2013 Board Retreat

Oral Health Program Background

The dental unit is responsible for:
- ➢ administration of OHCA Dental policy,
- ➢ developing an adequate dental provider network,
- ➢ improving access to orthodontic service,
- ➢ improving access to dental surgical services,
- ➢ review and approval of PARs .

Dental has a part time Orthodontic Specialist to review all requests for orthodontic services.
Quality Assurance Consultant who begun on-site reviews this month.

Attracting Providers

- Prior to the ending of HMO contracts,
  - ➢ approximately 460 dentists in the network
  - ➢ less than 120 were actively accepting patients.
  - ➢ SFY2012 we had contracts with over 1,200 of our 2,010 in State dentists [60%],
  - ➢ and over 240 out of state dentists.

- The majority of participating dentists currently accept new SoonerCare patients into their practice.

OHCA's Varnish Program

- ✓ Tooth decay is the most common chronic disease among children.

- ✓ Children in Medicaid had nearly twice the rate of untreated tooth decay as children with private insurance.

- ✓ Preventive oral health care is particularly important for young children.

- ✓ Presence of cavity-causing bacteria can quickly progress into extensive decay known as Early Childhood Caries (ECC) or baby bottle tooth decay.

oklahoma health care authority

North Carolina's Varnish Outcomes

- Increases access to preventive services
  - Wide geographic distribution
  - 48% of well-child visits
  - Physician visits 4 times greater than dentists
  - Multiple visits 20 times greater in medical offices

- Improved treatment outcomes
  - 49% reduction before 18 months
  - 18% reduction at 6 years with $\geq$4 visits
  - 21% reduction in hospital episodes

- Began as pilot in 1997
- Statewide rollout in 2000
