Oklahoma Health Care Authority MEDICAL ADVISORY COMMITTEE

AGENDA

May 17th, 2018 1:00 PM – 3:30 PM

Charles Ed McFall Board Room

- I. Welcome, Roll Call, and Public Comment Instructions: Chairman, Steven Crawford, M.D.
- II. Action Item: Approval of Minutes of the March 15th, 2018: Medical Advisory Committee Meeting
- III. Public Comments (2 minute limit)
- IV. MAC Member Comments/Discussion
- V. Financial Report: Gloria Hudson, Director of General Accounting
- VI. <u>SoonerCare Operations Update:</u> Nancy Nesser, Senior Director of Pharmacy
 - A. OHCA Responds to the Opioid Crisis: Burl Beasley, Assistant Director of Pharmacy
- VII. Legislative Update: Cate Jeffries, Legislative Liaison
- VIII. <u>New Business:</u> Chairman, Steven Crawford, M.D.
- IX. Future Meeting:
 July 19th, 2018
 September 20th, 2018
 November 15th, 2018
- X. Adjourn

I. Welcome, Roll Call, and Public Comment Instructions:

Chairman Steven Crawford called the meeting to order at 1:00 PM.

Delegates present were: Ms. Mary Brinkley, Dr. Joe Catalano, Mr. Victor Clay, Mr. Brett Coble, Dr. Steve Crawford, Ms. Wanda Felty, Mr. Don Flinn, Ms. Toni Pratt-Reid, Dr. Edd Rhoades, Dr. Jason Rhynes, Mr. Rick Snyder, Mr. Jeff Tallent, and Dr. Paul Wright.

Alternates present were: Ms. Sarah Baker, Dr. Rebecca Lewis, Ms. Frannie Pryor, Dr. Lori Holmquist-Day, Mr. Traylor Rains-Sims, Dr. Kanwal Obhrai and Dr. Mike Talley.

Delegates absent without an alternate were: Ms. Renee Banks, Ms. Debra Billingsly, Dr. Arlen Foulks, Mr. Steve Goforth, Mr. Mark Jones, Ms. Annette Mays, Dr. Ashley Orynich, Mr. James Patterson, Dr. J. Daniel Post, and Dr. Raymond Smith.

II. Approval of the January 18th, 2018 Minutes

Medical Advisory Committee

The motion to approve the minutes was by Mr. Jeff Tallent and seconded by Joe Catalano and passed unanimously.

III. Financial Report:

Gloria Hudson, Director of General Accounting

Ms. Hudson presented the financial report ending in December 2017. The state dollar budget variance is at a negative 22.6 Million dollars. The variance is 24.7 million dollars lower than the prior month. The decrease was due to the 31.8 million dollar deferral, issued by the Center for Medicare and Medicaid Services on the supplemental payments made to the medical schools. On the administrative side we are under budget in Medicaid program spending by 2.1 million state funds, and under budget in administrative services by 1.1 million state dollars. On the revenue side we are over budget in settlements and overpayments for 0.2 million dollars. In tobacco taxes and collection fees for 3.2 million dollars, and drug rebate for 2.6 million state dollars.

On March 8th, OHCA received state appropriations to replace the Federal deferral pursuant to HB1022. Due to this recovery, we are expecting January to show a positive state dollar variance of 12.7 million dollars. However, our February claims payments went over budget by 15 million total dollars. This is reflective of the flu season and lag of claim submissions during the holidays. The major areas impacted were Physicians, outpatient hospitals, clinics and prescription drugs. We are monitoring March payments; however, it is too early to project at this time.

IV. SoonerCare Operations Update:

Kevin Rupe, Member Service Director

Mr. Rupe presented the SoonerCare Operations Update to the committee. He presented information based on data for December of 2017. Patient Centered Medical Home enrollment is at 528,165 which is 652 less than September. Sooner Care Traditional has a current enrollment of 238,754 which is 1,634 more than November. SoonerPlan is down by 1,485, giving a total of 30,840. Insure Oklahoma has a total enrollment of 19,474 of which 5,192 are in the Individual Plan and 14,282 are in the Employee Sponsored Plan. In total, SoonerCare enrollment is at 817,233 for December which is a decrease of 10,164.

