white truck, a red car, a white car, and a white truck. The surrounding area is filled with green grass and some bare trees. The sky is clear and blue.

The image shows the underside of a bridge structure. A central concrete pier is visible, showing signs of weathering and pitting. Above the pier, several horizontal steel beams are visible, heavily corroded with rust. The ground is covered with a layer of light-colored gravel. In the background, a body of water and a distant shoreline can be seen through the bridge's opening. A wooden stick is leaning against the left side of the bridge structure.

A photograph showing the underside of a concrete bridge. A large pile of grey rocks is situated in the center, partially blocking a concrete pipe. The bridge structure consists of several horizontal concrete beams supported by vertical pillars. The scene is dimly lit, with light coming from the background.
