ITEM 4 / CHIEF EXECUTIVE OFFICER'S REPORT

Nico Gomez, Chief Executive Officer

4a. FINANCIAL UPDATE

Carrie Evans, Chief Financial Officer

Ms. Evans reported on the financial transactions through the month of August with a state dollar variance of \$1.9 million and we are under budget in our Medicaid program by \$1.1 million and 5 percent under budget. She noted that Administration is .8 million state dollars is 7 percent under budget. Ms. Evans stated that it appears that budget projections for the month of September are accurate. For more detailed information, see Item 4a in the board packet.

4b. MEDICAID DIRECTOR'S UPDATE

Garth Splinter, State Medicaid Director

Dr. Splinter noted that Soonercare enrollment continues to move up and is at 821,785 with a net increase of about 6,400 enrollees. Nursing home continues with about 15, 448 with \$3,600 per member per month average cost. The dual eligible enrollment has grown slightly to 109,205. Dr. Splinter stated that total providers enrolled are 37,507 with the in-state providers totaling 28,810. He said that categories in red are noted for a slight drop due to contract renewals. There was an increase in patient centered medical home for 2,199 enrolled. Dr. Splinter reported on the top 5 procedures by utilization and reimbursement. Member Miller asked if any required lab tests were billed separately for office and outpatient visits? Dr. Splinter noted they were billed separately. For more detailed information, see Item 4b in the board packet.

4b1. HOME AND COMMUNITY BASED WAIVER PROGRAM UPDATE

Ivoria Holt, Long Term Care Quality Initiatives Director

Ms. Holt presented the Long Term Care Waiver Operations division which includes, Living Choice (Money Follows the Person), Sooner Seniors, My Life My Choice, Medically Fragile and the PACE Program (all inclusive care for the elderly). For more detailed information, see Item 4b.1 in the board packet.

4c. ALL STARS INTRODUCTION

Nico Gomez, Chief Executive Officer

Mr. Gomez introduced OHCA Employee All-Stars for February and May 2013 through his direct reports.

Cindy Roberts presented the February All Star - Darlene Surber, Medical Audit Specialist, Provider Audits.

Carrie Evans presented the May All Star - April Jones, Travel Coordinator, Purchasing.

4d. PROPOSED 2014 BOARD MEETING DATES AND LOCATIONS

Nico Gomez, Chief Executive Officer

Mr. Gomez reviewed the proposed calendar for board meeting dates and locations for 2014 and asked the board to review and take into consideration the dates. He stated that we will bring the calendar back at a future board meeting for approval.

Mr. Gomez noted that he had an opportunity to attend a meeting in Washington, D.C. regarding reducing infant mortality and learning what we can do to reduce the number of infants we lose too early. It also gave him the opportunity to hold visits with some of Oklahoma's Congressional delegation.

He stated that our Federal partner (CMS) is half open and half closed.

ITEM 5 / PRESENTATION OF THE STATE FISCAL YEAR 2015 BUDGET REQUEST

Vickie Kersey, Purchasing Manager

Mr. Gomez stated that we received notice late last week that our Federal Medical Assistance Percentage (FMAP) will be going down effective October 1, 2014. He noted we did not anticipate this in the budget request but it will be amended and brought back to the board for information. Mr. Gomez said that the reduction is a 2.7 percent reduction in federal funds and is the second largest one year reduction in our history. There will be more discussion on how this impacts OHCA and what can be done.

Ms. Kersey reported the information of the state fiscal year 2015 budget request. For more detailed information, please see Item 5 in the board packet.

ITEM 6 / ANNOUNCEMENTS OF CONFLICTS OF INTEREST PANEL RECOMMENDATIONS FOR ALL ACTION ITEMS Howard Pallotta, General Counsel

There were no recommendations regarding conflicts.

ITEM 7 / CONSIDERATION AND VOTE OF AGENCY RECOMMENDED EMERGENCY RULEMAKING PURSUANT TO ARTICLE I OF THE ADMINISTRATIVE PROCEDURES ACT.

Cindy Roberts, Deputy CEO/Planning, Policy and Integrity Division

- Action Item Consideration and Vote of Agency Recommended Rulemaking Pursuant to Article I of the Administrative Procedures Act
 - a) Consideration and Vote upon a Declaration of a Compelling Public Interest for the promulgation of Emergency Rule 7.b-1 in accordance with 75 Okla. Stat. § 253.

- b) Consideration and Vote Upon promulgation of Emergency Rules as follows:
- 7. b 1. AMENDING agency rules at OAC 317:45-11-10 through 45-11-13, 45-11-20 through 45-11-21.1, 45-11-24, and 45-13-1. Insure Oklahoma (IO) rules are revised to align with the Special Terms and Conditions of the Section 1115 Demonstration Waiver. In accordance with waiver special terms and conditions, the federal government has approved a one year (calendar) extension of the Insure Oklahoma program. Rules are revised to remove Individual Plan children (while retaining Employer Sponsored Insurance (ESI) children) and limit adult Individual Plan enrollment to persons with household income at or below 100 percent of Federal Poverty Level. Revisions also include changes to the Individual Plan copayment structure; copayments cannot exceed current federal maximums with the exception of emergency room (ER) visits in which case the existing copay for ER visits will remain at \$30.00.
- 7. b 2. AMENDING Agency rules at OAC 317:2-1-6.1 to formalize a complaint procedure for employees in civil rights violation events. The procedure allows an employee to submit a complaint when a discriminatory practice is believed to have taken place and dictates steps to be taken by the Agency when such complaint is submitted by the employee.

HISTORIC AVERAGE MONTHLY SOONERCARE ENROLLMENT PER STATE FISCAL YEAR

State Fiscal Year (SFY) is July - June. Data prior to SFY2000 is from the OKDHS County Summary Report. During SFY1998 Title 19 expansion and CHIP were implemented. SoonerPlan and Oklahoma Cares enrollment began in the last half of SFY2005. In SFY2006 OHCA implemented 12 month certifications and TEFRA.

Figures do not include Insure Oklahoma enrollees.

ELECTRONIC HEALTH RECORDS (EHR) INCENTIVE STATISTICS

The Electronic Health Records Incentive Program is a federal program that offers major financial support to assist certain providers to adopt (acquire and install), implement (train staff, deploy tools, exchange data), upgrade (expand functionality or interoperability) or meaningfully use certified EHR technology.