A. Virtual Visit Presentation:

Brenda Teel, Executive Officer of Revenue with Chickasaw Nation Department of Health

Chickasaw Nation Department of Health had been approached to consider options to do health care remotely, and after two years of continuous work, it lifted off in July. The virtual visit is a web based audio/video telecommunication between a physician and patient. The patient's medical history and current symptoms are discussed. The common diagnoses that have been seen include: Upper respiratory infection, cold, flu, rashes, poison ivy, and minor strains and sprains. A lot of positive feedback has been given. A few connectivity problems have occurred, with downloading the app, and in some cases reception. When this happens, the patient is encouraged to find a spot with a better signal. This is usually done by going into another room, the backyard, or even driving down the road. To get the process going, the first step is calling the virtual visits number. The patient will then answer eligibility questions along with triage questions. Patients, who qualify, receive an email or text with the link to download the app. A time is scheduled with the physician with a 20 minute time slot. The virtual visit is available seven days a week, from 8:00am to 10:00pm.

V. Legislative Update:

Cate Jeffries, Interim Legislative Liaison

Ms. Jeffries provided an update on some legislation that would require the Health Care Authority to develop a waiver to be submitted to CMS. The waiver would implement some work requirements for some of the SoonerCare population. The governor also issued an Executive Order, directing the Health Care Authority to come up with some recommendations to be submitted to her and the legislature within 6 months. We have been looking at our population, and have many that would be exempt, a few of the exemptions are: Ages 19-64 who are not pregnant, disabled, have children under the age of six, or parents providing care for disabled children.

Two MAC Members made comments:

Ms. Wanda Felty would like to encourage OHCA to look at The Family Medical Leave Act and look at that population of adults caring for aging adults in the home. This saves the state money on long term care, keeping individuals out of institutions.

Dr. Crawford asked a question in reference to an eligibility bill. HB1270 was passed the day before, which was a carry-over bill from last session. It would direct OHCA to work with a private company to conduct certain eligibility checks. It passed and is in the governor's office.

VI. <u>Proposed Rule Changes:</u>

Sandra Puebla, Director of Federal & State Authorities

Face-to-face tribal consultations regarding the following proposed changes were held on Tuesday, November 7, 2017 and Tuesday, January 2, 2018 in the Board Room of the Oklahoma Health Care Authority (OHCA).

APA work folders 17-24 A&B were posted on the OHCA public website for a comment period from December 15, 2017 through January 16, 2018. APA work folders 17-05A, 17-06, 17-07, 17-09, 17-10A, 17-16, 17-19, 17-21, 17-22 A&B, 17-26, 17-27, 17-30, and 17-32 were posted on the OHCA public website for a comment period from January 17, 2018 through February 16, 2018.

17–05A Medical Identification Card Policy Revisions — The proposed medical identification card revisions will amend a sentence pertaining to SoonerCare insurance verification by a provider.

Budget Impact: Budget neutral

The rule change motion to approve was by Mr. Joe Catalano and seconded by Mr. Paul Wright and passed unanimously.

17–06 Pharmacy Revisions — The proposed pharmacy revisions will clarify eligible provider qualifications for pharmacies. Revisions will outline that pharmacies may be selected for audits; therefore, pharmacy records must be available for seven years. Language regarding Phenylketonuria (PKU) formula and amino acid bars will be stricken as coverage criteria is outlined in another section of policy. Additionally, naloxone for use in opioid overdose will be exempted from the prescription limit. Revisions will also remove coverage for over the counter cough and cold medicine. New rules will require providers to substitute generic medications for brand name medication when the net cost of the brand name is lower than the net cost of the generic medication. Furthermore, language will clarify and outline claim submission and reversals when not picked up by the member within 15 days of the date of service. Finally, revisions will update policy terminology to align with current practice.

Budget Impact: Revisions requiring pharmacy providers to reverse claim submissions after a certain timeframe will result in savings; however until changes are implemented, the agency is unable to project the savings amount. Additional rule changes will not result in a significant budget impact, if any.

The rule change motion to approve was by Mr. Jeff Tallent and seconded by Dr. Kanwal Obhrai and passed unanimously.

17–07 School-Based Services Policy Revisions — The proposed school-based revisions will remove unintended barriers for medical services rendered in the school setting pursuant to an Individual Education Plan (IEP). The proposed revisions will allow an IEP and all relevant supporting documentation (hereinafter, "plan of care") that meet certain requirements to serve as the prior medical authorization for most medically necessary services that can be provided in a school setting with the exception of personal care services. Personal care services must still receive prior authorization in accordance with the Oklahoma Health Care Authority's (OHCA) federally-approved Medicaid state plan.

Per 42 C.F.R. § 440.110, to obtain federal Medicaid reimbursement, physical therapy, occupational therapy, and services for members with speech, hearing, and language disorders, must be prescribed or referred by a physician or a practitioner of the healing arts. The proposed change will allow a valid plan of care to serve as a prescription or referral for the initial evaluation and any subsequent services for occupational therapy services and services for members with speech, hearing, and language disorders. A valid plan of care will not serve as a prescription or referral for physical therapy services because physical therapists are not considered a practitioner of the healing arts, per state law; a prescription from a physician shall be required for physical therapy prior to the student's initial evaluation. The OHCA has submitted a request to Attorney General Mike Hunter on this particular state law issue.

