What is the Electronic Health Record (EHR) Incentive Program?

- Provides a financial incentive to Eligible Professionals (EP) and Eligible Hospitals (EH) for the adoption of and "meaningful use" of certified EHR technology.
- Two ways to qualify
 - Adopt, Implement, Upgrade (AIU), first year only
 - Meaningful Use
- Apply for incentive 2011 - 2016
 - Payments through 2021
 - EP – \$63,750
 - EH – \$2 million base amount (adjusted by hospital discharges)

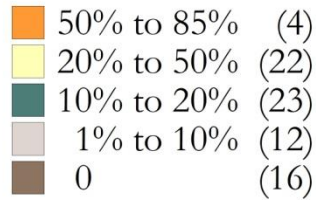

EHR Incentive Participation

Eligible Professional Participation

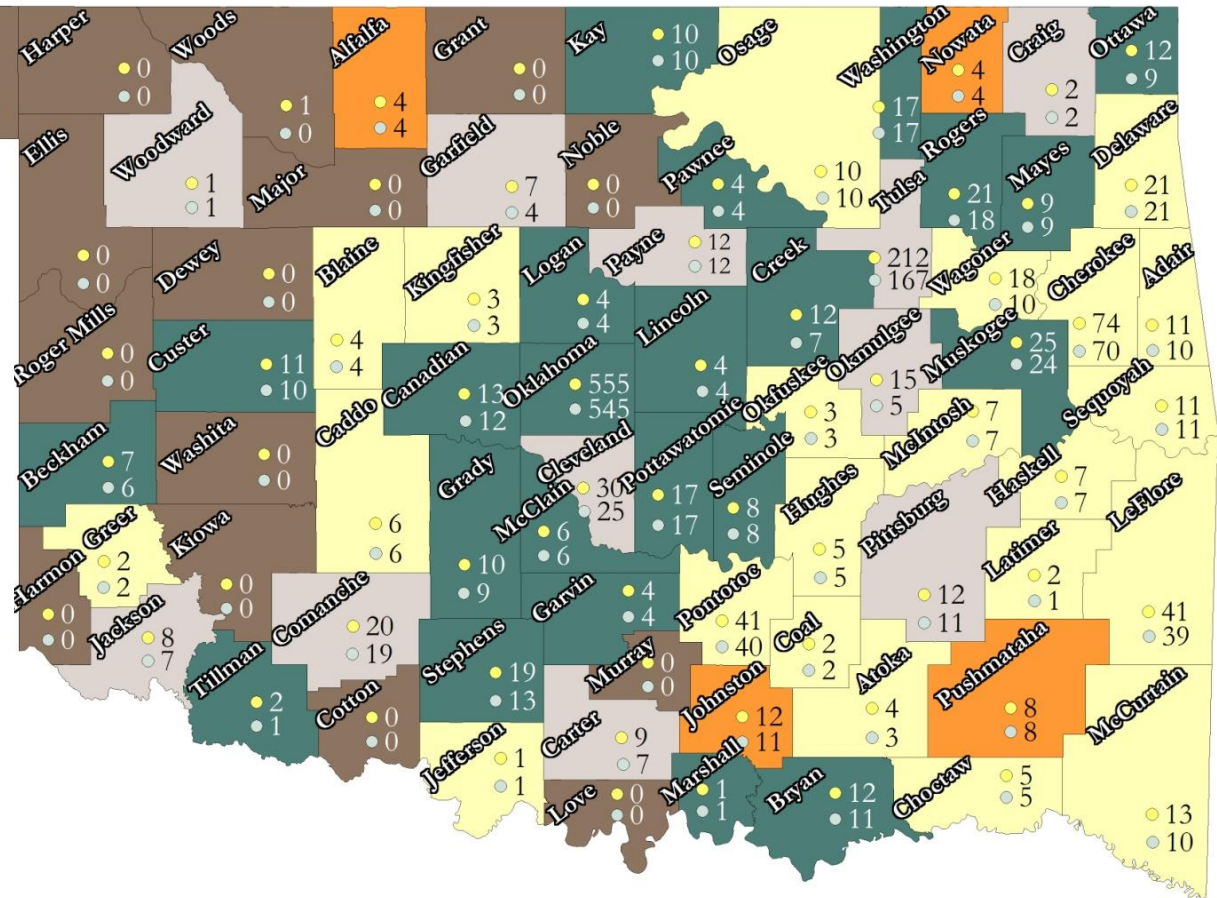

(As of July 2012)

