PINNACLE PLAN MEASURES – MONTHLY SUMMARY REPORT – JANUARY 2014

The Oklahoma Department of Human Services is committed to improving the safety, permanency, and well-being of children served by the child welfare system. The Pinnacle Plan is the roadmap, and public reporting is critical to ensuring transparency and accountability. The [OKDHS Metrics, Baselines, and Targets Agreement -3/7/13](#) outlines how the outcomes are measured and reported. Monthly, Quarterly, and Biannual Reports will be made available to the public. Beginning in July 2013, monthly updates will be posted on the 20th day of each month or the following business day.

Oklahoma is committed to good faith efforts and positive trending toward the goals outlined in the plan. Each monthly report will include four performance areas, comprised of ten specific metric elements. These are: Foster Care Safety, Counts for New Foster Homes, Worker Contacts, and Shelter Usage. In addition to metrics public reporting, OKDHS posts [The Pinnacle Plan - Quarterly Updates](#) which provide valuable information regarding plan initiatives.

Demographics of children are included in monthly and semi-annual reports as context data. This information is helpful in understanding the population being served by the child welfare system.

OKDHS was the first state agency to have a federally approved Statewide Automated Child Welfare Information System (KIDS System) and continues to strive for high quality data. **The data in this report is subject to change due to ongoing data entry, changes in definitions, and/or data quality issues that may be discovered through the process. Beginning with the November 2013 Monthly Report, there has been an added lag time of 60 days from the end of the reporting period to the time that the data is reported on Measures 2 – Resource Homes, Measure 3 – Worker Contacts, and Measure 5 – Shelter Use. This 60-day delay will allow for more stability in the data reported in prior months. There will continue to be a 90-day lag time on Measure 1 – Foster Care Safety to allow time for the Program Review Process.**

If you have questions or feedback regarding the Pinnacle Plan, please email us at dhs.childwelfareplan@okdhs.org.

1.1: Maltreatment in Care by Resource Caregivers

	Oct-2012	Nov-2012	Dec-2012	Jan-2013	Feb-2013	Mar-2013	Apr-2013	May-2013	Jun-2013	Jul-2013	Aug-2013	Sep-2013
# of Substantiations	13	18	6	8	5	30	11	27	11	18	12	12

Data: The Maltreatment in Care Measure by Resource Caregiver incorporates a 90-day delay from the time the investigation is complete to the report date. This delay allows for further review which may result in changes in the findings. All substantiations on children in Out of Home Care will go through an automatic Program Review. The data reported reflects substantiations in the month that the investigation was completed and not necessarily in the month that the abuse or neglect occurred. This measure includes all children placed in foster care homes and kinship homes, which are relative placements.

