

# CRX ECHO SERIES

OCT. 9  
NOV. 13  
DEC. 13  
JAN. 8

12-1:00 PM CST  
via Zoom

## PRESENTERS

Dale Bratzler, DO, MPH

Bonnie Pierce, EdD, RN, CENP

Kate Kupiec, PharmD

Bruna Viralli-Claypool, MHS, PA-C

## THE COVID RESOURCE EXCHANGE ECHO SERIES - SAVE THE DATES

There currently exists a wide variation in practice among clinicians when identifying and treating high-risk ambulatory patients with COVID.

The CRX ECHO will address the implications of variation in practice through an overview of the latest evidence, a case presentation, and an interdisciplinary application focused discussion facilitated by an Oklahoma Clinician.

Oct. 9 &  
Nov. 13

Dec. 11

Jan. 8

12-1:00 PM CST  
via Zoom

### Evidence-Based Treatment of High-risk Ambulatory COVID Patients

### Vaccination and COVID-19: What difference does it make?

### Long COVID and Emerging Issues