Year One Milestones and How They Match Our PCMH

- Complete an annual budget or forecast.
 - Not a requirement of SCC PCMH.
- Provide care management for high risk patients.
 - We require Care Coordination, if our providers are part of a HAN or HMP then care management is incorporated into the practice.
- Provide 24/7 patient access guided by medical record.
 - We require 24/7 Voice to Voice.
- Assess and improve patients experience of care.
 - CHAPS and ECHO's survey shows our results.
- Use data to guide improvement in care at the provider/care team level.
 - Recommended in Tier 3.
- Demonstrate active engagement and care coordination across the medical neighborhood.
 - We notify PCMH providers of IP admissions and discharges. Still working on more timely notification of ER visits.
- Improve patient shared decision making.
 - Requirement of Tier 3.
- Participate in market based learning collaborative
 - Through our HMP program.
- Meet the requirements for Stage 1 meaningful use.
 - Part of our PCMH model as our providers have applied for incentive payments.

SOONERCARE CHOICE PROGRAM INDEPENDENT EVALUATION

THE PACIFIC HEALTH POLICY GROUP NOVEMBER 2013

INTRODUCTION

- Andrew Cohen is a founding director of the Pacific Health Policy Group
- PHPG specializes in design, implementation and evaluation of health reform initiatives for publicly-funded populations (Medicaid, Medicare, TRICARE)
- PHPG has assisted over 30 state Medicaid programs since 1994
- In addition to Oklahoma, in the past three years PHPG has worked on Medicaid managed care engagements for public or managed care organization clients in the following fourteen states:

Arizona	California	Florida	Hawaii
Kansas	Kentucky	Missouri	New Jersey
New Mexico	New York	Ohio	Tennessee
Texas	Vermont		

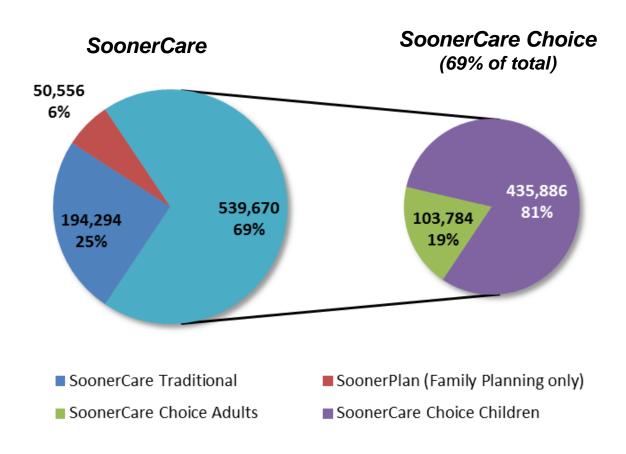

PHPG was retained to evaluate SoonerCare Choice and address the following:

- Trends How has SoonerCare Choice performed since 2008 (most recent prior evaluation) on the critical measures of Access to Care, Quality and Cost Effectiveness?
- ▶ **New Initiatives** What has been the impact to-date of the recent initiatives?
- ▶ National Perspective How does SoonerCare Choice compare to programs elsewhere in the country, particularly "traditional MCO" managed care?

In the past five years, the OHCA has sought to transform SoonerCare Choice through introduction of:

- ▶ Patient Centered Medical Homes (PCMH) every member is aligned with a primary care provider responsible for meeting access and quality standards
- Health Access Networks (HAN) Community-based integrated networks intended to improve care coordination through support of affiliated PCMH providers
- ▶ SoonerCare Health Management Program (HMP) holistic, person-centered care management for members with complex/chronic conditions and practice management support for their providers

SoonerCare - June 2013 Total Enrollment - 784,520

PCMH Tiers

- PCMH includes three tiers with escalating responsibilities and associated per member per month care coordination fees
- Providers also can earn "SoonerExcel" quality incentives for meeting performance targets, such as for preventive care, member use of the ER and prescribing of generic drugs

Tier 3

Tier 2

Entry Level

- 12 requirements
- Includes 24/7 telephone coverage by medical professional
- •\$3.46 \$4.85 per month
- Practice with average caseload receives up to \$16,005 per year in care coordination fees

Advanced

- 19 requirements, including all Tier I requirements
- Includes offering at least 30 hours of office time to see patients
- •\$4.50 \$6.32 per month
- Practice with average caseload receives up to \$20,856 per year in care coordination fees

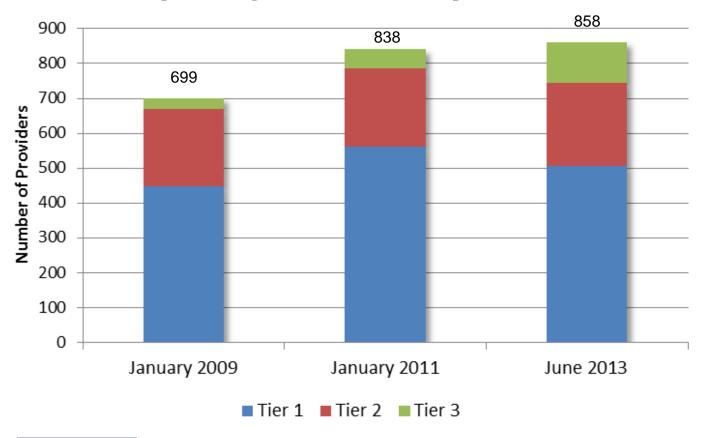

Optimal

- •23 requirements, including all Tier I and Tier 2 requirements
- Includes using health assessment tools to characterize patient needs/risks
- •\$5.99 \$8.41 per month
- Practice with average caseload receives up to \$27,753 per year in care coordination fees

PCMH Practice Participation

- The total number of participating practices increased significantly from 2009 to 2013
- Since 2009, Tier 3 practices, as a percent of total, have increased from six percent to nearly 14 percent
- About 60 percent of SoonerCare Choice members are now enrolled with a Tier 2 or Tier 3 practice

