IX. Action Items: Tywanda Cox

OHCA Initiated

12-07 Therapy Referral Requirements— Agency policy on therapy services is revised to comply with federal law, which requires a prescription or referral from a physician or practitioner of the healing arts before therapy services are rendered. Policy is also revised to require a prior authorization for speech therapy services.

Budget Impact: Total Budget *Savings* of \$25,000; State Savings of \$8,750

12-08 Parental Consent Policy— Policy is amended to match state law and current agency operational requirements that parental or legal guardian consent must be given prior to rendering services to a minor child.

Budget Impact: Budget neutral

12-09 Long Term Care Crossover Payments— Policy will be amended to allow 100% payment of Medicare Crossover deductibles and coinsurance at skilled nursing facilities. Current policy allows payment at the Medicaid rate, which was previously adjusted to 0%. The rationale behind current policy is based on a federal policy that allowed federal reimbursement/write-offs for bad debts. That federal policy is no longer in effect and has prompted the policy amendment request.

Budget Impact: *Budget Cost* of \$24 million, \$8.6 million state share

Discussion by MAC members regarding communication on the items, and Mr. Fogarty thanked them and acknowledged that as an advisory body, they are advising that OHCA communicates these matters with others. Staff also mentioned that the OHCA does communicate with various groups. These Action Items are federal law and OHCA has initiated these emergency rules to be in compliance with the federal law. These go to the Board for their approval.

12-07, 12-08, 12-09 voted en bloc. 1 against, all others in favor. Ms. Holiman-James motioned to approve, Dr. Wright seconded. Motion carried.

ODMHSAS Initiated

12-19 Behavioral Health Rehabilitation Services – Outpatient Behavioral Health rules are revised to: (1) Clarify that rehabilitative services are adjunct (enhancing) interventions designed to complement more intensive behavioral health therapies and interventions; (2) Limit BHRS services to age appropriate target populations for children and eliminate coverage to children under the age of 6 unless medical necessity requires an exception pursuant to EPSDT requirements; and (3) Impose limits on BHRS services which will be based on the individual's level of need as determined by standardized assessment tools recognized by ODMHSAS and OHCA.

Budget Impact: SFY 2013 \$7,823,775 Total *Savings* (\$2,814,994 State Savings); SFY 2014 \$18,777,062 Total *Savings* (\$6,755,986 State Savings)

The MAC advises to clarify language as to who can provide medication training/support. Mr. Tallent approved, seconded by Dr. Post. Motion carried.

**Due to federal regulations, OHCA must have an approved agreement on file for all providers providing care to our members. To meet this requirement OHCA is directly contracting with providers that had previously billed through a group or agency. This contributed to the increase in the provider counts for Mental Health Providers.

***Decrease in current month's count is due to contract renewal period which is typical during all renewal periods.

ELECTRONIC HEALTH RECORDS (EHR) INCENTIVE STATISTICS

The Electronic Health Records Incentive Program is a federal program that offers major financial support to assist certain providers to adopt (acquire and install), implement (train staff, deploy tools, exchange data), upgrade (expand functionality or interoperability) or meaningfully use certified EHR technology.

January 2013 MAC Proposed Rule Changes Summaries

Information Only

The following are summaries of proposed rules, state plan amendments, and waiver amendments. These proposals are still in the research stage and are not final. As such, some of the proposals you see here may not advance beyond the research stage. OHCA prepared this document to give members of the MAC a preview of policy revisions that may be included in the public rulemaking process Feb. 1-March 3. This document is for informational purposes only.

Starting Feb. 1, you may view the actual proposed rules at www.okhca.org/proposed-changes. A feedback form will accompany each proposed rule so that questions and input about the rules can be collected and considered.

A public meeting about the rules will be hosted at 1 p.m., Monday, March 4, in the Ponca meeting room of the OHCA.

- 1. 12-03 Rural Health Clinics Update**— Rural Health Clinics policy is revised to allow RHCs to bill lab services separately, as they can under Medicare. RHC policy is also updated to eliminate language that is inapplicable to OHCA's current operational practices.
Budget Impact: Budget neutral
- 2. 12-13 ICD-9 Removal**— Agency policy is revised to remove references to the ICD-9 International Classification of Diseases diagnosis coding, which is being replaced by a new system of coding, ICD-10.
Budget Impact: Budget neutral
- 3. 12-14 Certified Nurse Midwife-** OHCA rules for Nurse Midwives and Birthing Center services are being revised to align with current obstetric policy. Proposed changes include clarification concerning the type of nurse midwife approved to provide SoonerCare services, and the services the nurse midwife can provide to eligible members. Budget Impact: Budget neutral
- 4. 12-15 Genetic Testing** — Policy will be amended to define the circumstances under which genetic testing will be covered by OHCA. Both the volume and cost of genetic testing are growing, and the growth rates are expected to rise significantly going forward. Currently, OHCA has no written policy addressing the medical necessity of genetic testing, although claims are being paid through nonspecific laboratory codes.