Additionally, the revisions update the requirements needed in an IEP and plan of care. The proposed revisions also eliminate the reference to Early and Periodic Screening, Diagnostic and Treatment (EPSDT) where the term is no longer valid. All claims related to school-based services that are submitted to the OHCA for reimbursement must include any numeric identifier obtained from the Oklahoma State Department of Education. The proposed revisions also update eligibility requirements for practitioners who provide services in school-based settings. Finally, the revisions will remove specific references that are no longer applicable, update acronyms and references to other legal authorities, and cleanup some grammatical errors.

Budget Impact: It is estimated that the change will result in a positive impact to the Oklahoma school districts of about \$6.5 million, as a result of federal matching funds. The rule change motion to approve was by Dr. Kanwal Obhrai and seconded by Ms. Tone Pratt-Reid and passed unanimously.

Abstaining from the vote were Dr. Don Flinn and Dr. Joe Catalano

17–09 Behavioral Health (BH) Assessment and Targeted Case Management Revisions — The proposed policy revisions will change requirements for behavioral health assessments by allowing for diagnostic impressions on the assessment, while still requiring a diagnosis on the service plan. Additionally, proposed rules will allow for one client signature that will apply to both the assessment and treatment plan as well as allow a temporary change of service provider to be documented in a progress note for the service provided. These changes will allow for more flexibility in performing an assessment and developing a treatment plan. Other revisions to the behavioral health assessment and treatment plan requirements and targeted case management rules will include minor

Budget Impact: Budget neutral

updates of terminology to keep language consistent throughout OHCA policy.

The rule change motion to approve was by Mr. Jeff Tallent and seconded by Mr. Traylor Rains-Sims and passed unanimously.

17–10A Expedited Appeals — The proposed revisions will clarify timelines for appeal decisions and add a new section outlining expedited appeals which are required by new regulations in cases when an appellant's life or health could be in jeopardy. The timelines and process for expedited appeals will be outlined in the new section of policy. In addition, language referring to nursing home wage enhancement will be deleted due to changes in state statute that resulted in the policy being obsolete. Finally, revisions will clarify the purpose and other details of the appeal process, as well as, other general language cleanup.

Budget Impact: Budget neutral

The rule change motion to approve was by Dr. Don Flinn and seconded by Mr. Jeff Tallent and passed unanimously.

17–14 Adult Dental Emergency Extractions — The proposed revisions will add new definitions for emergency extractions, as well as, for images that can accompany an emergency extraction. Additional revisions will update acronyms and correct grammatical and formatting errors.

Budget Impact: Budget neutral

The rule change motion to approve was by Dr. Don Flinn and seconded by Dr. Kanwal Obhrai and passed unanimously.

17–16 Accreditation Commission for Health Care (ACHC) Accreditation Option for Outpatient Behavioral Health Agencies — The proposed behavioral health revisions will add the Accreditation Commission for Health Care (ACHC) as an additional accreditation option for outpatient behavioral health agencies. Additionally, proposed revisions will update policy terminology in order to align with current practice.

Budget Impact: Budget neutral

The rule change motion to approve was by Dr. Joe Catalano and seconded by Ms. Toni Pratt-Reid and passed unanimously.

17–19 Inpatient Behavioral Health Revisions — The proposed inpatient behavioral health revisions will require general hospitals and psychiatric hospitals to maintain medical records and other documentation to demonstrate they comply with certification of need for care, plan of care, and utilization review plans requirements. Psychiatric hospitals will also need to maintain these records to demonstrate they comply with medical evaluation and admission review requirements. Rule revisions will add medical necessity criteria for admission in cases of psychiatric disorders and chemical dependency detoxification for adults. Additionally, rule revisions will specify that the individual plan of care (IPC) must be developed in consultation with the member or others who will care for the member upon discharge. Revisions also describe the team of professionals and credentials required in the IPC development and review. Moreover, revisions will expand certificate of need requirements for PRTFs to mirror federal regulation. Other revisions will include replacing incorrect terminology used to refer to PRTFs and other settings.

Budget Impact: The agency anticipates that the proposed changes that clarify medical necessity criteria for adults from an acute psychiatric admission, will

potentially result in approximately \$890,000 total; \$368,727 state share savings for SFY2018.

The rule change motion to approve was by Ms. Frannie Pryor and seconded by Mr. Traylor Rains-Sims and passed unanimously.

