VIRTUAL OPEN HOUSE
9/25/2020 to 10/12/2020

SH-9 IMPROVEMENTS
from SH-102 east approximately 5.5 miles to end of existing concrete section at west side of Tecumseh Pottawatomie County; JP 23288(04)

www.odot.org/SH9

VIRTUAL OPEN HOUSE

The Oklahoma Department of Transportation will host a virtual open house to present the proposed improvements to SH-9 in Pottawatomie County. This meeting will present the design for the project and allow the public to submit input. Due to concerns over the spread of COVID-19, this will be a web-based format (no in-person meeting). The information will be available beginning September 25, 2020, and comments are requested by October 12, 2020.

Purpose

The purpose of this meeting is to present the proposed design for this segment of SH-9 and obtain public input to aid ODOT in moving forward with the completion of the environmental studies, design, and construction.

Dear Stakeholders, Property Owners and Utility Owners:

RE: Virtual Public Open House for SH-9 Roadway Improvements from SH-102 east approximately 5.5 miles to the end of existing concrete section at west side of Tecumseh in Pottawatomie County; State Job Piece Number JP 23288(04).

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA), is proposing roadway improvements on SH-9 from SH-102 east approximately 5.5 miles to the end of existing concrete section at west side of Tecumseh. The purpose and need for this project is to accommodate future traffic volumes along this segment of SH-9.

Due to ongoing concerns about COVID-19, ODOT will host a virtual open house from September 25, 2020 through October 12, 2020 to present the design for the project and allow the public to submit input. Results of the detailed environmental studies conducted for the project will also be available to view. This pamphlet contains additional information about the virtual open house and a handout describing our right-of-way acquisition process. This right-of-way handout is for information purpose only as your property may or may not be affected by the proposed project.

ODOT has tasked a Consultant to determine the best alternative for correcting the roadway deficiencies while taking into consideration construction costs, right-of-way and utility costs, and environmental constraints. Following the virtual open house, the meeting material can be found at: <http://www.odot.org/publicmeetings>

If you are currently leasing this property, please notify your lessee of our Virtual Open House.

Should you have any questions regarding the project, please call (405) 325-3269 or email environment@odot.org.

Sincerely,

Sivanija S Sundaram

Siv Sundaram, P.E.
Environmental Programs Division Engineer

The Oklahoma Department of Transportation (ODOT) ensures that no person or groups of persons shall, on the grounds of race, color, sex, religion, national origin, age, disability, retaliation or genetic information, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any and all programs, services, or activities administered by ODOT, its recipients, sub-recipients, and contractors. To request an accommodation please contact the ADA Coordinator at 405-521-4140 or the Oklahoma Relay Service at 1-800-722-0353, no later than 72 hours before any scheduled event. If you have any ADA or Title VI questions email ODOT-ada-titlevi@odot.org.

"The mission of the Oklahoma Department of Transportation is to provide a safe, economical, and effective transportation network for the people, commerce, and communities of Oklahoma."

AN EQUAL OPPORTUNITY EMPLOYER

4-Lane Typical Section

Typical section includes four 12-foot wide driving lanes and 10-foot wide shoulders

Project Background

Oklahoma Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA), is proposing roadway improvements for SH-9 from SH-102 east approximately 5.5 miles to end of existing concrete section at west side of Tecumseh. The purpose and need for this project is to accommodate future traffic volumes along this segment of SH-9. The existing SH-9 highway is a two-lane facility with 8 foot wide shoulders and has higher than average commuter traffic. The current (2020) traffic on the segment east of SH-9/SH-102 intersection to Tecumseh is 6,074 vehicles per day (vpd) with a 2040 projected traffic of 8,442 vpd. These next phases of planned improvements to SH-9 are a continuation of an ODOT commitment to improve this heavily used route.

Project Description

The proposed improvement for SH-9 from SH-102 east approximately 5.5 miles to end of existing concrete section at west side of Tecumseh consists of providing four (4) 12-foot-wide driving lanes with 10-foot-wide paved shoulders.
