- To process claims for these drugs, place “04” in the Other Coverage Code of the COB section
- Restrictions and prior authorizations still apply
- Post-payment audits will be performed to assure compliance

Please be aware that there is a system issue with claims for these drugs. Once the claim is paid, a letter is generated to the pharmacy asking for the other insurance information. We are aware that this is a problem and we are working on correcting it as soon as possible. In the mean time, it is not necessary for you to send back the information on dual eligibles. You may disregard the letter. We apologize for any inconvenience and as always, we appreciate the services you provide for Oklahoma Health Care Authority Members.

Oklahoma Health Care Authority administers Medicaid for the State of Oklahoma.