17–21 Income Rounding for Non-disabled Adults and Children Eligibility — The proposed policy changes will revise the income policy for how income is computed for non-disabled adults and children to mirror current system computations for income. The online eligibility system rounds cents down to the nearest dollar in its calculations therefore policy will be revised to match. Additionally, revisions will revise multiple sections of policy that paired "Prior to October 1, 2013" policy with "Effective October 1, 2013" policy. The pre-MAGI policy will be removed as it is no longer applicable.

Budget Impact: Budget neutral

The rule change motion to approve was by Ms. Toni Pratt-Reid and seconded by Mr. Traylor Rains-Sims and passed unanimously.

17–22A Prior Authorization Policy — The proposed policy changes will revise prior authorization (PA) policy by adding language that clarifies the scope of a section as encompassing all PAs. Proposed revisions will add language about how a provider can obtain information on how and/or where to submit PA requests. Additionally, revisions will update a list of services requiring a PA, but will clarify that the list is not exhaustive and will explain other qualifying factors. Further revisions will add a new section that clarifies that what was previously called preauthorization of emergency medical services for certain aliens is actually retrospective review for payment for emergency medical services to certain aliens. Finally, the last remaining sections in Part 5 of Chapter 30 will be revoked as these sections are covered in other parts of policy.

Budget Impact: Budget neutral

The rule change motion to approve was by Dr. Kanwal Obhrai and seconded by Ms. Toni Pratt-Reid and passed unanimously.

17–22B Prior Authorization Policy — The proposed revisions will remove a section of policy in Chapter 35 because it is more appropriately covered in Chapter 30. Additional revisions will remove language regarding preauthorization of emergency medical services for certain aliens because it will be covered in a new section of policy in Chapter 30.

Budget Impact: Budget neutral

The rule change motion to approve was by Ms. Frannie Pryor and seconded by Mr. Ms. Toni Pratt-Reid and passed unanimously.

17–24A ADvantage Waiver Revisions — The proposed ADvantage Waiver policy revisions will replace references to the Interactive Voice Response Authentication system with references to the Electronic Visit Verification (EVV) system. The EVV system is the current industry standard for electronic billing and verification software systems. Proposed revisions will provide clarification of the EVV system billing process, which is currently in place for billing of personal care and nursing services in both the ADvantage and State Plan personal care programs. Finally, revisions will ensure that the technological terms used in this policy accurately reflect the advances in electronic billing and verification software systems.

Budget Impact: Budget neutral

The rule change motion to approve was by Mr. Paul Wright and seconded by Mr. Traylor Rains-Sims and passed unanimously.

17–24B ADvantage Waiver Revisions — The proposed ADvantage Waiver policy revisions will provide information regarding the certification and recertification periods of medical eligibility determination and systems that are used by the nurses in communicating with the Department of Human Services (DHS) county offices. In addition, proposed revisions will add new language outlining the rules and processes for the Ethics of Care Committee for the ADvantage and State Plan personal care programs. Finally, proposed revisions will update obsolete acronyms that are used in existing policy.

Budget Impact: Budget neutral

The rule change motion to approve was by Mr. Jeff Tallent and seconded by Mr. Traylor Rains-Sims and passed unanimously.

17–26 Insure Oklahoma Policy Revisions — The proposed Insure Oklahoma policy revisions will remove the definition/term "self-funded" and the "premium payment" section in order to update policy and reflect current business practices. Further revisions will add additional clarification on who is able to determine whether a college student is dependent or independent. Additionally, proposed revisions will update acronyms and correct grammatical and formatting errors.

Budget Impact: Budget neutral

The rule change motion to approve was by Mr. Traylor Rains-Sims and seconded by Ms. Frannie Pryor and passed unanimously.

17–27 Medically Fragile Waiver Revisions — The proposed policy revisions will revise the Medically Fragile Waiver policy by providing updates to the overview, services and annual re-evaluation sections of existing policy for general clarification and alignment with the approved waiver; including updating some acronyms used in existing policy. In addition, new language will provide guidelines on when the Uniform Comprehensive Assessment Tool is required to be updated if submitted after 90 days. In order to align revisions with federal regulation requirements, new environmental modifications service guidelines will be added in addition to guidelines on how payments are to be submitted for this service. Further revisions will provide new criteria in determining a member's eligibility for self-directed services. Finally, proposed revisions will include the removal of outdated language relating to program medical eligibility and updating obsolete acronyms.

Budget Impact: Budget neutral

The rule change motion to approve was by Mr. Traylor Rains-Sims and seconded by Ms. Frannie Pryor and passed unanimously.

17–30 Focus on Excellence (FOE) Policy Revisions — The proposed revisions will define and describe the eligibility criteria for the Focus on Excellence (FOE) program in policy. Additionally, the proposed revisions will add new language on the quality measure care criteria that a nursing facility must meet to continue status in the FOE program. Finally, the proposed revisions will add new language on the FOE payment and appeals processes.

