**BOLL WEEVIL ERADICATION ORG. (39)**

**MISSION**

To Design, Implement, and Complete a Boll Weevil Eradication Program that is Economical, Producer Friendly, and Beneficial to the State of Oklahoma

**THE BOARD**

The governing body of OBWEO is composed of a five member board of cotton growers, each of whom is elected from the five separate districts established by the initial Board. "Cotton grower" means any person who is actively engaged in the production of cotton or who was actively engaged in production of cotton in any two (2) of the three (3) years immediately preceding the calling of an election or a referendum.

**DUTIES/RESPONSIBILITIES**

The function of The Oklahoma Boll Weevil Eradication Organization is to eradicate the boll weevil from Oklahoma cotton in the most effective and efficient manner possible. By law, producer assessments fund a percentage of the program. Other funding from the USDA and, early on, from the State of Oklahoma has allowed the program to become a reality. It is the intent of the Board of Directors and staff of OBWEO to eradicate the boll weevil, thus increasing cotton production in the state of Oklahoma.

**Goal: Quality Control - To Maintain Accurate Data**

- \* Data collection and dissemination is a major factor in eradication of and controlling new infestations of weevils. When data is collected in a timely manner and weevils are treated immediately, eradication is being accomplished. This same process becomes all the more critical in a post eradication environment where the introduction of a single undetected gravid female weevil can cause a very costly reinfestation of a previously eradicated area.

95% Data Accuracy	80%	90%	95%	95%
-------------------	-----	-----	-----	-----

**Goal: Benefit The Environment - Reduce Use Of Chemicals**

- \* Reducing the use of Malathion (boll weevil pesticide) greatly reduces the need to treat secondary pest populations resulting from application of such pesticides. Less overall chemical application will result in an increase of beneficials further reducing the need to spray for secondary pests.

Reduce Chemical Use 95 %	-21%	-92%	-95%	-95%

Oklahoma Centennial Commemoration  
Planning & Administration

73 O.S. Supp. 1998, Sections 98.2 and 98.3 stipulates that the Centennial Commission will develop and implement a Master Plan "for commemorating the centennial of Oklahoma's admission to statehood" (and the) "plan shall be developed to represent the contributions of all peoples and cultures to Oklahoma history (and) designed to encourage and support participation in the centennial by all interested ethnic groups in and geographical areas of the state." Legislation lists 12 types of projects.

<b>Goals/Measures</b>	<b>FY- 2003 Actual</b>	<b>FY- 2004 Actual</b>	<b>FY- 2005 Budgeted</b>	<b>FY-2006 Estimated</b>

**Goal: Inclusion: Encourage and support participation in the Centennial Commemoration in all geographical areas of the state and by all ethnic groups within the state.**

\* Cities and towns:

Produce and mail a pamphlet that outlines the low-cost and no-cost ways towns can participate in the Centennial Commemoration and mail it in FY 2005 to the 609 incorporated cities and towns in Oklahoma as a way to encourage participation in the commemoration throughout the state, especially in non-metro areas. Options will include purchasing park benches, clocks, or other moderately priced items; developing an event or festival; applying for recognition of an annual event or festival; or booking a traveling exhibit or activity.

KPM reflects the percentage of incorporated cities and towns participating in the Centennial Commemoration. KPM includes both communities with projects requiring funding and those not requiring funding. It is anticipated that some communities will have more than one project, since some annual events will be seeking only recognition as a Centennial project and no new funding.

Geographic: cities and towns	8% (50)	11% (70)	20% (122)	50% (305)
------------------------------	---------	----------	-----------	-----------

\* Identify and implement statewide and community-based strategies to ensure that the Oklahoma Centennial is truly a multicultural commemoration with major participation among all five major ethnic groups within our state: American Indian, African American, Asian American, Hispanic/Latino(a) and European American. See action plan for details. Communities and organizations to coordinate with will be identified as part of action plan and numbers of communities and organizations will be added to the KPMs.

Current KPM percentages reflect cumulative percentage of targeted populations contacted.

Ethnic: Ethnic populations	10%	15%	20%	50%
----------------------------	-----	-----	-----	-----

\* County seats:

Encourage county governments to participate in the Oklahoma Centennial County Commemorative Saddle Program, which has been designed as a cost-effective way for rural and non-metro areas to participate in the Centennial Commemoration. Project includes a special event and dedication at each participating county seat. See action plan for strategies. KPM reflects cumulative number of Oklahoma's 77 counties participating.

**Goal: Projects and Activities: Encourage and support worthwhile projects, events and activities that enable Oklahomans and others to examine our state's unique history and experience its rich heritage. Encourage and support projects that restore, repair or create works of art, monuments, sites, structures or facilities that relate to Oklahoma history, culture or heritage; and encourage and support the restoration or construction of facilities that prepare Oklahomans for healthy and productive lifestyles.**

\* Partner with libraries, museums, theatres, historical societies, and others to plan, coordinate and implement events and activities throughout the state, with the goal of achieving participation levels of 100% by November 16, 2007. (See action plan for numbers of sites for each group.)

- \* Partner with Oklahoma State Department of Education to produce curricular units for classrooms and distribute the materials in summer 2006 (FY 2007) to teachers at 100% of the state's schools for use during the 2006 academic year and fall 2007. KPMs track percentage of work completed.

- \* Development: Partner with other entities to secure local, state, federal, and private funds -- both from within the state and throughout the nation -- to support community Centennial projects. Undertake fund development activities through FY 2008. Ensure that the majority of funds are secured by the end of FY 2006 in order to facilitate development and completion of Centennial projects. Continue fund development beyond FY 2006 for projects and funders that do not require as much lead time. Ensure that there are sufficient state appropriations through FY 2008. **Program: Oklahoma Centennial Commemoration Planning & Administration**

**Goal: Projects and activities**

- \* Encourage communities and tribal governments throughout the state to identify Centennial projects that reflect their significant history or cultural heritage or that prepare Oklahomans for healthy and productive lifestyles, with project applications to be submitted through September 2006. (Also see Inclusion Goal.) Projects will be tracked through the agency's project data base and may include a capital project, a new or existing festival or event, a traveling activity that comes to the community, or an event or exhibit in a local museum, library, community theatre or school.

KPMs reflect the accumulative number of incorporated communities and of tribal governments participating. Since many projects will not be seeking new funds but only recognition of an existing annual event or activity, it is expected that many communities and tribal governments will have more than one project. KPM reflects participation levels for 609 incorporated cities and towns and 39 tribal governments. All tribal governments are participating in the American Indian Cultural Center and are reflected as such, but many will have individual tribal projects, as well.

## **HISTORICAL SOCIETY (350)**

### **MISSION**

The mission of the Oklahoma Historical Society is to preserve and perpetuate the history of Oklahoma and its people by collecting, interpreting and disseminating knowledge of Oklahoma and the Southwest.

Each of the museums and sites operated by the OHS across the state has an individual mission statement pertinent to history it interprets.

The Board of Directors of the OHS has prepared a mission statement for the new history center in the Capitol Complex currently being developed that impacts our strategic planning and budgeting.

The statement:

The Oklahoma History Center exists as the statewide center for learning, preserving, and promoting the history and heritage of the diverse people of Oklahoma. Through its dynamic collections, exhibitions, education, and outreach programs as well as research facilities, the Oklahoma History Center serves people of all generations by promoting appreciation and understanding of Oklahoma's rich history and the impact of that history on the present.

### **THE BOARD**

The Oklahoma Historical Society is unique in that membership in the Society is open to the public. The Society is both a private membership organization and a state agency. The Society is governed by a twenty-five member Board of Directors. Oklahoma statutes provide that the Board of Directors will consist of not more than twenty-five members, with the Governor as an ex officio member. The number of members may be decreased by an act of the Legislature or by the Society amending its constitution. Each position is filled according to the constitution and by-laws of the Society, which provide that twelve members are appointed by the Governor (Senate confirmation not required) and thirteen members are elected by the members of the Society. Six of the members elected by the membership of the Society, and six of the members appointed by the Governor must be from the six Congressional Districts. The remainder of the members are at-large members. The term of office is three years.