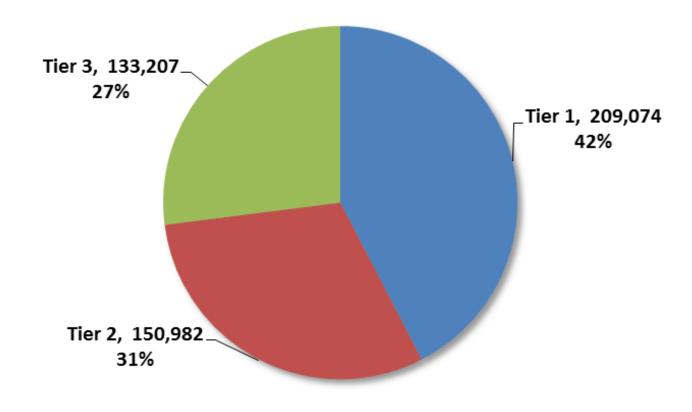

Participating Practices by Tier Level*

^{*}Notes – Approximately 20 percent of practices surveyed in 2012 reported that their tier level had changed at some point; practices can include multiple providers

Enrollment by Tier Level – June 2013

Source: June 2013 Fast Facts

Health Access Networks (HANs)

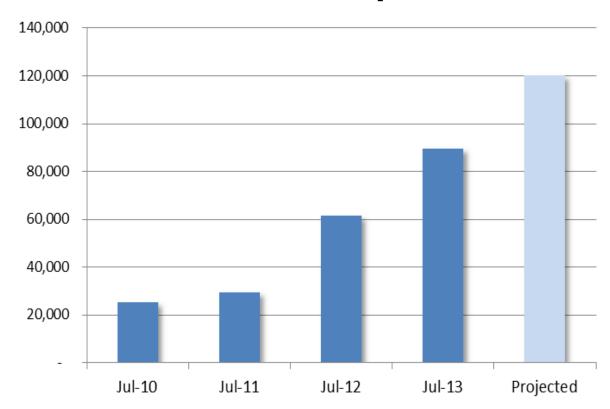

- Launched in July 2010
- Expands on the PCMH by creating community-based, integrated networks
- Intended to increase access to health care services, enhance quality and coordination of care and reduce costs.
- ▶ There are three HAN contractors:

Central Communities (Canadian County)
Oklahoma State University (OSU) Center for Health Sciences
Oklahoma University (OU) Sooner

▶ The HANs receive \$5.00 PMPM in return for certain enhancements, which include offering telemedicine, specialty care assistance and care management to PCMH providers and their members.

SoonerCare Choice Evaluation - TRENDS

TRENDS – ACCESS TO CARE

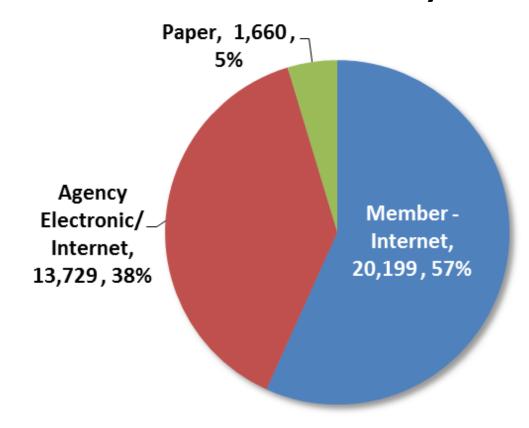

Evaluation Questions

- Is it easy or difficult to enroll in SoonerCare Choice?
- Once enrolled:
 - Is there an adequate selection of primary care providers?
 - Are services (primary care and specialty) accessible?
- Are members with complex or chronic conditions able to navigate the system?

Online Enrollment

- Over 30,000 applications for SoonerCare processed each month
- Online enrollment objectives:
 - Provide 24/7 access to enrollment and "real time" determination of eligibility
 - Facilitate selection of a medical home
 - Reduce staff hours required for processing applications
- Online enrollment was launched in September 2010
- Impact was immediate paper applications have nearly ended

Enrollment Method - February 2013 Snapshot

Source: OHCA Online Enrollment Fast Facts

Online Enrollment Savings

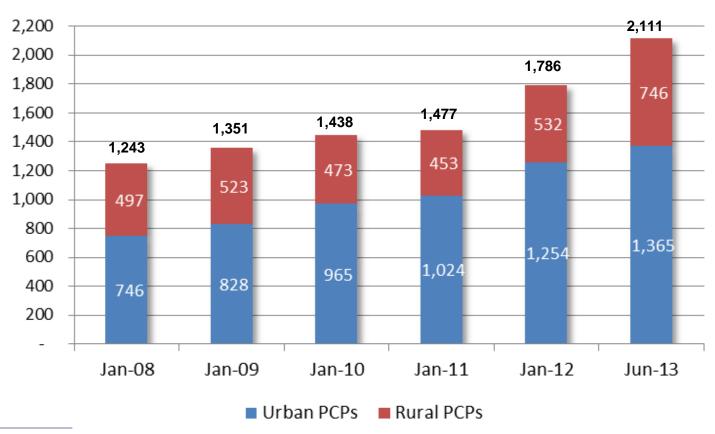

- PHPG evaluated the "return on investment" for online enrollment by comparing state share of operational costs over the first five years to potential for reallocating caseworker resources
- A separate study was conducted by Mathematica Policy Research of "Express Lane Eligibility" in multiple states, with Oklahoma included as a comparison state
- Both firms estimated annual savings in the initial post go-live period of about \$1.5 million; PHPG projected the savings would continue to grow in out years, as online enrollment volume increases
- The "savings" represent case worker resources freed-up for other activities, such as assisting individuals applying to DHS for cash assistance or Supplemental Security Income benefits

TRENDS - ACCESS TO CARE

Evaluation Questions

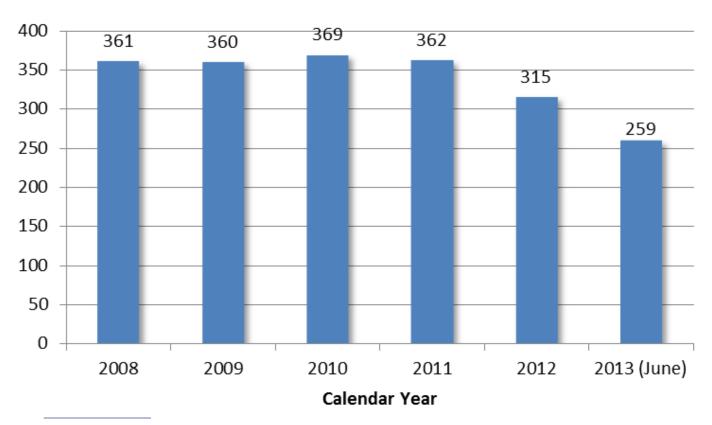

- Is there an adequate selection of primary care providers?
- Are services accessible?
- Is emergency room use rising or declining?
- Is help available to members with complex/chronic conditions?