Policy will set medical necessity criteria similar to other Medicaid states and private insurance, which requires the member to undergo a genetic risk assessment or display clinical evidence indicating a chance of a genetic abnormality AND that those results change treatment, change health monitoring, provide prognosis, or provide information needed for genetic counseling for the patient.

Budget Impact: Budget neutral

- 5. 12-19 Outpatient Behavioral Health* –**
 1. ODMHSAS is proposing rule revisions to disallow coverage of Psychosocial Rehabilitation (PSR) services for children below age 6 unless services are

medically necessary and required pursuant to Federal Early and Periodic Screening Diagnosis and Treatment (EPSDT) laws.

2. The Agency is also proposing rule revisions which will control utilization of Rehabilitation services by imposing limits on the number of units that qualified providers will be reimbursed. The utilization limits will be prior authorized by OHCA or its designated agent and will be directly correlated to the individual member's level of need.
3. Utilization parameters will be increased for Medication Training and Support.
4. Revised rules also change the provider qualifications for Behavioral Health Rehabilitation Specialists including specific degree, certification & training requirements. Proposed revisions to Behavioral Health Case Management rules change provider qualifications for Case Managers including specific degree and training requirements as well as remove documentation submission requirements as a condition of payment for the provision of case management services.
5. Revisions are also proposed to clearly state that services must be conducted in a setting that protects and assures confidentiality, and must be provided as a direct face-to-face service with the member in order to be compensable.
6. Licensed Behavioral Health Provider rules are revised to correct references to the Agency's behavioral health provider manual.

Budget Impact: \$1.2 million in state savings (ODMHSAS), \$4 million in federal savings

*** Portions of this rule have been previously seen by the MAC and OHCA Board as an Emergency Rule. Since then, new revisions were added.**

6. **12-20 Telemedicine** - OHCA rules for Telemedicine are being revised to include specific provider responsibilities to assure compliance with HIPAA guidelines. Current policy is silent to the appropriate HIPAA compliant applications, guidelines, devices, and/or safeguards concerning telemedicine services. The proposed revisions include additional conditions that apply to services rendered via telemedicine, provider responsibilities, and additional network standards as they relate to assuring HIPAA compliance during telemedicine related transmissions.

Budget Impact: Budget neutral

This amendment brings the rules into compliance with Federal law and regulation and the State Plan. It allows the spouse in the nursing facility to deem income to the spouse who remains at home, regardless of whether that spouse is receiving HCBS, before the vendor payment owed to the nursing facility is calculated.

The purpose of the proposed rule revision is to increase opportunities for SoonerCare members to access quality cessation services.

Budget Impact: Budget impact not yet determined

22. 12-40 Inpatient Behavioral Health –

1. Agency Inpatient Psychiatric Hospital rules are being revised to clarify the medical necessity criteria required for admission and continued stays in psychiatric residential treatment facility (PRTF) and acute levels of care.
2. Changes are also being proposed to the rules regarding Individual Plans of Care to ensure early parent/guardian involvement in the treatment of children under the age of 18 receiving inpatient psychiatric services as well as
3. to revise the "active treatment" requirements for individuals 18-21 years of age receiving services in an acute psychiatric hospital by making the requirements

less proscriptive for this age group since they typically do not receive services in children's psychiatric units, so providers should not be held to the same requirements.

4. Active treatment requirements for children under 18 are further revised to provide more clarity in areas that have been identified as causing provider confusion.
5. Proposed revisions will also revise Inspection of Care (IOC) rules to provide the pro-rating timeline used when reviewing clinical documentation for compliance with active treatment requirements as well as to clarify that certain "critical documents" cannot be substituted with other evaluations/assessments.