### **DUTIES/RESPONSIBILITIES**

The duties of the Oklahoma Historical Society include the following. 1. To collect, preserve and catalog materials in excess of 1.1 million artifacts, 6.1 million manuscript pages, 1.5 million historic photos, 64,872 library volumes, 16,643 microforms, 6,500 taped interviews and 33,000 rolls of newspapers on microfilm relating to the history of Oklahoma, the Indian and the West. These collections continue to grow.

2. To gather and utilize collected materials to create interpretive exhibits illustrative of the history of Oklahoma, the United States and the world in the State Museum of History and at 35 other assigned museums and sites, to be open to the public without fee.
3. To prepare and publish materials relative to the history of the State of Oklahoma. Such materials may be offered for sale at a reasonable cost to the public at museums and historic sites operated by the Society.
4. To prepare and publish matters relating to the Society's transactions and research as may be useful to its membership and the public. Such publications shall include an annual report of its collections.
5. To develop an oral history program for the State of Oklahoma designed to promote the preservation and utilization of oral history within the state concerning significant elements of the social, political, economic, cultural, educational, ethnic and military history of the geographical area now known as the State of Oklahoma; to transcribe, index, catalog and maintain the results of these interviews and to make them readily available to the public and historical researchers.
6. To develop an educational program for the purpose of making available to schools and the public, information pertaining to the history of Oklahoma, through the utilization of collections and properties held by the Society. There are

more than 600 special events, living history and educational programs produced statewide each year. Reasonable charges may be made for the dissemination of any such facts or information.

7. To contract and make cooperative agreements with municipalities, corporations, associations and individuals to protect and preserve, maintain or operate any historic or archaeological building, site, object or property, regardless of whether the item is owned by the State of Oklahoma. The agency is responsible for maintaining the National Register of Historic Places and related activities as it applies to Oklahoma. The agency also participates in the Federal 106 review process.

**Goal: COMMUNICATION & COMMUNITY: Improve internal and external communication and increase community involvement.**

- \* Customer satisfaction and service verification, relevancy. Review customer service surveys to measure the impact of our actions on agency customers. Follow through to verify that services were provided within agency's "consultation attitude. Improve our ability to measure the impact our services have on customers. Create on-line ability for customer to submit customer service surveys by FY08.

- \* Continue development of alliances and partnerships with public/private organizations. Participate with trade associations as a way of marketing agency services direct to the source. Develop resource access	NA	NA	40%	70%

- \* Expand the PEOSH program. The PEOSH program has the potential to significantly impact public sector workplaces. Restructuring the PEOSH program to include a consultation component in addition to stronger enforcement would not only reduce injuries, but greatly reduce the cost of workers' compensation to the State of Oklahoma (state agencies as well as schools, counties, cities/towns).

- \* Obtain e-mods from public sector employers

- \* Provide industrial hygiene (IH) sampling for public sector employers

- \* Collect case characteristic and demographic data on the public sector survey to assist PEOSH with developing safety programs per entity.

**Program: Asbestos Abatement**

**Goal: Inspection Response Rate - Our goal is to perform inspections within 24 hours of notice at least 95% of the time.**

- \* Perform inspections within 24 hours of notice at least 95% of the time. Because of the risk that asbestos poses and the panic that ensues at the mention of the word, inspections are of the utmost priority. As soon as a call for an inspection comes in, it is properly noted, an inspector is dispatched, an inspection is performed, and an inspection report is submitted.

**Program: Asbestos Abatement**

**Goal: AHERA Inspections - Record Keeping**

- \* Those inspectors charged with the responsibility of conducting AHERA inspections are required to track the total number of inspections performed as is required by EPA. A minimum of 50 inspections is required annually. 50 schools are selected and divided among the inspectors that are responsible for AHERA. The number of visits varies depending on the size of the school. The database program tracks all time spent at each school and verifies that each of the 50 inspections is completed. AHERA inspections will double in FY05 due to increasing low compliance rates of schools audited annually.

------------------------	----	----	-----	-----

**Goal: Oklahoma Accreditation Program - ODOL's goal is to perform at least the minimum established by the EPA as 60.**

- \* 270 projects are randomly selected to verify that the workers, supervisors, contractors, management planners, project designers, and inspectors at the site have the proper EPA accredited training. Again, the database is used to help track these random audits as they are done. The number of OAP projects have been decreased in FY05 because of high compliance.

----------------------------	-----	-----	-----	-----

**Goal: Project Design Action - ODOL's goal is to review the plans submitted by contractor within five days at least 95% of the time.**

- \* Project Designers either mail, fax, or hand deliver their designs for asbestos removal to the Asbestos Division. As soon as a project design is received, it is logged in and given to an inspector to review. Once this review is complete, it is given to another inspector to review. The double review helps to ensure that it is the safest design possible. The approval of a project design is the precursor to asbestos abatement. Because a ten day notice period is required, the inspectors know the abatement job will need to start and that any delay in the review of the project design could cause a delay in abatement. Therefore, project designs are given a high priority and are reviewed within five days at least 95% of the time.

**Goal: Accurately resolve wage claim cases within established time frames to minimize delay to claimants in recovering lost wages for whom orders of determination are issued.**

- \* Maintain current average days to resolution (receipt of wage claim to agency determination) ratio in the issuance of Orders of Determination - Wage & Hour Unit.

Monitor annual report of Orders of Determination ("Orders") issued for comparison purposes to assist in assessing the effectiveness of the Wage & Hour Unit based on staffing level to claim intake ratio. Despite the complexity of some wage claims and the number of claims against a single employer, this unit is measured by its ability to maintain an annual days-to-resolution rate of 28 to 33 days even though individual LCO's are permitted up to 45 days per claim. This goal was exceeded in Oklahoma City ( 26 day avg.) despite a personnel shortage. Tulsa office personnel took considerably longer to resolve claims ( 72 days avg. ), primarily due to the unfortunate delay preventing the closing of a large number of claims filed against a single corporation ( 205+ days).

**Goal: Increase the number of paid wage claims by five percent.**

\* Focus on increasing the number of paid claims by five percent by monitoring Orders Issued to Claims Paid ratio for analysis and comparison purposes to track employer behavior regarding wage non-payment trends and appeals of Order resulting from the direct impact of various economic indices on Oklahoma's business community.

\* Claims paid is greater than Orders Issued due to payments made to claimants prior to the issuance of an agency Order and also from payments to claimants received after the end of the previous fiscal year.

**Goal: Increase Child Labor Unit activity (investigations, compliance checks, and educational outreach program) in the state's major population centers by five percent.**

\* Increase activity of Child Labor Unit (investigations, compliance checks and educational outreach program) by five percent.

Compare the annual number of investigations and compliance checks to previous years to determine the percent of change. A public policy shift in FY03 from punitive enforcement of child labor laws to cooperative consultation and education resulted in considerably fewer fines than in previous fiscal years. A struggling, but rebounding, economy in FY04 continued to adversely affect employment opportunities for minors. The activity of the single LCO assigned to the child labor unit was curtailed during two quarters of FY04 due to a personnel shortage in the Wage & Hour Unit to which he was temporarily assigned to assist with wage claims.

**Goal: Increase employer workers' compensation insurance compliance reviews by 5 percent.**

\* Compare the annual number of workers' compensation insurance compliance reviews with previous years beginning with FY02 to determine the percent of change. Procedural and personnel changes during FY03 resulted in a new initiative in which most reviews are initiated from the office resulting in considerably fewer time-consuming field investigations. Reorganization of personnel has increased the number of LCO's conducting compliance reviews. The positive impact of these changes produced a dramatic 38% increase in employer compliance reviews in FY04 compared with FY03 and an increase of 385% over FY02.