SoonerCare Choice PCPs (PCMH)

^{*} Urban includes former SC Plus counties. A portion of the increase may be attributable to more precise taxonomy in 2012 - 2013; Cotton County had no PCPs in May 2013 Sources: OHCA Provider Fast Facts Report; KFF.org (total active PCP count)

Average SoonerCare Members per PCP – Urban/Rural

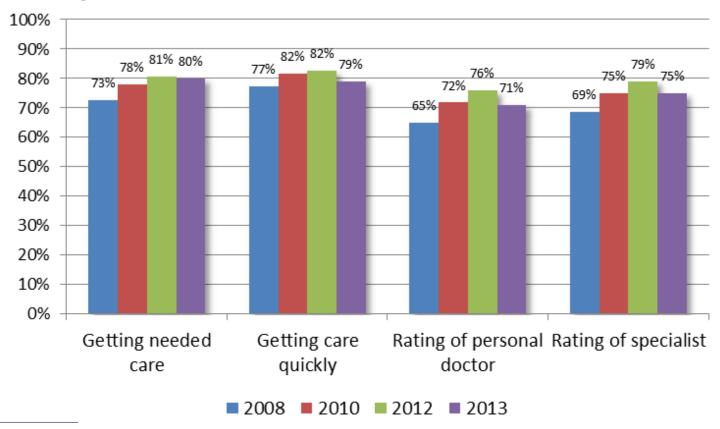

Appointment Availability

- PCP (and specialist) capacity must translate into appointment availability or members will bypass in favor of the emergency room
- SoonerCare Choice members are routinely surveyed on their ability to see their personal doctor and specialists
- PHPG evaluated appointment availability through
 - Review and trending of published survey data
 - Analysis and trending of total SoonerCare Choice emergency room utilization

Member Satisfaction

- Consumer Assessment of Healthcare Providers and Systems survey (CAHPS)
- Satisfaction with adult services increased from 2008, though it dipped slightly in the most recent survey
- Satisfaction with services for children has shown an uninterrupted rise

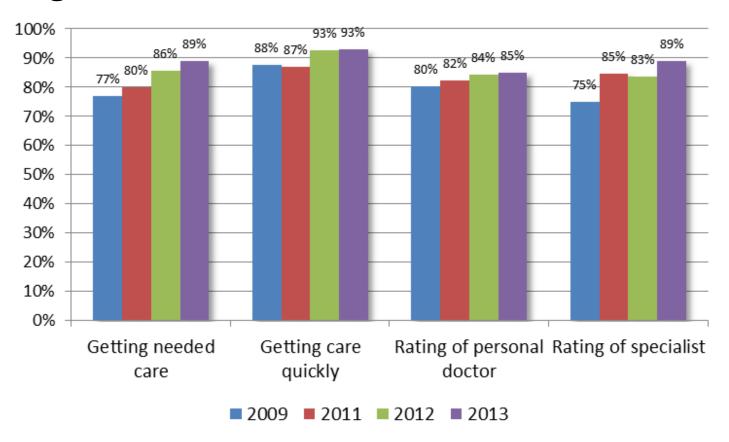

High Satisfaction with Care for Adults*

^{*} Percent rating 8, 9 or 10 on a 10-point satisfaction scale; "Getting care quickly" is a composite measure based on questions regarding satisfaction with obtaining needed care, both urgent and non-urgent

Sources: CAHPS Health Plan Survey Adult Version - Telligen through 2012; Morpace for 2013 (surveys are conducted from July to December of year preceding reporting year)

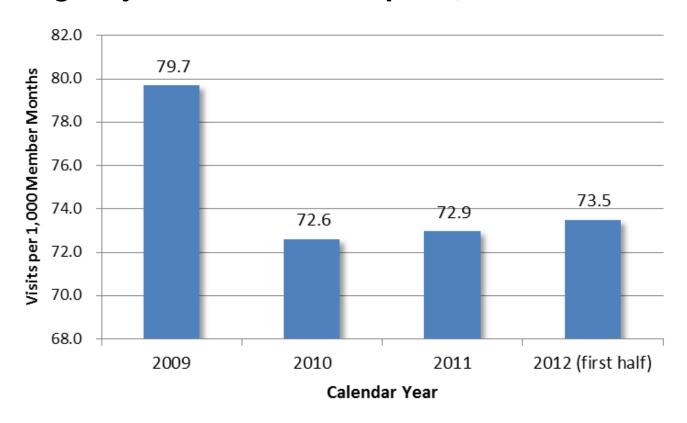

High Satisfaction with Care for Children*

^{*} Percent rating 8, 9 or 10 on a 10-point satisfaction scale

Sources: CAHPS Health Plan Survey Child Version - Telligen through 2012; Morpace for 2013 (surveys are conducted from July to December of year preceding reporting year)

Emergency Room Utilization per 1,000 Member Months*

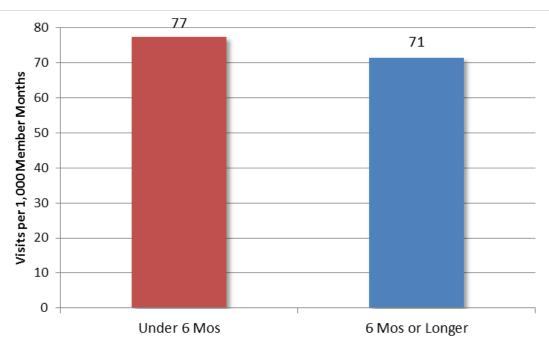

^{*}SoonerCare Choice members enrolled in a Patient Centered Medical Home; 2012 rate includes seasonality adjustment; data excludes dual eligibles whose ER claims are paid by Medicare

Sources: Oklahoma rate derived from analysis of paid claims data; national Medicaid rate reported in Health Affairs

Emergency Room Utilization (Per 1,000 Member Months)

Comparison by Tenure: Members enrolled at least 6 months have lower ER utilization*, suggesting that the impact of PCMH care management increases over time

