Oklahoma Health Care Authority Implements SoonerCare Relief Measures During COVID-19 Pandemic

OKLAHOMA CITY — The Oklahoma Health Care Authority is taking measures to ensure continuity of care and services for SoonerCare members in response to the COVID-19 pandemic.

“Our priority is the health and wellness of our members,” said Kevin Corbett, OHCA CEO. “The provisions included in the recently passed Families First Coronavirus Response Act as well as federal relief requests we have made will allow us to adapt and meet the needs of our members during this unprecedented time.”

There are several provisions affecting SoonerCare members in the recently passed federal law, Families First Coronavirus Response Act. All testing services related to COVID-19 diagnoses will not have cost sharing obligations for SoonerCare members.

Increase in the Medicaid federal match by 6.2 percentage points.

In addition, OHCA submitted an 1135 waiver to the Centers for Medicare & Medicaid Services allowing for the following flexibilities during an emergency period:

In addition to COVID-19 testing being covered at 100% without cost sharing, OHCA is also requesting permission to eliminate cost sharing for all COVID-19 treatment.

OHCA is allowing expanded use of telehealth for most SoonerCare reimbursable services.

The use of telephonic services (non face-to-face) may be utilized in instances when the SoonerCare member does not have access to telehealth equipment, the service is necessary to the health and safety of the member, and the service can safely and effectively be provided over the telephone.

Waiving certain provider enrollment requirements such as provider enrollment fees.

Flexibility allowing providers to receive payments for services provided to affected SoonerCare members in alternative physical settings, such as mobile testing sites, temporary shelters or facilities.

Authority to remove or modify prior authorization requirements for accessing covered state plan and/or waiver benefits during the emergency period. OHCA will only implement this flexibility if it loses the ability to virtually review/approve PAs.

Postponing processing of recertification for members during the emergency declaration to ensure uninterrupted coverage.

Increased maintenance prescriptions available with a 90-day supply to ensure members have adequate essential medications available without repeated trips to the pharmacy.