- \* Establish 1:4 ratio of workers' compensation insurance compliance checks among hazardous employers.

The total number of employers investigated (hazardous and non-hazardous) is tracked. The two lists are compared to determine the percentage of employers with hazardous industry SIC codes. The number of hazardous employers checked for workers' compensation insurance compliance should amount to 25 percent or more of all investigations conducted.

- \* Compare the number of consultation visits from year to year to determine the amount of change. Each full-performance consultant is expected to perform the minimum number of consultation visits listed below:  
 -Safety Consultant = 65 Initial Visits, 6 Training and Assistance or Followup visits  
 -Industrial Hygienist = 45 Initial Visits, 4 Training and Assistance or Followup visits  
 -Assistant Director = 24 Initial Visits

\*Note: The types of measures are income, output, outcome, or efficiency

\*\*The combined number of consultation visits performed in FY2005 reflects the number of vacancies that currently exist in the consultation program. The projected activities provided are based on existing full-performance staff due to significant amount of time required for new employees to complete the training process and reach full-performance competency.

**Goal: Small Employers Served**

- \* Compare the number of employees separated from state service at ODOL in the most recently completed fiscal year to previous fiscal years. In an effort to achieve this goal, despite significant budget cuts, ODOL is implementing improved management techniques and internal training of personnel. Team building, employee job ownership, management by cooperation, and other effective tools designed to improve employee retention have been instrumental in effectively utilizing the PMP process to improve job performance and employee morale. Nevertheless, 13 positions were eliminated or left unfilled during the last quarter of FY03 and all of FY04. ODOL has maintained about the same number of separations since FY02.

\* Five full-time inspectors during FY 2003. Three of the five inspectors were in training for part of the year. The number of entities did not decrease as much as the locations, as many of the entities were smaller ones.

**Goal: Increase the number of divisional inspections by 2%**

\* Compare the number of boiler and amusement ride inspections performed from year to year to determine the percent of change. This number is subject to much fluctuation depending on any changes in the law, the current practices of the insurance industry, the number of boilers taken off line and placed on line, and the number of amusement rides "waiver show" authorized and rides "booked in". Amusement ride inspections increased from 1,463 in FY 2003, to 2,999 in FY 2004, an increase of over 100%

**Goal: Reduce the number of overdue insured boiler inspections by 10%**

\* Compare the number of insured boilers overdue from year to year to arrive at percentage of change. Please note that the insurance industry is the controlling factor in overdue boilers in this area. We have tried to encourage prompt inspection by the insurance industry through letters reminding them that a boiler they insure is overdue. Also, the current trend of the insurance industry has been to inspect fewer of the boilers they insure. With that said, it will be difficult to reduce the number of insured boilers. Nevertheless, our goal is a reduction of 10%

**EDUCATIONAL TELEVISION AUTHORITY (266)**

**MISSION**

The mission of the Oklahoma Educational Television Authority is to provide educational and public television programming to the people of Oklahoma on a coordinated statewide basis. In the regard, the Authority is fully committed to the creative use of telecommunications technologies to deliver essential educational and public television programs and value-added services to enrich the quality of life for all Oklahoman citizens and children.

The opportunity for more educational content, new and improved local services, more coverage of state government and innovative bandwidth management is the long-term strategic intent of the Authority.

**THE AUTHORITY**

The Oklahoma Educational Television Authority consists of thirteen members: six members are ex officio, and seven members are appointed by the Governor with the approval of the Senate. The six ex officio members are the President of the University of Oklahoma, the President of Oklahoma State University, the State Superintendent of Public Instruction, the Chancellor of the Oklahoma Regents for Higher Education, the president of one of the state-supported four-year colleges (chosen by the presidents of this group of institutions), and the president of one of the state-supported two-year colleges (chosen by the presidents of this group of institutions). The seven members appointed by the Governor consist of members from the five (5) Congressional districts and two (2) members are appointed at-large. A majority of the appointed members must be actively engaged in the profession of education. All of the appointed members must have been residents of the state for at least five years preceding the date of their appointment. The term of office of the appointed members is seven years.

**DUTIES/RESPONSIBILITIES**

The Oklahoma Educational Television Authority is charged with the operation of the television, associated microwave, and ITFS channels assigned by the Federal Communications Commission to the State of Oklahoma for non-commercial educational purposes. It is also required to comply with the rules, regulations, and requirements of the Federal Communications Commission or any other federal agency administering any law enacted by the Congress of the United States to aid or encourage education, especially via telecommunications. The Authority is required to construct, maintain, repair and operate television facilities, which are ultimately to serve all geographic areas of the State of Oklahoma. In order to fulfill the duty to construct television facilities, the Authority is authorized to issue bonds. The Authority must have the approval of the Legislature to issue bonds, but it is not required to comply with the requirements of any other law applicable to the issuance of bonds. The bonds must be payable from dedicated revenues. Funds from the Public Building Fund were originally transferred to the Authority in order to pay bonds. In fulfilling its responsibilities, it is the duty of the Authority to seek the advice and counsel of representative citizens of the state. An advisory committee, to consist of no more than 35 persons, may be organized and selected by the Authority. The Authority may not permit advertising on its facilities, nor may it permit any individual or organization to sponsor the election of any party or individual for any public office. In addition, the influence, direction or attempt to influence or direct the program content of programs shown on public television by an elected official or his representative for the purpose of personal gain or political benefit, direct or indirect, is unlawful. Violation of any of the above three laws is a misdemeanor, punishable by a fine not to exceed \$1,000 or imprisonment not to exceed 1 year, or both.

**Goal: Services**

- \* With the addition of the extra SD channel capacity, a separate service for Oklahomans will be created. This service will be an "Oklahoma Channel" that will contain only programs created by OETA or those of special interest to Oklahomans. Many of OETA's award-winning documentaries and other "evergreen" type programs will be rebroadcast on this channel.

Also, the Oklahoma Channel will repeat the broadcast of the Oklahoma News Report, Oklahoma Forum, The People's Business, Tulsa Times, OKC Metro, Gallery, Stateline, etc. from the current week. The channel would also be used to repeat Oklahoma Outdoors, Oklahoma Gardening and other programs from outside producers.

Oklahoma's college telecourses and instructional television programs will be aired on this channel. Measurement will be in hours of broadcast on this special channel per year.

Create the Oklahoma Channel	0 hours	0 hours	52 hours	208 hours
-----------------------------	---------	---------	----------	-----------

- \* OETA will create four distinct Standard Definition (SD) channels to be broadcast during time periods when High Definition (HD) programming will not be using all of the spectrum. These four channels will be able to carry various programming from both local and national sources and will be programmed for specific needs (i.e., children's, adult learning, formal ITV courses, etc.)

Although the capability technically exists today for OETA to accomplish the above measures, because of lack of equipment, the Oklahoma Network can do no local origination. The measurement for this is hours of broadcasting in locally originated SD.

Currently, OETA's main analog channel is broadcasting 6,570 hours per year, which is the benchmark. By FY 2006, OETA should be capable of broadcasting up to a total of 26,280 hours in SD. However, because much of the evening, prime-time programming will be in HD, a more practical measurement would be 18 hours per day, minus four hours for prime-time, or 12 hours per day times four channels or a total of 17,520 hours.

Multicast 4 SD channels	6,570 hours	6,570 hours	6,570 hours	13,140 hours
-------------------------	-------------	-------------	-------------	--------------

**Goal: Customer/viewer connected**

- \* OETA will increase its hours of High Definition broadcasting over its four DTV channels. This HD programming is dependent upon program providers, such as PBS, ramping up the hours being offered. OETA's DTV transmitters are currently passing through only limited hours of HD PBS programming.