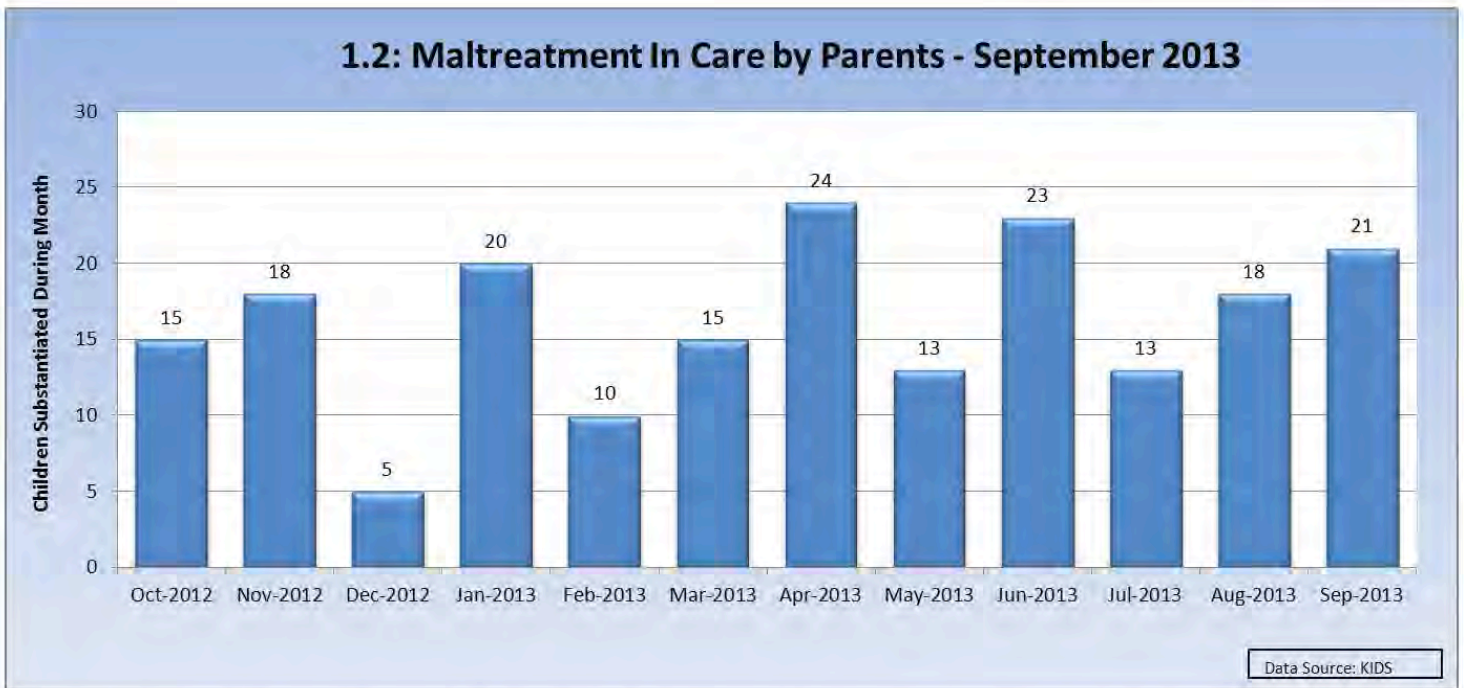

Beginning with the November 2013 report, every time a child is a victim, that child will be counted. Children who are victimized more than once will be counted in each month their victimization is substantiated. Note: This is different from the federal metric, which counts each child only once, even if a child is victimized more than once in the course of a year.

Oklahoma began including children substantiated of maltreatment by the Office of Client Advocacy in institutional settings in March 2013.

Comments Jan 2014: In September 2013 there were a total of 12 substantiations of maltreatment while in Out of Home Care. These 12 victims were reported in 8 separate referrals of children in foster care and 2 referrals to OCA. Of the 10 children in foster care, 4 of those children were placed in Kinship Foster Care Homes, 4 of those children were placed in Regular Foster Care and 2 of those children were in Therapeutic Foster Care Homes. Of the 2 OCA victims, 1 was placed in a Psychiatric/Treatment Facility, and 1 was placed in a Level E Residential Facility.

*The number of reported victims in the prior months of May, June and July have changed due to changes in the findings in the Program Reviews and the method of data collection for the OCA referrals.

1.2: Maltreatment in Care by Parents

	Oct-2012	Nov-2012	Dec-2012	Jan-2013	Feb-2013	Mar-2013	Apr-2013	May-2013	Jun-2013	Jul-2013	Aug-2013	Sep-2013
# of Substantiations	15	18	5	20	10	15	24	13	23	13	18	21

Data: The Maltreatment in Care by Parents measure incorporates a 90-day delay from the time the investigation is complete to the report date. This delay allows for further review which may result in changes in the findings. The data reflects substantiations in the month that the investigation was completed and not necessarily in the month that the abuse or neglect occurred.

Beginning with the November 2013 report, every time a child is a victim, that child will be counted. Children who are victimized more than once will be counted in each month their victimization is substantiated. Note: This is different from the federal metric, which counts each child only once, even if a child is victimized more than once in the course of a year.

Also, beginning with the November 2013 monthly report, children who are disclosing abuse that occurred prior to coming into DHS custody will not be included in the count of monthly victims. All past months have been adjusted to reflect these changes.

Comments Jan 2014: There were 21 reported substantiations of abuse in September 2013.

Only one visit per month by the primary worker is counted even though multiple visits may have been made by multiple workers during the month. For SFY14, the interim target is 70%.

Beginning November 2013, adjustments were made to the metric primarily to account for primary worker visits with children in Trial Adoption cases. The data was applied to previous months. This resulted in percentage increases for previously reported months.

Comments Jan 2014: The worker visitation rate for primary workers in October 2013 was 74.8%.

7.1 Worker Caseloads Continued

Data: Utilizing the standards set forth in the Pinnacle Plan, each individual type of case is assigned a weight and then the weights are added up in order to determine a worker's caseload. The consolidated workload tracking process allows Oklahoma to factor in the worker's "Workload Capacity." The charts represent the consolidated workload tracking process. A snapshot is taken every morning at 12:00 am of the workload of all Child Welfare workers. The entire workload of workers with a qualifying assignment to a case (CPS, PP, FCS, Adoption, and Resource) are calculated and compared against the caseload standards. The workload is classified as meeting standards if it is 100% or below a caseload. If the workload is over 100% but less than 120% of a caseload, it is considered to be "over but close", otherwise the workload is considered to be over the standard. The measure tracks each worker - each day to determine if they meet the standard, and this is called a "worker day". Work performed by Child Welfare Specialists, is broken into multiple categories. This measure will look specifically at all Child Welfare Workers (Total), Permanency Planning, Preventive/Voluntary, Investigation, Adoption, Bridge, and Comprehensive Workers. The data on Supervisors meeting unit ratio standards is still pending.

Comments Jan 2014: For the period of October 1, 2013 – December 31, 2013 – The total number of Child Welfare Workers meeting the standard is 31.1%, with 9.1% being "Close", and 59.8% "Over Standard".