Budget Impact: Budget neutral

- 24. 12-KK Compliance with ACA Eligibility Rules** - Eligibility rules are amended to provide that eligibility for children, pregnant women, and parents and caretaker relatives is determined using the Modified Adjusted Gross Income (MAGI) methodology, as mandated by ACA. Rules are amended to add two eligibility groups mandated by the ACA: Former foster care children aged 19-26, and CHIP children who would lose eligibility as a result of the MAGI method. Rules regarding eligibility determination procedures are amended to establish the passive renewal process mandated by ACA, as well as the ACA rule that medical verification of pregnancy can only be required when the individual's declaration that she is pregnant is not reasonably compatible with other information available to the agency.

Budget Impact: Budget impact yet to be determined

- 25. 12-AAA Authorized Representatives** - Eligibility rules are amended to 1) define the role of an authorized representative; 2) establish tiers of authorization members may designate for their representatives; 3) define who may act as an authorized representative; 4) provide that no one may charge or receive a fee for applying on someone else's behalf; 5) provide that if an authorized representative is employed or contracted by a SoonerCare provider and that representative either cannot provide documentation that the member consented to the designation, or provides false information, or withholds information that leads to an ineligible person being certified for SoonerCare, that these actions are grounds for recoupment of claims paid for the member in question during the certification period in question; and 6) provide that the maximum time a member's designation of an authorized representation will last is 12 months.

Budget Impact: Budget neutral

- 26. 12-LLL Elimination of Presumptive Eligibility for Pregnant Women** - Eligibility rules are amended to eliminate presumptive eligibility (PE) for pregnant women. Under the PE program, certain qualified SoonerCare providers used to determine pregnant women presumptively eligible for SoonerCare; the women then had 30 days to apply and be fully determined eligible or ineligible. The purpose of PE was to give pregnant women access to

care quickly. PE is no longer used because pregnant women can now have their eligibility fully determined in real-time through Online Enrollment.

Budget Impact: Budget neutral

27. 12-UUU Nursing Facility Policy Clean-up

The proposed rule change adds language clarifying that all program requirements set out in State Statute and Oklahoma Health Care Authority policy regarding wage enhancements for certain nursing facility employees have been met. The proposed rule change also clarifies that the Quality of Care fee assessed by the Oklahoma Health Care Authority is authorized through the Medicaid State Plan and clarifies that part of the fee structure is based on a waiver of uniformity as approved by the Centers for Medicare and Medicaid Services (CMS). Finally, proposed revisions include the removal of language incorrectly stating that rates for public ICF's/MR are set through a public rate setting process rather than the current practice of reimbursement based on cost reports. Other minor policy clarifications are also included as a part of the proposed rule change.

Budget Impact: Budget neutral

28. 12-VVVV – Long Term Care Sub-Acute Hospital Reimbursement Methodology

OHCA proposes to amend Long Term Care (LTC) Sub-Acute Hospital policy to update reimbursement language from a prospective per diem methodology to a cost based methodology. This proposed change is to bring policy in alignment with the approved State Plan LTC reimbursement methodology.

Proposed State Plan Changes and Waiver Changes

State Plan Amendments (Expedited Timeframe)

- 1. Item A-**The OHCA proposes to amend the Oklahoma Medicaid State Plan as it relates to the Recovery Audit Contractor Program (RAC). Section 1902(a)(42)(B)(i) mandates states to contract with RACs to identify underpayments and overpayments and recouping overpayments under the State plan and under any waiver of the State plan with respect to all services for which payment is made to any entity under such plan or waiver. The OHCA requested and was approved an extension for implementation of the RAC until the OHCA could obtain a contractor through a competitive bid procurement process. The OHCA originally anticipated having a contract in place by August 1, 2012 however, due to unforeseen delays, the OHCA did not have a RAC contract in place by the original date denoted in the state plan. Therefore, the state plan must be updated with a new target date. The OHCA has solicited bids for the RAC and evaluations have been conducted. The OHCA anticipates having a contract in place no later than March 1, 2013. The OHCA will submit a state plan amendment to change the implementation date in the current state plan from no later than August 1, 2012 to no later than March 1, 2013.
- 2. Item B-**The OHCA proposes to amend the Oklahoma Medicaid State Plan to correct a technical error. Current eligibility income levels for Children and Pregnant Women under Title XIX of the Oklahoma State Medicaid Plan are at or below 185% of the FPL. Parents of children are at or below 73% of the AFDC Need Standard (which is approximately 32% of the FPL). During a previous amendment in 2008, parents of children were erroneously included in the 185% FPL with children and pregnant women. The State has never implemented and has no future intentions of expanding income limits for parents of children to 185% of the FPL. The OHCA will submit a state plan amendment to correct the income

limit for parents of children from 185% to at or below 73% of the AFDC Need Standard in accordance with OAC Title 317 promulgated rules and current practices.