Measurement is in hours per year of HD programming.

Hours of High Definition	0 hours	120 hours	120 hours	365 hours
--------------------------	---------	-----------	-----------	-----------

- \* The Oklahoma Network has an eviable viewership, compared to other major cities and state networks. The measurement is the weekly cumulative audience of homes who watch OETA. Despite declining commercial network viewership and the increasing fragmentation of audience due to cable and direct broadcast satellite channels, OETA will continue to build audience via multi-casting and other strategies.

Program Performance	1.8 million	1.8 million	1.85 million	1.85 million
---------------------	-------------	-------------	--------------	--------------

**Goal: Innovation through technology**

- \* Currently, OETA uses the Internet to convey television program-related information. Future uses of the Internet will be to link OETA broadcasts to the Web via streaming. Measurement will be in minutes per week of online video streaming (i.e., Oklahoma News Report segments, Gallery vignettes, etc.)

Enhance online services	0 minutes	0 minutes	0 minutes	15 minutes

**Goal: Operational excellence**

\* Although the four main transmission sites are transmitting in digital, they are currently only passing through the national PBS signal. The goal is to originate local digital content and interject that into the digital signal. Measurement is in hours of locally inserted programming per year.

**LIBRARY DEPARTMENT (430)**

**MISSION**

The mission of the Oklahoma Department of Libraries is to serve the people of Oklahoma by providing excellent information service and by preserving unique government information resources.

**THE BOARD**

The Board consists of seven members appointed by the Governor, with the advice and consent of the Senate. The Director of the Oklahoma Department of Libraries serves as an ex officio, non-voting member. One member must be appointed from each of the five Congressional Districts; two members are at-large members. No member may be a librarian in active practice, or connected with the business of publishing or any business connected to selling books, periodicals, or other forms of library materials, or any business manufacturing or selling library supplies or equipment. The term of office of members is six years. Members having served a full six year term may not be reappointed.

**DUTIES/RESPONSIBILITIES**

The Oklahoma Department of Libraries (ODL) is the official state library of Oklahoma. It is responsible for providing information and records management services to state officials and employees, for assisting public library development in the state, and for coordinating statewide library information technology projects. The Board consists of 25 members. Six members are ex officio members: the Chair of the Oklahoma State Regents for Higher Education, the Chancellor for Higher Education, the Superintendent of Public Instruction, the Dean of the College of Arts and Sciences of Oklahoma State University, the Dean of the College of Arts and Sciences of the University of Oklahoma, and the Dean of the College of Arts and Sciences of the University of Tulsa. Seven members are appointed by the President Pro Tempore of the Senate: one member of the Senate, one superintendent of a public school district, and five members - two of whom are either a scientist or a mathematician and three of whom hold a graduate degree and practice a profession for which graduate degree is required. Seven members are appointed by the Speaker of the House of Representatives: one member of the House of Representatives, one principal of a public secondary school, and five members who are either scientists or mathematicians or hold a graduate degree and are currently employed in an occupation related to mathematics or one of the sciences. Five members are appointed by the Governor: four members are business or industrial leaders, and one principal of a private secondary school in Oklahoma. The term of office of members appointed by the Governor is six years.

**DUTIES/RESPONSIBILITIES**

The Oklahoma School of Science and Mathematics is responsible for the education of eleventh and twelfth grade students. The school is responsible for ensuring that the students receive an excellent education in science and mathematics, as well as the other basic subjects. The school is further responsible for summer outreach programs for students who do not attend the school during the academic year, and for in-service training for science and math teacher and counselors. OSSM is additionally responsible for the administration of ten Regional Centers, making high level physics and mathematics classes available to qualified students in rural areas of the State, and for the development and implementation of future Regional Centers.

- \* OSSM strives to maintain high and consistent ACT scores as a way to determine how prepared the students are for college. High ACT scores also increase admission into the students' preferred college or university as well as increasing the potential of scholarships. The measure is the actual average of ACT scores for the graduating class. The agency uses the scores as a past performance measure, therefore, future scores were projected for FY05 and FY06 based on incoming scores of the 2005 and 2006 graduates. However, scores can not be projected for future classes. In the past, OSSM's scores have been among the highest in the nation and the top score in two of the past four years.

The Oklahoma Commission for Teacher Preparation is composed of public school teachers, a teacher from a vocational technical school, public school administrators, representatives of higher education, lay persons with school-age children, business and community representatives, two members of the State Board of Education, two members of the State Regents for Higher Education as voting members. Ex-officio members are the Secretary of Education, State Superintendent of Public Instruction, Chancellor of the Oklahoma State Regents for Higher Education, and the Director of the State Department of Career Technology or their designee. Appointed members serve at the pleasure of the appointing authority.

### DUTIES/RESPONSIBILITIES

1. Create and maintain a performance-based accreditation system that is primarily based on candidates' demonstration of knowledge in the 15 general competencies and relevant subject matter knowledge. Candidate knowledge will be assessed by multiple measures; specifically, the Commission will conduct program reviews, a portfolio review, and a site accreditation visit.
2. Administer an efficient and dynamic assessment system. In accordance with legislative mandate OCTP developed and implemented a competency and performance-based candidate assessment system consisting of three components -- general knowledge, subject specific knowledge and teaching skills. OCTP works with National Evaluation Systems, contract vendor, and the Buros Center for Testing, contract consultant, to ensure continual monitoring, revision, and redevelopment as necessary of the competency examination to meet revised standards. All candidates seeking state licensure and certification must pass all components of the state competency examination.
3. Address the professional development needs of Oklahoma teachers and other school personnel through professional development institutes in reading, math/science, middle level math and mentoring. The Oklahoma Reading Sufficiency Act, which required OCTP to develop a reading professional development institute for teachers K-6, has laid a sound foundation for OCTP to assist the State in meeting the reading requirements of HR 1, No Child Left Behind. The five essential components of the PDIs parallel the federal requirements. The success of Phase IV of the Literacy First program through the Reading Sufficiency Act has indicated a need for expanding literacy development to include additional funding for Phase IV schools and early childhood and secondary literacy training. Recognizing the importance of the site administrator in creating a school culture conducive to maximum student learning, OCTP is working to find funding to support a PDI in Administrator Leadership. In view of Oklahoma's 2002-2003 ACT scores and the end-of-course Algebra I test score results, the results evidence the need for a professional development model that will work with Oklahoma teachers, grades 5-8, to provide them with the skills necessary to build capacity for student success in Algebra I and above. The 2003 legislature removed the mentor stipend for mentors assisting entry-year teachers as well as reduced funding to higher education institutions for faculty representatives on the residency committee. An appropriate mentor experience is critical to teacher effectiveness and retention. OCTP is recommending an expansion of Oklahoma's teacher induction and mentoring system. Additionally, OCTP oversees the Education Leadership Oklahoma project which supports scholarship and training for teachers seeking National Board Certification.
4. Create and maintain an efficient, productive agency operational plan to facilitate daily responsibilities supporting program accreditation activities, assessment of teacher candidates through the certification examination for Oklahoma educators, and providing opportunities for ongoing growth and development of classroom teachers across the State of Oklahoma. Beyond overseeing the day-to-day operations of accreditation, assessment, and professional development, OCTP monitors current educational research in the areas of teacher preparation and student learning in order to ensure that the children of Oklahoma are provided with the best possible educational resources.

**Goal: Program Approval:Ensure that OCTP maintains and improves its role as the premier program for implementing national teaching and program standards.**

**Goal: Assessment:Ensure quality educators for Oklahoma by increasing the rigor of an already nationally recognized assessment system. KPM 1 reflects the number of constructed responses, which will be added to assesment exams. Currently, 20 tests have constructed responses; the performance measure will build upon this existing number. KPM 2 reflects annual institutional feedback. KPM 3 reflects the annual analysis of assessment concerns. One analysis per year totals six analyses. KPM 4 reflects the number of exams that will be redeveloped annually.**

- \* Design rigorous and accountable performance measures for all components of the competency examination. This measure establishes a five-year timeline for the implementation of constructed responses to each certification test. It is the intent of the assessment program to complete 20% of the performance components per year for five years.

