Date:
June 11th, 2015

Time:
6:00 PM

Place:
In the Sanctuary at
Wilmont Place Baptist Church
6440 S. Santa Fe
Oklahoma City, OK 73139

PUBLIC MEETING

I-35/I-240

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA) is currently developing construction plans for the reconstruction of the existing I-35/I-240 Interchange in Oklahoma City in Oklahoma County. The proposed improvements include the reconstruction of the existing interchange to a multi-level interchange. The purpose of the project is to improve the roadway and operational deficiencies, such as inadequate capacity, poorly spaced access, substandard bridge and ramp configurations, and to accommodate future traffic projections.

There was an Environmental Assessment completed in 2005 and a Finding of No Significant Impact issued. The purpose of the meeting is to present current design information for the interchange including changes to ramps and access. As part of our efforts to keep the public informed of this project and involved in the decision process, ODOT has scheduled a public meeting to present the current information and request public input.

Additional information about the project and the upcoming meeting can be obtained from David Saulsberry, [ODOT Environmental Coordinator](#) at 200 NE 21st Street, Oklahoma City, OK, 73105, (405) 521-2315 or dsaulsberry@odot.org

If you require special accommodations for the meeting, please direct your request to Frank Roesler III, [ODOT Public Involvement Officer](#), at 200 NE 21st Street, Oklahoma City, OK 73105, (405) 521-2350 or m-coordinator@odot.org, at least three (3) working days in advance of the meeting date.

WE LOOK FORWARD TO SEEING YOU THERE
