Pharmacists, we need your assistance to improve the prenatal care of SoonerCare members. Your pivotal role in the healthcare system can help increase appropriate and cost-effective use of prenatal vitamins. **Below is a list of prenatal vitamins that are covered without a prior authorization.** Please note a prior authorization is required for most brand-name prenatal vitamins.

To make this process more efficient for pharmacies, prescribers, and members, all prescribers of prenatal vitamins will receive a letter explaining the prenatal vitamin coverage along with the list of preferred prenatal vitamins. The letter to prescribers includes guidance that prescriptions for preferred products may be written as "prenatal vitamins with folic acid 1mg", and that other desired ingredients can be specified if necessary, such as "plus DHA". Whenever possible, please choose a prenatal vitamin from the list below to fill the prescription. If no product on the list contains all the specified components written on the prescription, please attempt to work with the prescriber to use a preferred product before submitting a prior authorization. Thank you for the services you provide to Oklahomans insured by SoonerCare!

Would you like to receive this communication as an e-mail? Please send an email to Pharmacy@okhca.org with the subject "Fax Blast" and your information and we will add it to the distribution list.