**OSU - EXPERIMENT STATION (11)**

**MISSION**

The Oklahoma Agricultural Experiment Station (OAES) is the agricultural research arm of the University and of the Division of Agricultural Sciences and Natural Resources. Established in 1890 by an act of the Territorial Legislature and defined by Congress as created to aid in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, the organization serves as Oklahoma's agricultural research agency.

The OAES is supported by both State and Federal appropriations as well as by grants, contracts, cooperative agreements, and product sales. Oklahomans help evaluate needs and establish priorities for the Station's researchers through various advisory committees. Research varies from the most fundamental at the cellular and subcellular levels to high impact research of immediate utility.

The OAES system includes laboratories, greenhouses, and plot land at the main campus in Stillwater, as well as 17 research stations distributed around the state to cover Oklahoma's diverse agricultural conditions. Faculty from the Division of Agricultural Science and Natural Resources and other colleges conduct many research projects within the OAES. Several faculty in Veterinary Medicine and Human Environmental Sciences hold OAES appointments. The Dean of the Division of Agricultural Sciences and Natural Resources serves as the Director of the OAES. The OAES research program is closely integrated with the companion programs of teaching in the College of Agricultural Sciences and Natural Resources and with technology transfer in Cooperative Extension Service and in International Agriculture Programs.

**THE BOARD**

The Oklahoma State University Agricultural Experiment Station is governed by the Board of Regents of the Agricultural and Mechanical Colleges. This Board is created by Section 31a, Article 6, of the Oklahoma Constitution. It consists of nine (9) members, one is the President of the State Board of Agriculture, the remaining eight members are appointed by the Governor, and with the advice of the Senate.

**OSU - TULSA (16)**

**MISSION**

Oklahoma State University-Tulsa works in concert with the Stillwater campus to fulfill the OSU philosophy of "one university, multiple campuses." OSU-Tulsa offers more than 80 undergraduate and graduate degrees in a variety of important fields, including engineering, business, computer science, telecommunications management, education, aviation and much more. Junior, senior and graduate credit may be earned at OSU-Tulsa. Tulsa Community College and OSU-Tulsa work closely together to link programs between the institutions so that students can attend their first two years at TCC and then transfer to OSU-Tulsa to complete a bachelor's degree.

OSU-Tulsa is expected to grow rapidly and significantly throughout the upcoming years to meet the local demand for OSU degrees. The goal is to have an enrollment of 20,000 students by the year 2020. The campus has room to expand, and there are plans to construct a research and laboratory facility and possibly student housing within the next few years.

**THE BOARD**

OSU - Tulsa is governed by the Board of Regents of the Agricultural and Mechanical Colleges. This Board is created by Section 31a, Article 6, of the Oklahoma Constitution. It consists of nine (9) members, one is the President of the State Board of Agriculture, the remaining eight members are appointed by the Governor, by and with the advice of the Senate.

**CORPORATION COMMISSION (185)**

**MISSION**

Regulate, enforce laws and supervise activities associated with the exploration and production of oil and gas, the storage and dispensing of petroleum-based fuels, the establishment of rates and services of public utilities, and the operation of intrastate transportation to best serve the economic needs of the public. In the interest of the public, the Commission will oversee the conservation of natural resources to avoid waste, abate pollution of the environment, and balance the rights and needs of the people with those of the regulated entities which provide essential and desirable services for the benefit of Oklahoma and its citizens.

**THE COMMISSION**

The Corporation Commission was created by the Oklahoma Constitution and is composed of three commissioners elected statewide for six-year staggered terms. The Commission has the power and authority of a court of record and its decisions can only be overturned by the State Supreme Court.

**DUTIES/RESPONSIBILITIES**

Early emphasis was on regulation of railroad routes and rates. Through changes by the Legislature, and the change in services considered essential to the public welfare, the Commission presently regulates public utilities, oil and gas exploration, drilling, production and waste disposal, motor carrier transport, transportation, storage, and quality and dispensing of petroleum products. The Commission also monitors a number of federal programs for compliance in Oklahoma.

**MINES, DEPARTMENT OF (125)**

**MISSION**

The mission of the Oklahoma Department of Mines (ODM) is to protect the environment of the state, to protect the health and safety of the miners and to protect the life, health, and property of the citizens who are affected through enforcement of the state mining and reclamation laws.

**THE COMMISSION**

The Commission is composed of nine members, with at least one member having a background in engineering or geology; one member with a background in labor or worker's safety; one person with a background in agriculture or soil conservation; one person with a background in transportation; one person with a background in economic development or banking; one person with a background in public utilities; one person with a background in natural resources; and two persons at large. Member are appointed by the Governor, with the advice and consent of the Senate.

**DUTIES/RESPONSIBILITIES**

The Oklahoma Department of Mines is a regulatory authority empowered to execute, enforce and implement provisions of state and federally mandated programs in the area of health, safety, mining and land reclamation practices associated with surface and sub-surface mining. Public Laws 95-87 and 95-164 require a state program to be developed to: (1) safeguard human health and safety; (2) issue mining permits for all mining operations and to inspect regularly all mining operations for reclamation; and (3) minimize environmental impact to land, air, and water quality through viable regulatory and enforcement programs. The state has assumed a leadership role by adopting the rules and regulations as developed by the Office of Surface Mining, Reclamation and Enforcement of the U.S. Department of Interior to achieve the intent of Congress and implement applicable federal laws in the state of Oklahoma. Additionally, the Department is charged with enforcing the mining laws of the state, including the inspection of mines for hazardous conditions directing special consideration towards working conditions, safe equipment operation, proper ventilation, and the elimination of other hazards affecting the life and health of miners. In the event of any type of mine disaster, inspectors assume full charge of rescue operations and the subsequent control of fires, including the sealing of mines when necessary. In cooperation with the Mine Safety and Health Administration, courses are conducted in first aid, mine rescue, mine safety and accident prevention. Reclamation legislation passed by the 1971 Oklahoma Legislature expanded the scope of covered operations to include all mining and added the health and safety inspections of sand, gravel, and quarrying operations to the responsibilities of the Department. Further legislation has charged the agency with additional regulatory duties associated with flyash and non-mining blasting.

<b>Goals/Measures</b>	<b>FY- 2003 Actual</b>	<b>FY- 2004 Actual</b>	<b>FY- 2005 Budgeted</b>	<b>FY-2006 Estimated</b>

**Goal: ODM will have effective Departmental (internal) and client (external) communications that will result in providing increased services.**

- \* The percentage of citizen complaints that are responded to within 10 working days of receipt is measured. The agency will contact the individual who submitted the complaint in accordance with the agency rules and regulations. Within 30 days, a required first contact is generally verbal - phone conversation. However, many of the complaints are anonymous. Any complaint filed will result in an on-site inspection to examine the complaint. Full documentation is added to the file.

Citizen Complaints	95%	95%	95%	95%
--------------------	-----	-----	-----	-----

**Goal: ODM has dedicated itself to a comprehensive training program.**

- \* This measurement will track the number of training hours completed by mining industry employees. To ensure a safer industry through training and education, the agency will be tracking the hours trained by the Oklahoma Miner Training Institute. We want to help maintain an industry that does not incur any enforcement actions. As the cognizant agency, the Dept. of Mines has the responsibility to continue the training to the mining industry.