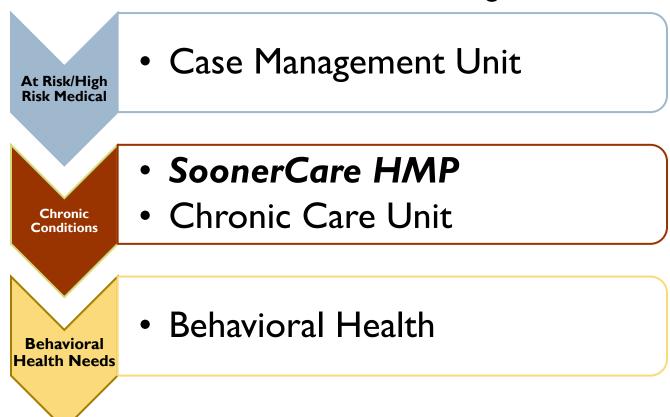

*Note: Average for 2009 - 2012

Assistance to Members with Complex/Chronic Needs

The OHCA Population Care Management and BH Departments oversee a needs-based, multi-tiered care management structure

IN-DEPTH EVALUATION - HMP

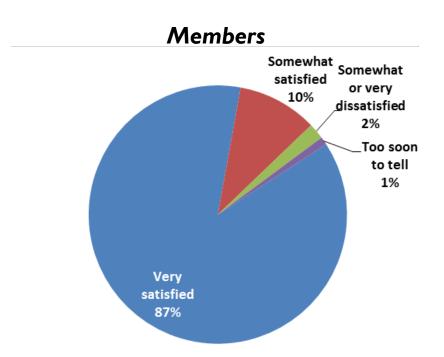

SoonerCare HMP

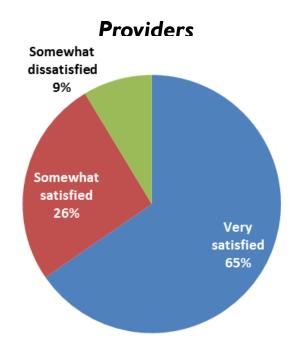

- The SoonerCare Health Management Program (HMP) was mandated by the Oklahoma Medicaid Reform Act of 2006 and implemented in 2008 to:
 - Better manage the needs of members with complex/chronic conditions (e.g., Asthma and Diabetes) through a holistic model of care (focus on the person, not the disease)
 - Prepare members to self-manage their conditions
 - Enhance the ability of primary care providers to manage the needs of patients with complex/chronic conditions
- The program has two components:
 - Nurse Care Management/Health Coaching up to 7,500 members at any given time, selected based on projected risk of adverse health outcomes and high healthcare expenditures using predictive modeler
 - Practice Facilitation (88 practices since 2008)

Satisfaction

Both members and providers have expressed high levels of satisfaction with the program

IN-DEPTH EVALUATION - HMP cont'd

SoonerCare HMP Participant Interviews

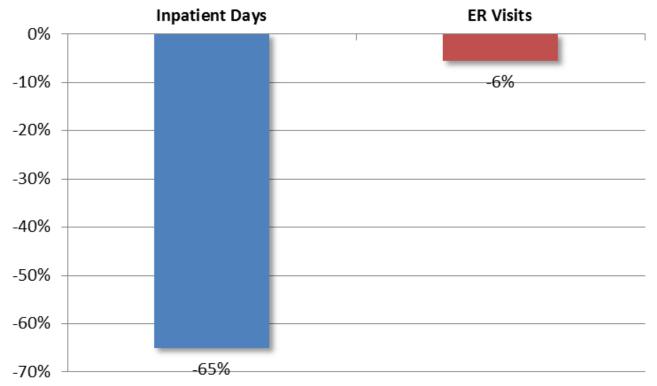

- "Well, I mean, health-wise, I feel like I'm better. I lost, like, 92 pounds. I'm exercising three times a week...and when it's warm I try to walk as much as I can outside. When it's cold I walk inside my apartment building in the hall. There's other things going on too, but my nurse also helped me to come up with a plan to lose weight."
- "She keeps my health and my mind together. Exercising and eating right and taking my medication, my blood sugar and my blood pressure."
- "I love it that someone's checking up on me and making sure that I'm OK every month. I can't say that anybody I've given birth to would do that!"

IN-DEPTH EVALUATION – HMP cont'd

HMP Impact on Cost

The program's net cost effectiveness (accounting for administrative expenses) has increased each year, with total savings through SFY 2012 exceeding \$139 million

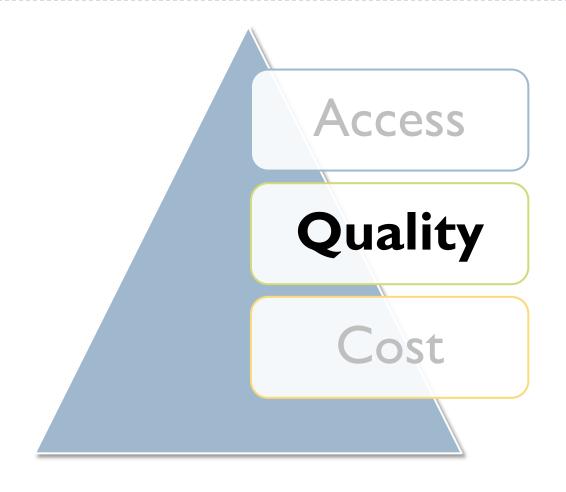

SoonerCare HMP – Net Savings (Deficit) by State Fiscal Year (in millions)*

Program Component	2009	2010	2011	2012	Total
Care Management	(\$2.5)	\$1.2	\$45.8	\$48.7	\$93.1
Practice Facilitation	<u>(\$0.6)</u>	<u>\$7.1</u>	<u>\$27.1</u>	<u>\$12.5</u>	<u>\$46.1</u>
Total Program	(\$3.1)	\$8.3	\$72.9	\$61.2	\$139.2

Source: SFY 2012 SoonerCare HMP Annual Evaluation Report

^{*}Savings are net of HMP administrative expenses (OHCA staff and vendor payments). Administrative expenses have totaled \$26.6 million through SFY 2012, yielding a program return-on-investment of 524 percent

SoonerCare Choice Evaluation - TRENDS

TRENDS – QUALITY OF CARE

Evaluation Questions

- Does the program have mechanisms to measure and reward quality?
- Are members receiving appropriate preventive and diagnostic services?
- Are health outcomes improving?