Percent of Participation

• Number of EPs Attested

• Number of EPs Paid

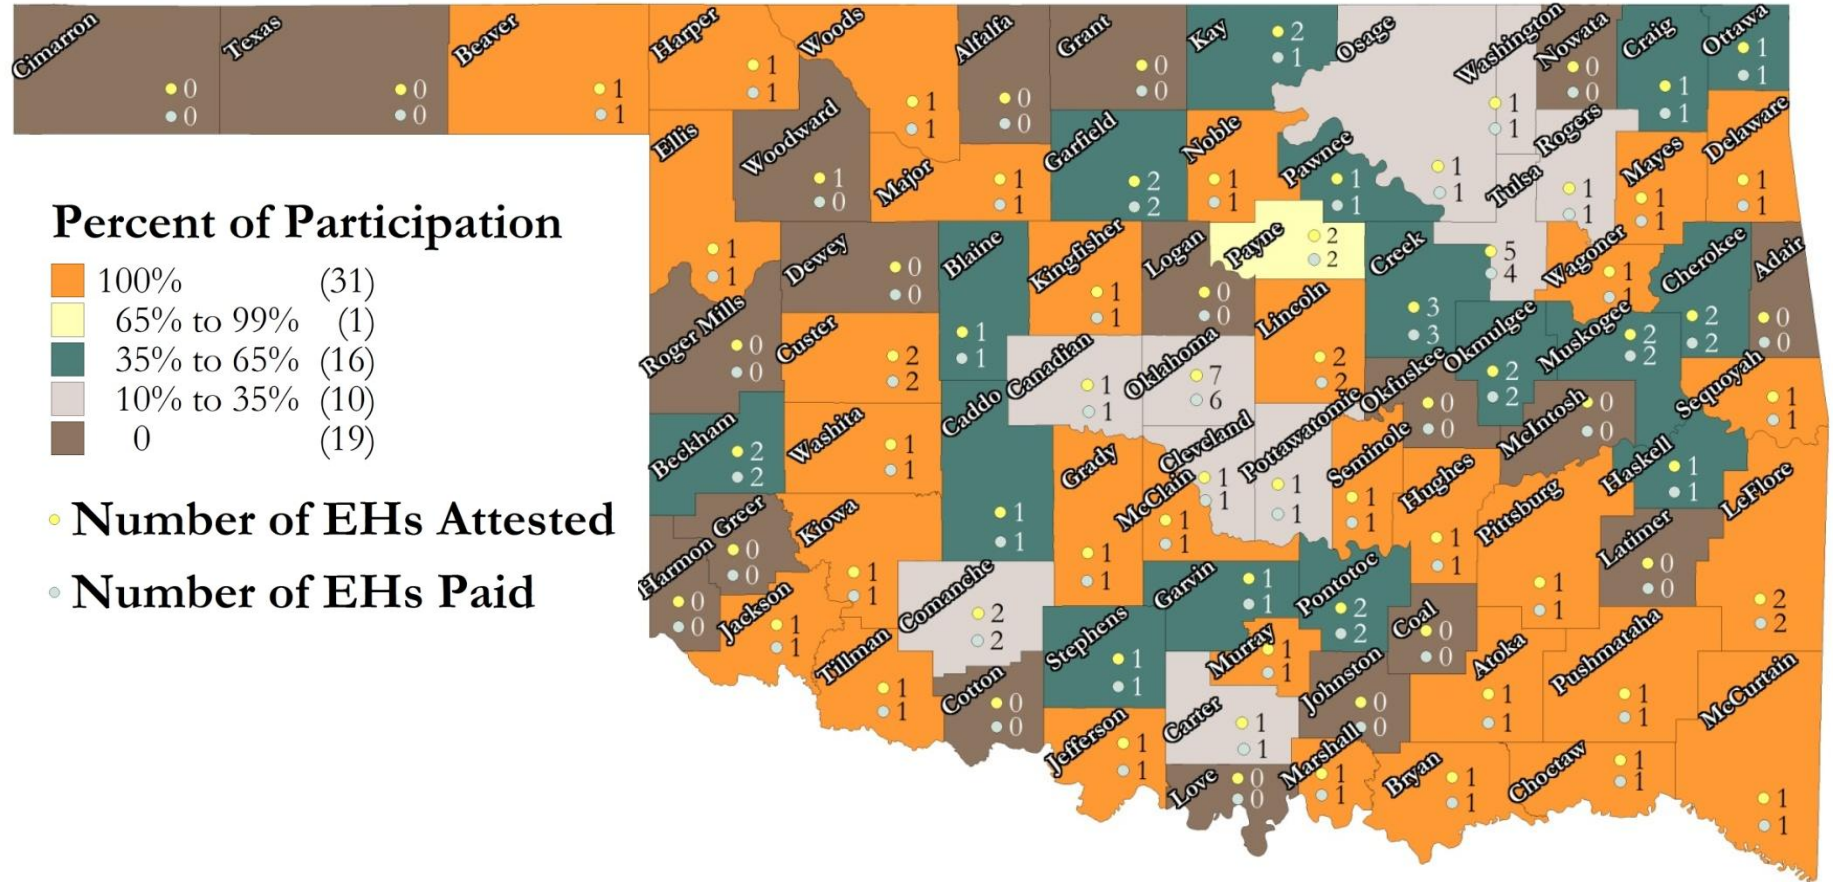

Eligible Hospital Participation

(As of July 2012)

Percent of Participation

- Number of EHs Attested
- Number of EHs Paid

What is Meaningful Use?

- The use of a certified EHR:
 - In a meaningful manner
 - For electronic exchange of health information
 - To submit clinical quality and other measures
- Using certified EHR technology in ways that can be measured significantly in quality and in quantity
- Three stages
 - Stage 1 – Introduces electronic data capture and information sharing
 - Stage 2 – Integrates advanced clinical processes
 - Stage 3 – Will focus on improved outcomes

Stage 1 Meaningful Use

- Eligible Professionals
 - **25 meaningful use objectives**
 - Minimum of 20 objectives
 - 15 required core objectives
 - 5 out of 10 menu set objectives
 - **6 clinical quality measures**
 - 3 required core measures
 - 3 out of 38 clinical quality measures
- Eligible Hospitals
 - **24 meaningful use objectives**
 - Minimum of 19 objectives
 - 14 required core objectives
 - 5 out of 10 menu set objectives
 - **15 clinical quality measures**
 - Must report on all measures

How EHR Systems and Meaningful Use Can Benefit to You?

- Clinical Workflow Efficiencies
 - Easily Locate Charts/Data
 - Organized/Summarized Data
 - Access to Patient Chart/Data from Anywhere
 - Lab, Test Orders/Results
 - ePrescribing
 - Referral Tracking System
 - Query Patients by Specific Conditions
 - Alerts/Reminders
 - To Provider
 - To Patient
 - Patient Portal

How EHR Systems and Meaningful Use Can Benefit to You? Cont'd

- Business Process Efficiencies
 - Reduced Time on Phone, Sending Emails, Letters, & Faxes
 - Summarized Records (No need to search through past records)
 - Integrated with Clearing House
 - Decreased Storage Space
 - Disaster Recovery

“Quotes From Providers”

- “With the ability to access the patient’s chart wherever I am has been very useful. I am able to provide 24 hour care and send a refill for a prescription without having to be in the office.”
- “Being able to locate the patient’s information quickly has saved us a lot of time. With paper records, there was the potential for parts of the record to be separated which took too much time to locate.”
- “EHRs provide us the ability to run reports needed for other state or federal initiatives.”