Industry Training	38,000	32,000	35,000	35,000
-------------------	--------	--------	--------	--------

**Goal: ODM is committed to the appropriate utilization of technology in the workplace.**

- \* The measure is for the percentage of electronic permit applications received per year. More consultants and operators (clients) are requesting this new type of permitting technology. The agency anticipates, when the program is fully operational, that it will result in a faster issuance and response from the agency. Factors of importance in implementing this are the willingness of acceptance by the industry, the security of the submitted documents, and the integrity of the electronic permit package.

Electronic Permits	0	0	0	3
--------------------	---	---	---	---

**Goal: ODM will continue to seek full funding for agency programs.**

- \* This measurement will track the percentage of federal dollars spent in comparison to the amount of federal funding dollars allocated or granted to the agency. The allocated federal dollar usage is dependent upon the available dollars for grant matching funds. Anticipated plans are to maximize the funding resources and remain in compliance with the grant agreements. Failure to reach 100% allocation usage is directly related to the available matching funds. Lack of adequate funding results in the return of federal dollars back to the federal grantors.

### **THE BOARD**

The Environmental Quality Board is composed of thirteen members who are knowledgeable of the environment and natural resources and the preservation of these resources. Members are appointed by the Governor with the advice and consent of the Senate. The Board has statutory responsibility to:

- \* appoint and fix the compensation of the Executive Director;
- \* be the rule-making body for the Department;
- \* review and approve the Budget Request of the Department;
- \* assist the Department in conducting periodic reviews related to goals and objectives; and
- \* provide a public forum for receiving comment and disseminating information to the public, at least quarterly.

### **DUTIES/RESPONSIBILITIES**

#### DEPARTMENTAL ORGANIZATION:

The Department is organized according to operational needs identified by the statutory responsibilities outlined in its empowering legislation. The organization consists of Administrative Services and five technical divisions, each of which is responsible for the management of a specific environmental program area. While all of the original positions afforded to the agency have been allocated, the agency continues to experience a 25 percent vacancy rate.

#### ADMINISTRATIVE SERVICES:

Administrative Services of the Department of Environmental Quality (DEQ) include the Office of the Executive Director, Legal Services, and Support Services.

#### Office of the Executive Director:

The Office of the Executive Director includes the Executive Director, Deputy Executive Director, and the General Counsel. The Office is responsible for management decisions affecting the Department as a whole, final Departmental policy, final authority for the issuance of permits and orders, rules development and litigation affect the Department. Additionally, the Office serves as the initial point of contact for the Governor, state and federal legislators, and state and federal agency administrators. Media relations and direct media contacts are also managed and coordinated through the Office of the Executive Director.

#### Legal Services:

Legal staff advise and counsel DEQ employees, board members, and council members on legal matters related to operation of the agency. Legal staff members are assigned to particular programs or divisions. They advise program staff on laws, regulations, court opinions, and other legal matters that affect their programs. Legal staff develop enforcement actions.

#### Support Services:

Support Services operates the fiscal, personnel, information management, environmental planning and training, resources management and emergency response programs of the Department.

**AIR QUALITY DIVISION:**

The Air Quality Division implements the requirements of the state and federal Clean Air Acts. This includes compliance, enforcement, emission inventory, quality assurance, monitoring, analysis, permitting and local programs.

**CUSTOMER SERVICES DIVISION:**

The Customer Services Division is responsible for providing services both inside and outside the agency. The Customer Assistance Program houses the offices of citizen, local government and business assistance. This program serves as a single point of contact for access to agency information and services. In addition, the Customer Assistance Program houses the agency's pollution prevention and air quality small business assistance activities. The organic and inorganic chemistry laboratories provide analytical support to the various programs within DEQ, to other state agencies, and to the public water supply systems of the state.

The Quality Assurance Unit serves both the laboratory and agency as a whole; and the Laboratory Certification Unit operates a certification program for in-state and out-of-state environmental laboratories. The Risk Communication and Risk Assessment Units coordinate the SARA Title III program, provide community outreach in environmental problem areas and peer review risk assessment decisions for the agency.

**ENVIRONMENTAL COMPLAINTS AND LOCAL SERVICES DIVISION:**

The Environmental Complaints and Local Services Division is responsible for receiving and resolving environmental complaints from citizens of Oklahoma. Complaints are received in the 35 field offices and by the twenty-four hour per day seven days per week environmental complaints hotline.

Another responsibility of this Division is response to environmental emergencies. With 35 field offices across the state, the Division responds to and evaluates spills of hazardous materials, the effects of natural disasters, and other environmental emergencies.

Other responsibilities of the Division include response to citizen requests for private well inspections, percolation tests and inspections of individual sewage disposal systems. Additionally, field staff routinely perform multi-media inspections of facilities across the state. These facilities include water supplies, water pollution control facilities, solid waste landfills, industrial waste facilities, and facilities with air quality permits

**WATER QUALITY DIVISION:**

The Water Quality Division operates programs for public water supplies, source water protection, sludge disposal, and municipal and industrial water pollution control. These programs include rulemaking, tracking, compliance, enforcement, training and certification, and complaint resolution activities. The Division provides licensing and regulation of municipal water and wastewater operators, landfill operators, septic tank installers, and septic tank cleaners. It reviews and processes all plans and specifications and applications for permits for water and wastewater facilities and utilizes its enforcement program to achieve compliance with rule and statute.

**LAND PROTECTION DIVISION:**

The Land Protection Division provides solid waste and hazardous waste planning, management, enforcement, facilities design, and groundwater protection services. The Division is also responsible for regulatory activities for the use of atomic emergency and other sources of ionizing and non-ionizing radiation.

The Division carries out activities as required by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986, popularly known as

the Superfund Program. This national program directs the cleanup of contaminated sites when public health or the environment is threatened by improperly handled or abandoned hazardous substances.

Oklahoma has been authorized to carry out a state hazardous waste program pursuant to the federal Resources Conservation and Recovery Act (RCRA) since January, 1985. Under RCRA, the Division oversees the generation, transportation, treatment, storage, disposal, and recycling of hazardous waste throughout the state.

The Division is also responsible for regulating non-hazardous and other industrial waste under the authority of the Oklahoma Solid Waste Management Act.

**WATER RESOURCES BOARD (835)**

**MISSION**

The mission of the Oklahoma Water Resources Board is to effectively and efficiently manage, protect and improve the water resources of the state and plan for Oklahoma's long-range water needs in a responsive, innovative, and professional manner.

**THE BOARD**

The Water Resources Board, established in 1957, consists of nine (9) members appointed by the Governor for a term of seven years with the advice and consent of the State Senate. One member is appointed to represent each of the Congressional Districts with the remaining members appointed at large. Each member is a qualified elector of the State and at least one member is "well versed in each of the following major types of water use: recreational, industrial, irrigation, municipal, rural residential, agricultural and soil conservation work;" with no more than two representing any one of the major water types.

**DUTIES/RESPONSIBILITIES**

The OWRB's Administrative Services Division provides general support to the agency through sections devoted to accounting, inventory, payroll and budget preparation; database management, coordination and related program implementation; legislative, media and customer relations; and numerous personnel and employee support services.

The Water Quality Division develops and maintains Oklahoma's Water Quality Standards and routinely collects physical, chemical and biological data to support the document. The Division directs Oklahoma's Beneficial Use Monitoring Program (BUMP) to document beneficial use impairments, identify impairment sources (if possible), detect water quality trends, provide needed information for the Water Quality Standards and facilitate the prioritization of pollution control activities. As part of its three-tiered Clean Lakes Program, the Water Quality Division conducts water quality assessments to determine the relative health of state lakes and the problems impairing them, coordinates an extremely successful volunteer water quality monitoring program, and implements diagnostic and feasibility studies which seek to restore the recreational benefits of public lakes throughout the state. Water Quality also participates with municipal governments and federal agencies to assess and control various water quality problems impacting Oklahoma waters.