Budget Impact: Budget neutral

The rule change motion to approve was by Ms. Frannie Pryor and seconded by Ms. Toni Pratt-Reid and passed unanimously.

17–32 Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Periodicity Schedule Policy Revisions — The proposed revisions will update the EPSDT periodicity schedule recommended for physicians and other practitioners who provide screening services to children. The periodicity schedule recommended will reflect the recommendations by the American Academy of Pediatrics (AAP) and the American Academy of Pediatric Dentistry (AAPD). Additionally, it amends other sections that refer to the old periodicity schedule recommendations and updates the hearing, vision and dental EPSDT sections to align with current industry standards. Finally, revisions will update acronyms and titles, and correct any grammatical mistakes for better flow and understanding.

Budget Impact: Budget neutral

The rule change motion to approve was by Ms. Toni Pratt-Reid and seconded by Dr. Edd Rhoades and passed unanimously.

VII. New Business: Chairman, Steven Crawford, M.D.

No new business was identified.

VIII. Future Meeting

May 17th, 2018

IX. Adjournment

Dr. Crawford asked for a motion to adjourn. Motion was provided by Mr. Traylor Rains-Sims and seconded by Ms. Frannie Pryor. There was no dissent and the meeting was adjourned at 2:27p.m.

FINANCIAL REPORT

For the Nine Months Ended March 31, 2018 Submitted to the CEO & Board

- Revenues for OHCA through March, accounting for receivables, were \$3,104,155,534 or .2% over budget.
- Expenditures for OHCA, accounting for encumbrances, were \$3,079,618,129 or .1% over budget.
- The state dollar budget variance through March is a positive \$5,777,486.
- The budget variance is primarily attributable to the following (in millions):

Expenditures: Medicaid Program Variance Administration	(2.9) 3.6
Revenues: Drug Rebate Medical Refunds Taxes and Fees	3.1 (.5) 2.5
Total FY 18 Variance	\$ 5.8

Enrollment totals include all members enrolled during the report month. Members may not have expenditure data. Children are members aged 0 - 20 or for Insure Oklahoma enrolled as Students or Dependents. Dual Eligibles (Medicare & Medicaid) are in the Traditional delivery system in both the Low Cost (Q1 & SLMB) and High Cost (ABD) groups. OTHER includes DDSD, PKU, Q1, Refugee, SLMB, STBS and TB.

IN-STATE CONTRACTED PROVIDERS

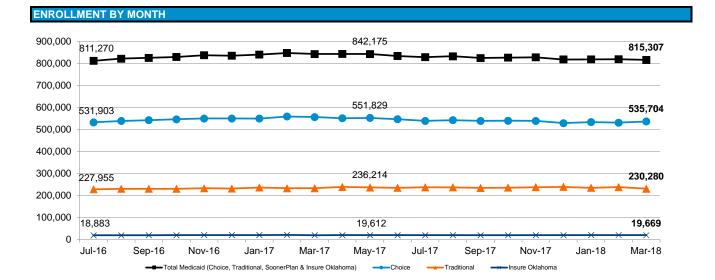

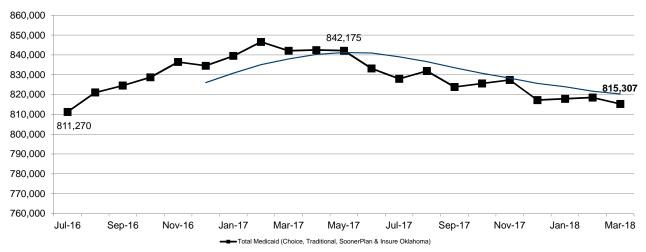

"In general, decreases are due to contract renewal. Decrease during contract renewal period is typical during all renewal periods. Hospital decrease in November 2017 was due to psychiatric hospitals and residential treatment centers changing from provider type hospital to provider type inpatient psychiatric facility. Mental Health Providers dropped in July 2017 due to multiple changes including reduced the number of units over all and setting time limits for 'under supervision' to become fully licensed.

---PCMH

----Dentist

Physician Mental Health Provider

^{*}Trendline is 6 months moving average.

^{**}In June 2017 there were changes to the passive renewal system criteria that reduced the number of passively renewed members by 2/3rds.