Preventive and Diagnostic Services

- The OHCA tracks preventive and diagnostic service delivery for SoonerCare Choice through "Healthcare Effectiveness Data and Information Set" (HEDIS®) measures
- PHPG evaluated HEDIS results over time and in comparison to national HEDIS Medicaid MCO rates (where available)
- Measures included:
 - ▶ HEDIS Trends: Child/adolescent access to PCPs
 - HEDIS Trends: Adult access to preventive services
 - ▶ HEDIS Trends: Annual dental visit rates for members under 21
 - ▶ HEDIS Trends: Breast and cervical cancer screening rates

HEDIS Trends

- SoonerCare Choice has achieved improvement in child/adolescent access to PCPs since 2008
- The SoonerCare Choice access rate is higher than the national rate for all groups

HEDIS Measure	2008	2009	2010	2011	2012	Change 2008 - I 2	National Rate
Child access to PCP, 12-24 months	94.1%	96.2.%	97.8%	97.2%	96.6%	↑2.5%	96.1%
Child access to PCP, 3-6 years	83.1%	86.9%	89.1%	88.4%	90.1%	↑7.0 %	88.2%
Child access to PCP, 7-11 years	82.7%	87.6%	89.9%	90.9%	91.7%	19.0 %	89.5%
Adolescent access to PCP, 12-18 years	81.4%	85.8%	88.8%	89.9%	91.6%	↑10.2%	87.9%

Source: Oklahoma Health Care Authority (OHCA) for Oklahoma HEDIS® results and National Committee for Quality Assurance (NQCA) for national Medicaid HMO rates. Reporting years represent results for activity in the prior year

HEDIS Trends

- Annual dental visit rates for members under 21 have improved modestly and reached 64 percent in 2012
- Adult access to preventive/ambulatory services also has improved and is over
 80 percent for members 20 44 and over 90 percent for members 45 64

HEDIS Measure	2008	2009	2010	2011	2012	Change 2008 -12	National Rate
Annual dental visit under 21 years	59.7%	62.1%	60.2%	62.0%	64.0%	↑4.3 %	
Adult access to preventive/ ambulatory services, 20 – 44 years	78.4%	83.3%	83.6%	84.2%	83.1%	↑4.7 %	
Adult access to preventive/ ambulatory services, 45 – 64 years	86.8%	89.7%	90.9%	91.1%	91.0%	↑4.2 %	

Source: Oklahoma Health Care Authority (OHCA) for Oklahoma HEDIS® results and National Committee for Quality Assurance (NQCA) for national Medicaid HMO rates. Reporting years represent results for activity in the prior year

HEDIS Trends

- The exceptions to the broader positive trends are breast and cervical cancer screening rates
- ▶ Both rates are down slightly from 2008 and below the national rate
- Recommended screening age raised for mammograms and recommended cervical screening intervals lengthened in 2012 (both nationally) after several years of review; may have contributed to flat/declining trend

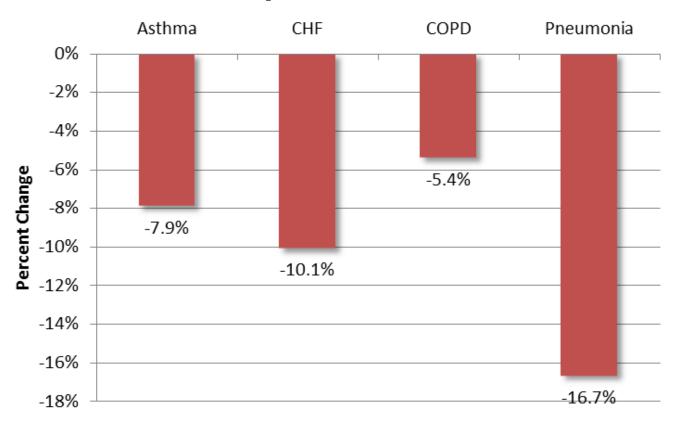

HEDIS Measure	2008	2009	2010	2011	2012	Change 2008 - 12	National Rate
Breast cancer screening rate	38.3%	43.0%	41.1%	41.3%	36.9%	↓1.4%	50.4%
Cervical cancer screening rate	44.4%	46.6%	44.2%	47.2%	42.5%	↓1.9 %	66.7%

Avoidable Hospitalizations

- Avoidable hospitalization rate is an effective indicator of the quality of ambulatory health care for persons with complex and chronic conditions
- PCMH and SoonerCare Choice care management activities are both directed in part to ensuring access to the right care in the right setting
- PHPG used paid claims data to evaluate the avoidable hospitalization rate among SoonerCare Choice members with Asthma, CHF, COPD and Pneumonia (based on admitting diagnosis)
- ▶ The <u>rate fell</u> for all four conditions from 2009 to 2012

Avoidable Hospitalization Rate (2009 – 2012)

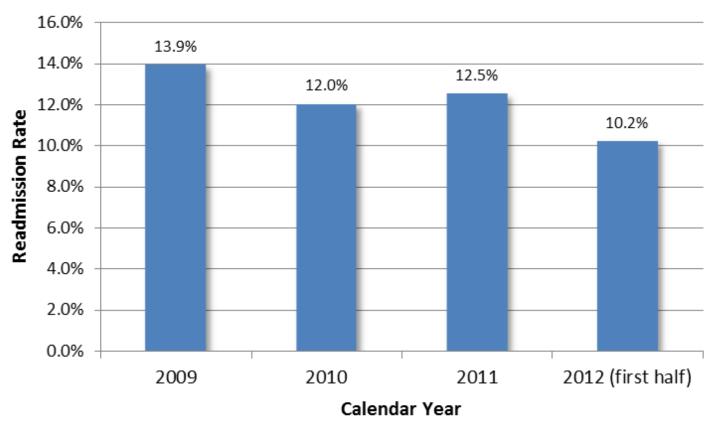

^{*}SoonerCare Choice members enrolled in a Patient Centered Medical Home

Source: OHCA paid claims

Hospital Readmissions

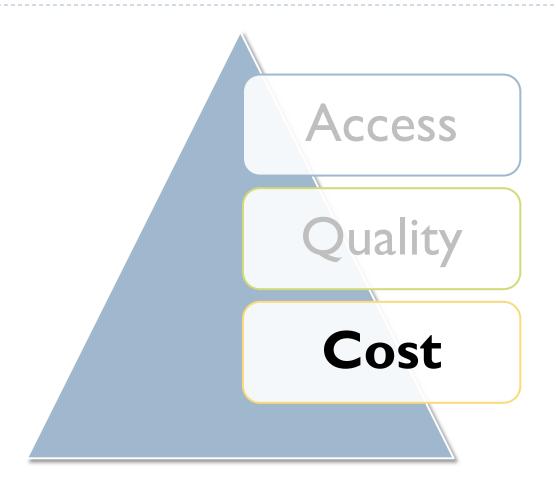

- The hospital 30-day readmission rate is an effective indicator of discharge planning activities, PCP post-discharge care and SoonerCare Choice case management
- ▶ PHPG used paid claims data to evaluate the 30day readmission rate for 2009 – 2012 (first six months)
- ▶ The rate declined by 26 percent from 2009 2012

SoonerCare Choice Evaluation - TRENDS

TRENDS - COST EFFECTIVENESS

Evaluation Questions

- Is the SoonerCare program cost effective in terms of health care expenditures?
- Is the SoonerCare program cost effective in terms of administrative expenses?