In answer to the growing need for infrastructure improvements in Oklahoma, the Board's Financial Assistance Division administers a successful, long-standing loan and emergency grant program to fund the construction or rehabilitation of community water and wastewater projects. This program -- as well as most of the agency's other financial assistance ventures -- is backed by the Statewide Water Development Revolving Fund, capitalized by the State Legislature in 1979. The Revolving Fund is the key reason why the Board's loan programs can offer such extremely competitive interest rates and convenient payback terms. The Division also directs two separate loan programs which provide federal Clean Water Act and Drinking Water Act funds for community wastewater and water treatment/distribution projects, respectively. A fourth funding strategy, a rural grant program, is specifically geared to the water/sewer project needs of Oklahoma's small towns.

The Planning and Management Division administers permitting programs for use of the state's surface waters and groundwaters and cooperates with various agencies and organizations in technical studies which seek to determine the amount of water available in Oklahoma's stream and groundwater basins. In a closely related activity, the Division coordinates a multi-faceted water quality and quantity monitoring network. In addition, to help ensure that future water supplies are available and used wisely, Planning and Management participates in various planning activities, including maintenance of the Oklahoma Comprehensive Water Plan and promotion of its associated recommendations.

**BANKING DEPARTMENT (65)**

**MISSION**

As authorized by statute, the State Banking Department (the Department) operates as an administrative regulatory agency under the executive branch of government of the State of Oklahoma. The Department is responsible for supervising commercial banks, credit unions, savings and loan associations, and trust companies. It also regulates and licenses money order companies and trust funds maintained by for-profit cemeteries. The Department helps ensure the safety of depositors' funds through appointed advisory boards that are charged with promulgating rules to govern the financial industry in the State.

The Department performs statutorily prescribed examinations of all financial institutions under its supervision through the allocation of its human and technological resources. It also convenes public hearings on matters of new charter applications, and it processes various administrative applications from regulated financial institutions that are seeking new or additional corporate powers and activities, and/or changes in their certificates of incorporation.

The primary focus of the Department is effective and efficient supervision and the preservation of the dual banking system and the protection of financial institution depositors and shareholders.

**THE BOARD**

The Banking Board consists of seven (7) members, including the Commissioner, who are appointed by the Governor with the consent of the Senate. The Commissioner serves as the chairman and only votes in case of a tie. Other than the Commissioner, five members of the Board are active officers of state banks or trust companies, and one may be an officer or director of a national bank. One member shall be a citizen of Oklahoma who is not and has not been an officer or stockholder in any banking institution. The term of each Banking Board member, other than the Commissioner, is six (6) years. The Credit Union Board consists of five (5) members appointed by the Governor. The Commissioner is a member presiding as Chairman of the State Credit Union Board. One of the other four members is a member of a credit union organized under the laws of this state, and each of the other three members is an officer in charge of operations or a director of a credit union organized under the laws of this state; however, one of those three may be from a federal credit union. The term of each appointed Credit Union Board member is four (4) years.

**DUTIES/RESPONSIBILITIES**

The public's confidence in the safety and soundness of the State's chartered financial institutions is of the utmost importance. It is enforced in a manner which encourages a competitive financial industry to meet each community's credit and financial service needs, thereby fostering diversity and stability in financial institutions' products and services.

**Goal: Make 100% of services available "on-line".**

\* Matching services provided to those available via agency internet website. Consumers and licensees should be surveyed periodically to determine what additional services should be provided and how these services should be delivered. Comparison of services provided/services available "on-line" will determine percentage of completion.

------------------	----	----	----	----

**Goal: Form partnerships with citizens, industry and other agencies in order to collaborate and share resources.**

\* This measure will determine the number of persons (3.3 million total population of Oklahoma) served through collaborative efforts (i.e. training seminars, community outreach, advertising, etc.) This number can be compared annually to determine effectiveness of increasing partnerships. This can assist us in measuring the time and resources spent per capita for each group or industry served through collaboration and partnerships.

**Goal: Reduce examination costs by 1.5%.**

- \* This measure will compare the cost of license examinations, per license examination, to a baseline established in FY2003. The plan calls for a reduction in cost per exam of 5% by the end of FY2010. This will involve tracking current exam expenses, including travel and administrative costs, incorporating all exams done (internally and externally) to determine average cost per exam, measure progress and adjust plan periodically to achieve the long-term goal.

**Goal: Measure agency website "hits" and develop other data-tracking mechanisms for determining efficiency of services provided and for use in on-going strategic planning.**

- \* Agency website tracking of "hits" through a website counter is currently available. The plan is to increase the number of website "hits" by 10% each year, from a baseline established in FY2003.

**Goal: Increase education and awareness of consumers and licensees regarding consumer credit issues and services provided by the agency.**

- \* This measure will involve gathering feedback from consumers, licensees, and others regarding the services by the agency and calculating the number of persons reached with educational materials and information through seminars, direct mail, agency website, media releases, and other means. Plans are to establish a baseline of contacts in FY2003 and increase the number of contacts by 10% each year. The measuring strategy should take into account the demographics of the groups and persons reached.

The Board of Trustees consists of thirteen appointed members, some by position and some by association. Those serving through position are a member of the Corporation Commission as selected by the Commission, the Administrator of the Office of Personnel Management, the State Insurance Commissioner, the Director of State Finance, and a member of the Tax Commission selected by the Tax Commission. Effective July 1, 2004 the administrator of the Office of Personnel Management, the State Insurance Commissioner and the Director of State Finance may also send designees. Of the remaining members, three are appointed by the Governor, one is appointed by the Supreme Court, two are appointed by the Speaker of the House of Representatives and two are appointed by the President Pro Tempore of the Senate.

The restrictions on these appointments state that one member appointed by the Governor is an active member of OPERS, one member appointed by the Speaker of the House of Representatives is also an active member of OPERS and one member appointed by the President Pro Tempore of the Senate is a retired member of OPERS. The appointed members serve four year terms, but the Governor's appointments are coterminous with his term of office. Qualifications for two of the Governor's appointees, one of the Speaker's appointees and one of the President Pro Temp's appointees include having experience in investment management, pension management, public fund management, the banking profession, and a license to practice law or a license to be an accountant. A balance of these qualifications is considered in the appointments process.

**DUTIES/RESPONSIBILITIES**

The Public Employees Retirement System is made up of members from state and local governments, hazardous duty members and elected officials. The Public Employees Retirement System is governed by a thirteen-member Board of Trustees that is responsible for policies and rules of the system. The Board appoints the Executive Director who is responsible for the management and administration of the system. The Board retains qualified investment counselors to assist and provide for the judicious investment of funds.

The Board also administers the Uniform Retirement System for Justices and Judges, Oklahoma State Employees Deferred Compensation Plan, and the Oklahoma State Employees Deferred Savings Incentive Plan.

The Oklahoma State Employees Deferred Compensation Plan enables employees of the State to participate in voluntary tax-sheltered income deferral plans authorized by the United States Internal Revenue Code, Section 457. This plan permits employees to obtain the advantages inherent in such plans relative to the income tax treatment of the contributions and disbursements made pursuant to such tax-sheltered voluntary income deferral plans.

The Oklahoma State Employees Deferred Savings Incentive Plan was established effective January 1, 1998 as a money purchase pension plan pursuant to the Internal Revenue Code Section 401(a). Any qualified participant who is an active participant in the Oklahoma State Employees Deferred Compensation Plan is eligible for a monthly contribution of \$25 from the member's employer. Qualified participants may also make rollover contributions to this plan.