OHCA Responds to the Opioid Crisis

May 10, 2018
Burl Beasley, BS Pharm, MPH, MS Pharm
Assistant Director Pharmacy Services

Oklahoma **Health** Care Authority

Agenda

- Introduction/Background
- OHCA & Pharmacy Initiatives
- Lock In 2.0
- Naloxone
- Communication Strategies
- Morphine Milligram Equivalent
- Results and Next Steps

Prescription Drug Overdoses Oklahoma

- 15.8 per 100,000 people unintentional poisoning deaths 2012
 - 15 19 22 per 100,000 2016
- 5th leading cause of death in Oklahoma unintentional injury
- 6th highest drug overdose in U.S.

OHCA Initiatives

OHCA Initiatives

- Pain Management Program & Toolkit
- State Plan & Workgroup Involvement
- Collaboration within and with other state agencies
- Pharmacy Initiatives

Naloxone

Naloxone

- Opioid Education Naloxone Distribution (OEND)
 - OHCA partnership HSI CHIP grant
- Partnership with ODMHSAS
- Naloxone available no charge
 - -19 years of age or known of 19 year old
- Text "naloxone" to # 55155

Naloxone

- No co-pay on Rx naloxone
- Will NOT apply to Rx limit
 - -December 1, 2017
- Expand education and collaboration

Patient review and restriction program Lock-in

Lock-In Program

- SoonerCare Pharmacy-administered program
- "Locks" a member into <u>one</u> pharmacy
 AND <u>one</u> prescriber
 - Pharmacy claims will deny if not from designated providers
 - Various medications monitored
- Referral by health care providers

Lock in 2.0

- Preventive measures to intervene
 - Letters to ALL members currently locked in
- BH outreach current in lock-in members

Morphine Milligram Equivalent (MME)

Morphine Milligram Equivalent (MME)

- Morphine is considered the "gold standard" for the treatment of pain, and is used as the basis for comparison via morphine milligram equivalent (MME).
- The MME provides a conversion factor for one opioid to another and gives a standard for comparison.
- The CDC encourages caution for doses exceeding 50 MME per day

MME

- The OHCA incorporated the use of MME for all opioids into the Medicaid Management Information System (MMIS).
- Overlapping opioid claims will be totaled to include a member's aggregate MME per day.
- OHCA MME 3 Phase Plan

MME 3 Phase Plan

Phase 1

Provide OHCA-contracted pharmacies with the calculated total daily MME dose a member is receiving based on retrospective and prospective claims review at the point of service (POS).

MME 3 Phase Plan (cont.)

Phase 2 (current)

Establish MME limits and review claims based on pre-established guidelines for MME. Audit claims and report and monitor for quality improvement and next steps.

MME 3 Phase Plan (cont.)

Phase 3

Provide prescribers with daily MME via official communications. Identify top MME prescribers for quality assurance and program integrity review.