Health Expenditures

- Improved program performance must be cost effective to be sustainable
- PHPG used paid claims data to calculate per member per month expenditures for SoonerCare Choice members for the period Jan 2009 to June 2012
- PHPG also evaluated SoonerCare Choice expenditures against the national health care inflation rate

Health Expenditures

- ▶ PMPM health expenditures for SoonerCare Choice members* rose modestly from 2009 2012, increasing an average of 1.4 percent per year
- During the same period, per capita national health expenditures increased by an average of 3.2 percent per year

SoonerCare Choice Member PMPM Expenditures

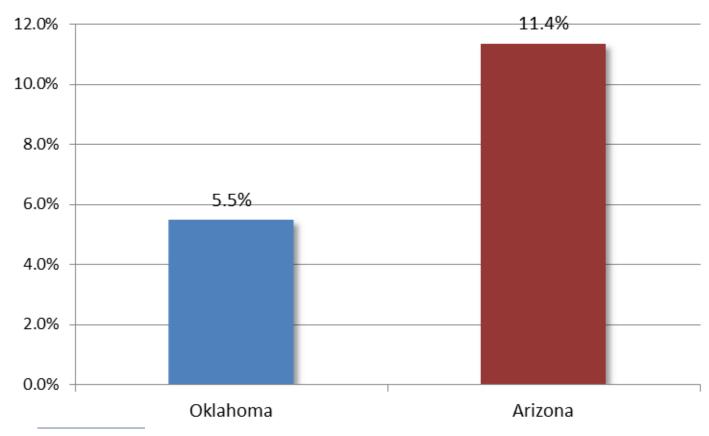

Admitting Diagnosis	2009	2010	2011	2012 (First 6 Mos.)	Avg. Annual Change
ABD (non-duals)	\$863	\$851	\$848	\$862	↓0.0 %
TANF/Other	\$205	\$199	\$206	\$225	↑3.2%
TOTAL	\$274	\$264	\$277	\$286	1.4%

^{*}Note – Data is for members assigned to a PCMH Source: OHCA paid claims data

Administrative Expenditures

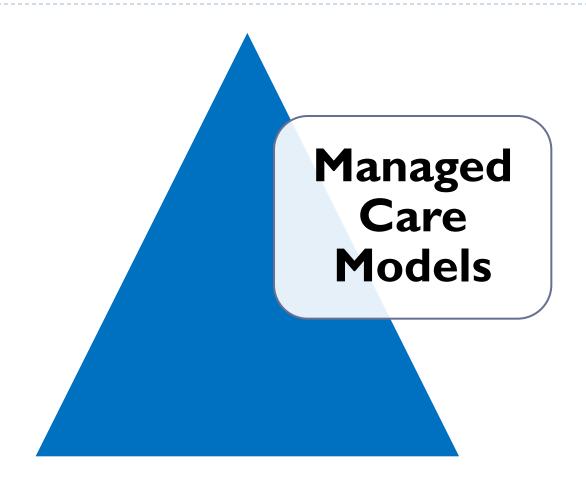

- The OHCA contracts for some care management activities (e.g., SoonerCare HMP) but otherwise operates as a state managed care plan
- This structure enables the agency to devote a larger share of expenditures to the delivery of care
- States with MCO contracts can have slightly lower agency costs but the difference is typically offset by administrative costs incurred by the managed care organizations
- A national survey of 94 Medicaid MCOs found that 11.6 percent of capitation on average went to administration and an additional 1.3 percent was retained as profit
- PHPG compared Oklahoma to Arizona, which enrolls all Medicaid beneficiaries into MCOs

Administrative Cost Comparison

FINAL OBSERVATIONS

FINAL OBSERVATIONS – MANAGED CARE MODELS

Managed Care Organization (MCO) Model

- The majority of states introducing or expanding managed care have done so through MCO contracts
- Among Oklahoma's neighbors, Missouri, Kansas, New Mexico and Texas contract with MCOs, including for ABD members and long term care (Missouri is TANF only)
- The industry is undergoing consolidation and a small number of national MCOs increasingly dominate (although qualified single state and regional plans also participate)
- Seven large plans (Aetna, Anthem Blue Cross, Centene, Health Net, Molina, United, WellCare) have combined enrollment of 6.2 million lives
- These MCOs can bring expertise from existing markets into states implementing or expanding managed care (e.g., Kansas)

FINAL OBSERVATIONS – MANAGED CARE MODELS

MCO Model cont'd

- However, market consolidation and competition among national MCOs also has meant:
 - Lengthier procurements, to allow for resolution of protests by losing organizations (e.g., Ohio program)
 - Willingness on the part of <u>national</u> contractors to depart states if early profit expectations are not met (e.g., Florida and Kentucky programs)
 - MCO model works best when there is a strong partnership with the Medicaid agency, since reforms (e.g., PCMH) must be implemented through the MCOs

FINAL OBSERVATIONS – MANAGED CARE MODELS

Community-Based Systems of Care

- A smaller number of states, like Oklahoma, have developed managed care programs that:
 - Combine community-based systems of care with support at the state level in the form of chronic care/health management and quality initiatives (either directly administered or purchased)
 - Use market-based incentives to drive and reward holistic, costeffective care
- Examples of programs similar in concept to SoonerCare Choice include:
 - California CalOptima Program (Orange County)
 - North Carolina Community Care of NC/ACCESS
 - Oregon Coordinated Care Organization (new)
 - Vermont Global Commitment to Health

State Plan Amendment Rate Change (SPARC) October 30, 2013 Inpatient Psychiatric Services - Method Change for Specialty Services

1. <u>Is this a "Rate Change" or a "Method Change"?</u> Method change

1b. <u>Is this change an increase, decrease, or no impact?</u> Increase.