3. **Item C-**The OHCA is proposing to amend the Part 4.19D page 7.1 of the State Plan to correct an error in the Employee Satisfaction metric to 65 from 50. The original Rates and Standards and public notices were made at the correct level of 65 but the State Plan amendment was filed as 50; we are adjusting the State Plan to correct this oversight. The Metric is one of 10 used to determine the score of a facility participating in the Focus on Excellence Quality Rating Program.

State Plan Amendments (Regular Timeframe)

1. **Compliance with ACA Eligibility Rules (reference 12- KK, item 24 of proposed rules) -** The State intends to submit Title XIX and Title XXI State Plan Amendments to provide that eligibility for children, pregnant women, and parents and caretaker relatives is determined using the Modified Adjusted Gross Income (MAGI) methodology, and to add two eligibility groups mandated by the ACA: Former foster care children aged 19-26, and CHIP children who would lose eligibility as a result of the MAGI method.
2. **Elimination of Presumptive Eligibility for Pregnant Women (reference 12-LLL, item 26 of proposed rules) -** The State will submit a Title XIX State Plan amendment to eliminate presumptive eligibility (PE) for pregnant women. PE is no longer used because pregnant women can now have their eligibility fully determined in real-time through Online Enrollment.
3. **Kinship Guardianship Assistance Recipients (reference 12-Y, item 23 of proposed rules) -** The State will submit a Title XIX State Plan amendment to add the mandatory eligibility group of children receiving Kinship Guardianship Assistance. This amendment will provide eligibility coverage whether the child receives the assistance through the program established by OKDHS or through kinship guardianship programs that may be established by tribes in the future.
4. **Behavioral Health Rehabilitation Specialists (reference 12-19, item 5 of proposed rules) -** The State intends to submit a TXIX State Plan amendment to change the provider qualifications for Behavioral Health Rehabilitation Specialists including specific degree, certification & training requirements, and to change provider qualifications for Case Manager including specific degree and training requirements.
5. **Prior Authorizations for Outpatient Behavioral Health Rehabilitation Services (reference 12-19, item 5 of proposed rules)–** The State will submit a TXIX State Plan amendment to reinstate prior authorizations.
6. **Proposed Amendment to the ADvantage Waiver for Home Delivered Meals**
The ADvantage waiver is a 1915(c) Home and Community based services waiver serving adults with physical disabilities and the elderly. One of the services available to ADvantage members is home delivered meals. In order to ensure an adequate number of providers for home delivered meals, the OHCA is proposing to allow out of state vendors to supply frozen, pre-packaged meals to ADvantage members. This amendment requires approval by the Centers for Medicare and Medicaid Services (CMS) as well as OHCA Board approval. The amendment, if approved, will become effective in approximately six months. This is a proposed waiver amendment only and does not affect ADvantage policy.
7. **Outpatient Behavioral Health Agency Provider Certification (reference 12-19, item 5 of proposed rules) –** The OHCA, in collaboration with ODMHSAS, proposes to amend the

Medicaid State Plan in order to ensure consistency throughout the outpatient behavioral health agency provider qualification pages. Revisions were made to the State Plan which became effective July 1, 2012, giving government & private outpatient behavioral health agencies the option of choosing between national accreditation or certification from ODMHSAS, in accordance with state statute. Agency staff has since identified two provisions in the Plan that were inadvertently not revised during the previous amendment process to fully reflect the intent behind the July 1, 2012 changes. OHCA will submit a State Plan Amendment to make the necessary updates in accreditation/certification terminology.

- 8. Removal of Billing Code-Specific Information from State Plan** – The OHCA, in collaboration with ODMHSAS, proposes to amend the Medicaid State Plan in order to remove specific references to the Healthcare Common Procedure Coding System (HCPCS) code H2012 from the State Plan page outlining the reimbursement methodology for Partial Hospitalization (PHP), an outpatient behavioral health service. The Agency has identified a HCPCS code for PHP that is more appropriate for the service than H2012 and removal of the specific code from the plan will enable the Agency to make the appropriate changes to the claims processing system.
- 9. Home and Community Based Transportation-** The OHCA will submit a Title XIX State Plan amendment to remove the reference of “Children Only” as it relates to the non-emergency broker providing transportation to individuals receiving home and community based waiver services who would only be eligible under State plan if in a medical institution. Transportation for this population does not exclude adults; the proposed amendment will bring the State Plan into compliance with practices.