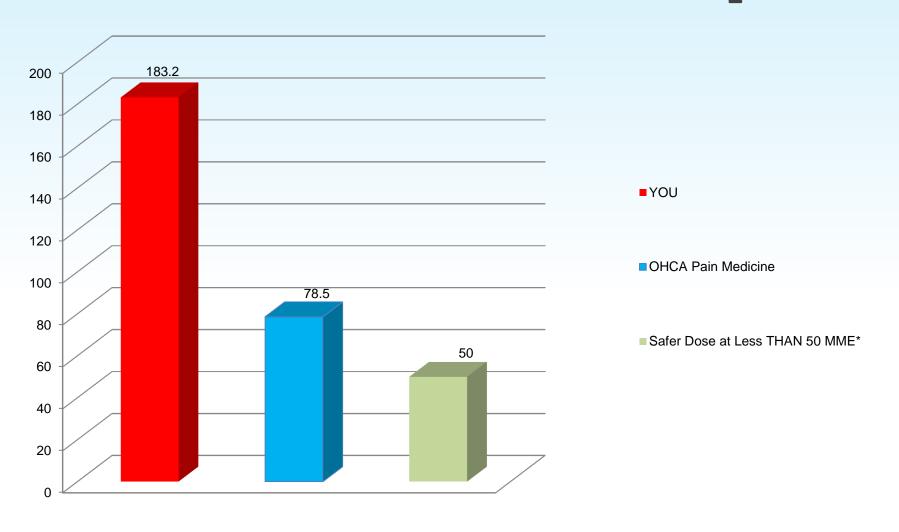

MME Prescriber Report

MME Prescriber Report

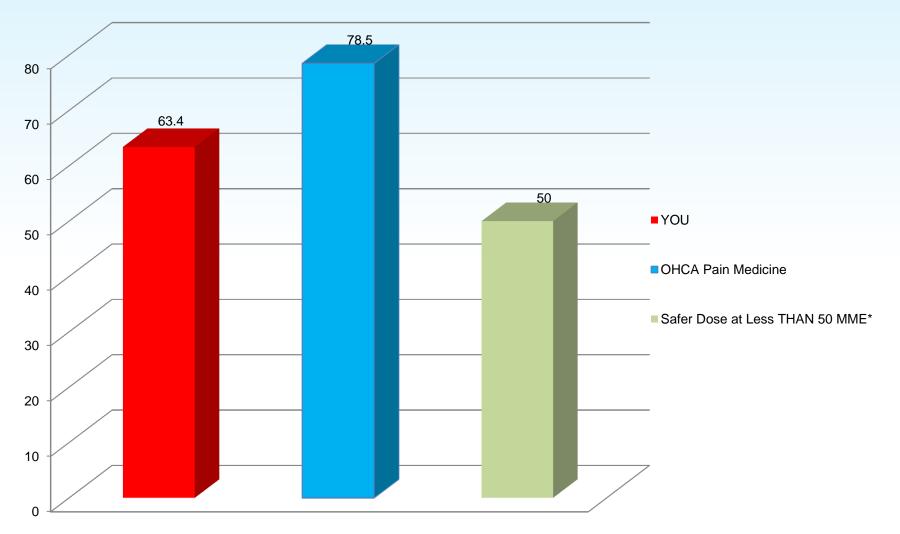

MME Prescriber Report

Communication Strategies

Prescriber Communication - Letter

REBECCA PASTERNIK-IKARD CHIEF EXECUTIVE OFFICER

MARYFALLIN

STATE OF OKLAHOMA OKLAHOMA HEALTH CARE AUTHORITY

[DATE]

[PROVIDER NAME] [ADDRESS] [CITY, ST ZIP]

Dear [Provider]:

In 2015, more than 15,000 people died from overdoses involvina prescription opioids.*

A review of Oklahoma SoonerCare claims of controlled drugs attributed to your prescriber number has been conducted by the Oklahoma Health Care Authority. This analysis indicates that there are a number of your SoonerCare patients visiting more than one prescriber and more than one pharmacy.

SoonerCare members are responsible for informing your office of each provider they see and all treatment(s) and medication(s) received from other providers. This will help prevent duplicative treatment and help protect members' health. A further review of member activities under your care will be conducted over the next several months and significant results will be shared with you.

If at that time, if it is determined that members are continuing to receive prescriptions from several physicians and pharmacies, the member(s) may be placed in the Lock-In Restriction Program. This patient review and restriction program will limit the member to one pharmacy and to one prescriber for controlled drugs. This letter does not change any benefits to which the member is currently entitled. It is to inform you that the situation is being monitored and will be reviewed. With your help, patient care should be improved.

Multiple Prescriber Episodes* 1Q2014 - 1Q2018 **Members, Prescribers, Number of Claims**

Next Steps and Summary

Other - Legislation

- SB No. 1446 Signed May 2, 2018
- Regulation of opioid drugs
- Limits opioids to 7 days supply for acute pain
- Other regulations
 - CME, PMP checks, Patient education, risks
- Effective November 1, 2018

Other - Legislation (cont.)

- HB2931 electronic prescribing of controlled dangerous substances and establishes al official prescription form (diversion)
- HB2798, creates the Opioid Overdose Fatality Review Board (oversight)
- HB2795, requires medical facility owners to register with Bureau of Narcotics (OBNDD)

Others - OHCA

- Supplemental rebate enhancements
- Opioids and Pregnancy
- Neonatal Abstinence Syndrome
- Opioids & Benzodiazepines
- Lock-in at ED
- Naloxone co-prescribing
- Remove barriers to treatment

Summary

- Continued provider education and outreach
- Participation in local and national work groups
- Internal monitoring of activities
- Continued vigilance and process improvement

Oklahoma Health Care Authority (OHCA) Opioid Initiatives

Programs implemented and/or generated by the OHCA are demonstrated by the following:

- In 2014, the OHCA Pharmacy Department partnered with the Pharmacy Management Consultants (PMC) division of the University of Oklahoma (OU) College of Pharmacy in implementing the "No More than 4" campaign restricted the amount of short-acting opioid analgesics paid per claim to 120 units per 30 day supply.
- Historically, the SoonerCare lock-in program required members with history of abuse or inappropriate utilization of controlled medications to be "locked in" to a single designated pharmacy. An interdisciplinary team lead by the pharmacy department at the OHCA reviewed members who have been locked in to a single designated pharmacy and prescriber but continue to receive prescriptions for controlled drugs through unapproved pharmacies and/or prescribers.
- The SoonerCare Pain Management Program is designed to equip providers with the knowledge and skills to appropriately treat members with chronic pain. To accomplish this, the OHCA has developed a proper prescribing toolkit. Under the OHCA physician leadership, two practice facilitators have been delegated to implement the components of the toolkit within selected SoonerCare practices. Additionally, two behavioral health resource specialists are dedicated to assist providers with linking members with substance use disorder or other behavioral health needs to the appropriate treatment.
- The Pharmacy Department at the OHCA has partnered with the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) to increase access to naloxone. Funds received from the Health Services Initiative Children's Health Insurance Program (CHIP) help to provide this lifesaving drug to at-risk youth through the Opioid Overdose and Naloxone Distribution (OEND) Program. OEND makes naloxone available, at no charge, to any individual 19 years of age or younger and to anyone who knows a youth who is at risk of overdose in 13 high-need Oklahoma counties.
- In 2017, the OHCA sent letters to the top 10 prescribers of hydrocodone, oxycodone and alprazolam. The OHCA interdisciplinary Lock-in team initiated a mailing to prescribers whose patients have had four prescriber claims and four prescriptions claims for opioids and/or other controlled dangerous substances in the previous 90 days. Letters were generated and sent to 446 prescribers who had patients experiencing multiple prescriber episodes.
- OHCA has evaluated members who have opioid and controlled substance claims by multiple prescribers through multiple pharmacies. Along with other initiatives, the number of multiple prescriber episodes in this population has decreased by approximately 50%.
- As of October 2017, the pharmacy program, under the leadership of clinical pharmacists, has incorporated the use of Morphine Milligram Equivalents (MME) for all opioids into the Medicaid Management Information System (MMIS), the claims processing and informational retrieval agent utilized by the OHCA.

Oklahoma HealtinCare Authority 78 1 OHCA'S lock-in program people die every day helps providers monitor in the U.S. from potential abuse of opioid-related medication by overdose. SoonerCare **HYDROCODONE** members. out of 510 prescrip-0 tion overdose deaths were opioids. 38.4 is the daily average MME per 0 claim for all OHCA 0 providers 0 ALPROZOLAM safer dose by the 35% CDC. deaths are associated with benzo.

the problem

Oklahoma ranks as one of the highest states for drug overdose deaths, and Medicaid patients are at a higher risk of opioid overdose than non-Medicaid patients.

the facts

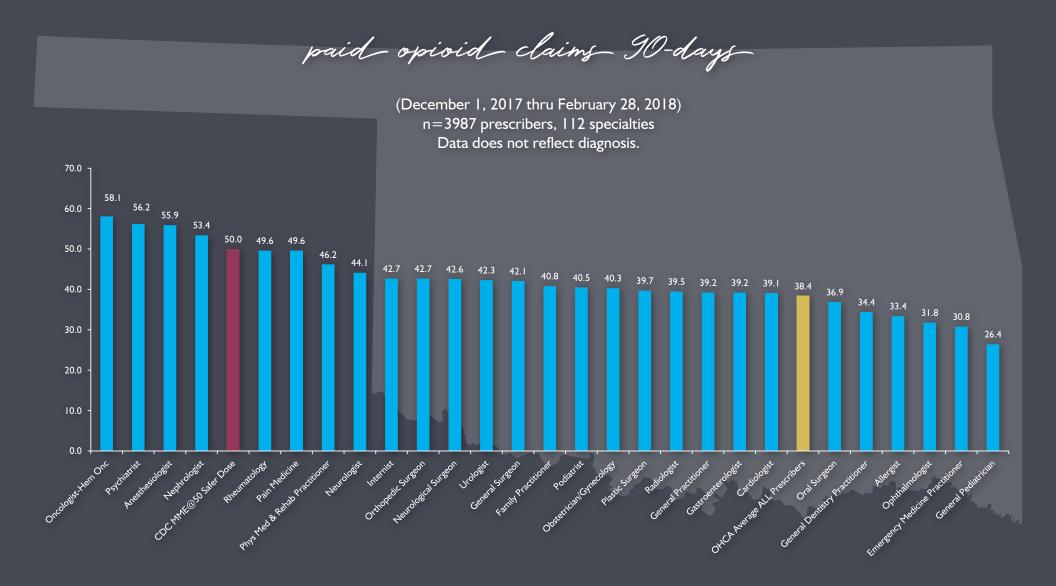

Understanding Oklahoma's opioid crisis is the first step. To see OHCA's average MME per claim per day by NPI prescriber primary specialty, please reference the chart on the back.

the solution

OHCA encourages proper prescribing. For more information and helpful resources, visit okhca.org/painmanagement.

Note: Data collected from 2014-2017.

OHCA AVERAGE MME PER CLAIM PER DAY BY NPI PRESCRIBER SPECIALTY

= CDC recommended safer dosage = OHCA average for all prescribers

Data from SFY 2017. MME = Morphine Milligram Equivalant, NPI = National Provider Identifer