2. Presentation of issue – Why is change being made?

The Oklahoma Department of Mental Health and Substance Abuse (ODMHSAS) proposes a prospective complexity add-on payment to the specialty per diem base rate for psychiatric residential treatment facilities (PRTF) services, to recognize the increased costs of serving children who have a mental health diagnosis complicated with non-verbal communication. The OHCA has identified three Specialty PRTFs that serve children with mental health diagnoses such as Autism, Reactive Attachment Disorder or Asperger syndrome. The current statewide rate for one of these facilities is not sufficient to cover the direct costs of providing services to this population, and without a rate increase, access to in-state care could be compromised, forcing the Agency to seek placement out-of-state. The proposed add-on is \$77.51 per diem.

Current methodology and/or rate structure.

The current specialty base rate for in-state PRTFs is \$400.05 per day. The rate is prospective, based on 2005 pro forma financial/survey data provided by in-state facilities. Out-of-state specialty rates are usually negotiated. For example, the rate paid to an out-of-state specialty PRTF for deaf children, is \$470.33 per day. In addition to the base rate, a facility may receive an intensive treatment services (ITS) per diem for children requiring intensive supports such as 1:1 staffing. The need for this adjustment must be documented in the patient's medical record. A cost-based outlier payment adjustment may also be made on a case-by-case basis for unusually expensive cases.

3. New methodology or rate.

ODMHSAS proposes a prospective complexity add-on for a patient level characteristic of the specialty PRTF population. The proposed complexity add-on rate for non-verbal children is \$77.51 per day. Since there are no psychometric tools or diagnostic criteria specifically for this co-occurring condition, we do not have any data or analysis to determine a specific add-on that is directly related to the challenges of serving this population in a PRTF. Providers attest that there are increased costs for serving children that are non-verbal. These costs will vary based on the age and individual needs of the child, and will impact the direct costs (or labor portion) of the per diem. We averaged the 2012 reported costs of the three current in-state specialty facilities that serve the specific population and the "total" rate was adequate to cover costs. We then compared the costs, patient days, and staffing hours for each facility individually, which varied significantly. We further reviewed the 2009 reported costs of Camelot specialty facility¹ and decided to use this data to calculate the add-on, as we felt this would better reflect the overall costs of an adequately staffed, efficient and economically operated facility. Assuming that 50% of the facility's per diem cost and the current payment rate are for direct costs, we computed the difference. The result was shortfall of \$38.11 per day. Since this adjustment is only for a small percentage of the patient population (approximately 15 children), we updated this shortfall by one year CPI (1.68%) and multiplied the result by a factor of 2 to arrive at the add-on. A facility may receive both the complexity add-on per diem in addition to the ITS add-on for a patient, if applicable. Payment will require prior authorization

¹ Camelot was the previous name of Rose Rock prior to change in ownership, which began operations in the state circa 2006.

and the need for this add-on will rely on the competence and administrative documentation of the clinician, (e.g., child does not respond to commands, verbal skills are not reaching age appropriate milestones, points to communicate).

4. Budget estimate.

In 2012, there were 35,628 in-state specialty patient days. We estimate that 15% of the population, or 5,324 days were for children that were non-verbal. The estimated annual budget impact is \$412,663, total dollars. We anticipate a December 1, 2014 implementation date, so there will only be a 7-month impact for SFY14; therefore the budget impact would be \$240,720 total dollars; \$86,611 state dollars. The ODMHSAS has adequate funds to cover the state share of the projected cost of services. The budget impact is budget neutral for the Oklahoma Health Care Authority. All of the increase is represented by increased payments to providers.

5. Agency estimated impact on access to care. It is believed that this rate increase will encourage in-state providers to continue to provide services to complex patients and thus have a positive impact on access to care to individuals who have a specialty mental health diagnosis with non-verbal communication.

6. Rate or Method change in the form of a motion.

The agency requests the State Plan Amendment Rate Committee to approve a new rate methodology for a per diem add-on payment for specialty PRTFs serving children with comorbid specialty mental health and non-verbal conditions.

7. Effective date of change.

December 1, 2013

State Plan Amendment Rate Change (SPARC) October 30, 2013 Anesthesia Payment Rate Change

1. <u>Is this a "Rate Change" or a "Method Change"?</u>

Rate change

1b. <u>Is this change an increase, decrease, or no impact?</u>

Increase

2. Presentation of issue – Why is change being made?

This change is being requested to increase the anesthesia conversion factor from the budget reduction conversion factor of \$30.48 (\$31.50 default) to \$39.00 for CPT codes 00100 - 01966 and 01968 - 01999. CPT code 01967 (analgesia / anesthesia for vaginal delivery) will continue to pay at a flat fee; the flat fee will increase from the budget reduction max fee of \$411.19 (\$425.00 default) to \$550.00

In 2006 during a work group meeting involving the Oklahoma Health Care Authority (OHCA) and other state agency (OSA) representatives a proposal was introduced to use two State of Oklahoma agencies' conversion factors as a benchmark for the OHCA program.

At that time, the Oklahoma state employee insurance company, HealthChoice, reimbursed anesthesiologists using a conversion factor of \$45 and the Oklahoma Workers Compensation Court Schedule of Medical and Hospital Fees allowed for a conversion factor of \$39.00. OHCA set a conversion factor of \$39.00 as the goal.

Currently (1/1/2013) HealthChoice is using a conversion factor of \$55.00 and the Oklahoma Workers Compensation Court Schedule of Medical and Hospital Fees is using \$46.58.

3. Current methodology and/or rate structure.

OHCA currently uses an industry standard anesthesia reimbursement methodology based on a formula involving base units and time units multiplied by a conversion factor.

4. New methodology or rate.

The change is to increase the conversion factor from \$30.48/\$31.50 to \$39.00.

5. <u>Budget estimate.</u>

The annual total dollar impact is \$8,498,332; state share \$3,057,700. OHCA is planning a Jan 1 implementation date so there would only be a 6 month impact in SFY2014. The 6 month impact is 4,249,166 total dollars; 1,528,850 state share.

6. Agency estimated impact on access to care.

This rate increase will encourage providers to participate in the Medicaid program and thus have a positive impact on access to care.

7. Rate or Method change in the form of a motion.

The agency requests the State Plan Amendment Rate Committee to approve a rate change for all anesthesia providers.

8. Effective date of change.