**TEACHERS' RETIREMENT SYSTEM (715)**

**MISSION**

To promote long-term financial security for our membership by effectively administering the Teachers' Retirement System

**THE BOARD**

The Board of Trustees is comprised of thirteen members. The State Superintendent of Public Instruction, The Director of State Finance, and the Director of Vocational and Technical Education all serve as ex officio members. The Governor appoints six members and the Speaker of the House of Representatives and the President Pro Tempore of the Senate appoint two each. Four of the Governor's appointees meet general requirements such as experience in pension systems, finance, investment management or banking or having a license to practice law or a license of accountancy. Two of the Governor's appointees are divided so that one member is from an institution of Higher Education and one is a representative from the System's support personnel membership within the state. The appointees of the President Pro Tempore of the Senate and the Speaker of the House of Representatives are divided such that each appoints an active classroom teacher and a retired classroom teacher. All members serve four-year terms.

**DUTIES/RESPONSIBILITIES**

General administrative responsibility for the proper operation of the System and effective implementation of laws are vested in the Board of Trustees. The Board is charged with the responsibility to collect all contributions from the members.

\* Process inquiries within 90 days.

Note: As OST has made the public more aware of the program, we have seen a huge increase in the number of inquiries. Additionally, because of the amnesty program and increased awareness of holders, more unclaimed property has been reported to OST. We also discovered that it appears there were thousands of names that were not advertised when the program was under the Tax Commission. OST has been adding those names to the published names over the last three publications. This has increased the number of inquiries and therefore increased the number of days it takes to process inquiries.

**HEALTH CARE AUTHORITY (807)**

**MISSION**

The purpose of the OHCA is to purchase State and federally funded health care in the most efficient and comprehensive manner possible, and to study and recommend strategies for optimizing the accessibility and quality of health care.

**THE BOARD**

The Oklahoma Health Care Authority is governed by a seven-member Board. Three members are appointed by the Governor, two by the Senate President Pro Tempore, and two by the Speaker of the House of Representatives. Appointing authorities are required to select members who have experience in medical care, health care services, health insurance and/or managed health care, and other health related areas as well as a health care consumer who has no interest in health related matters. Board members are selected from each of Oklahoma's six Congressional districts and one member is selected at-large.

**DUTIES/RESPONSIBILITIES**

The Oklahoma Health Care Authority is the state agency responsible for all Medicaid compensable services to five groups of categorically related recipients: those related to Temporary Assistance to Needy Families, the Aged, the Blind, the Disabled, and the Institutionalized. The medical care delivered to these individuals is prescribed by the Medicaid Act. These individuals now comprise approximately 700,000 individuals statewide.

The Medicaid Act requires that certain medical services be delivered to recipients by hospitals and physicians. Other services are optional, such as pharmacy, but this service is mandated by the state under 56 Okla. Stat. Section 199. These services are delivered through several delivery systems. One delivery system is the traditional fee-for-service system. The other is the SoonerCare program which is part of the Medicaid Options Act (56 Okla. Stat. Section 1010.1(B)).

The SoonerCare is the partially capitated managed care program required under 56 Okla. Stat. Section 1010.1(B).

With each of these programs, the agency is responsible for setting compensation levels, services contained in each delivery system, contracts to deliver the services, and actuarial determinations regarding compensation.

Additionally, while the Oklahoma Department of Human Services conducts eligibility determinations for OHCA, OHCA is required to monitor this activity and make changes to the eligibility systems because of the managed care delivery systems it has mandated.

Finally, the OHCA does have a federal and state mandated role in Medicaid fraud. The agency actively works with the State Attorney's General Fraud Unit to prosecute fraudulent providers.

- \* Efficiency - Total Cost Per Beneficiary: This measure reports the total dollars invested, both state and federal, per unduplicated beneficiary. This includes both program costs and administration costs funded directly through the OHCA.

The Total Cost Per Beneficiary increased in SFY 2004 due to the Jobs and Growth Tax Relief Reconciliation Act of 2003, which provided state Medicaid budgets with a 2.95 percent temporary increase in the FMAP rate. This increase became effective in April 2003, and was in effect for five quarters ending June 2004.

----------------------------	---------	---------	---------	---------

- \* Efficiency - Percentage Increase in State Cost Per Year: This measure reports the percentage of change in investment of state dollars per beneficiary based on the previous year's investment.

The increase in state investment experienced in SFY 2004 is attributable to provider increases that went into effect as well as reduction in FMAP. The federal government matched state administration dollars related to the development and implementation of the new MMIS system at a 90 percent FMAP rate. This rate ended in SFY 2003.

- \* Outcome - % of Oklahomans Enrolled in Medicaid: This measure reports the percentage of Oklahomans enrolled in Medicaid sometime during the fiscal year. This indicates that these individuals had an avenue to obtain health care services. Medicaid serves as the primary source of medical coverage for many Oklahomans.

- \* Output - Unduplicated Medicaid Enrollment: This measure reports the unduplicated number of Oklahomans who were enrolled at some time during the fiscal year. While SFY 2003 and SFY 2004 numbers are actual numbers, the enrollment for SFY 2005 through SFY 2007 are estimated numbers based upon such factors as growth and utilization. Also included in these numbers are the estimated populations to be served in the Breast and Cervical Cancer program and the Family Planning Waiver.

For SFY 2006 and SFY 2007, the estimated enrollment has been adjusted by the additional eligibility groups that the OHCA Board of Directors indicated were priorities and should be included in both the agency's strategic plan and the SFY 2006 budget request. These eligibility groups include (1) unborn children of undocumented alien mothers, and (2) Miller Trust nursing home eligibles.

- \* Outcome - Provider Reimbursement as a % of Medicare: This measure reports the percentage of Medicare payments reimbursed. Oklahoma Medicaid includes such providers as physicians, nurse practitioners, physician assistants and other healthcare professionals. Oklahoma pays providers to deliver Medicaid services and provide access to enrolled individuals. The OHCA reimburses providers for services at state determined rates from annual state appropriations matched by federal funding.

This measure will report and track our progress towards reimbursing physicians and other providers at 100% of the most current year's Medicare rates.

The OHCA reimburses providers for services at state determined rates from annual state appropriations matched by federal funding. The increase in the percentage rate in SFY 2004 reflect the provider rate increases that went into effect in the fiscal year. In order to avoid presenting misleading information, special rates paid to State Employed Physicians at the University of Oklahoma and Oklahoma State University Colleges of Medicine were excluded from this calculation.

**Goal: To foster excellence in the design and administration of the Medicaid program.**

- \* Efficiency - Per Beneficiary - Total Cost of Administration: This measure reports the total investment in the administration of the State's Medicaid program. This includes federal and state dollars.

The federal Medicaid assistance participation rate (FMAP) received for administration costs associated with the new MMIS system, was 90 percent. This increased FMAP rated ended in SFY 2003. The decrease in federal funding from SFY 2003 to SFY 2004 is caused by this reduction.

Until SFY 2005, the OHCA received the administration FMAP rate for it's non-emergency transportation program. This was increased to the program FMAP rate in SFY 2005. Transportation costs were removed from administration and are now reflected in program costs. This accounts for the decrease in budgeted administration costs in that fiscal year and the estimated costs of the following years.

- \* Output - Drug Rebate Collections as a % of Pharmacy Expenditures: This measure reports drug rebate collections as a percent of total pharmacy expenditures. Federal law allows the Medicaid program to collect rebates from manufacturers to help lower costs. The Drug Rebate Program (established by the enactment of the OBRA of 1990) was designed to allow Medicaid programs to receive rebates on reimbursed drugs so that the net cost to Medicaid programs would equal the lowest prices paid by other large pharmaceutical purchasers of the lowest or "best" charges by manufacturers. This measure shows that the OHCA participates fully in this program and ensures the Medicaid dollars are spent in the most economical manner by reporting the percentage of drug rebate collections to total pharmacy expenditures.

- \* Input - State Cost of Service: This measure reports the state's investment in programs for the Oklahoma Medicaid program. Actual dollars are reported for SFY 2003 and SFY 2004. Budgeted dollars are reported for SFY 2005. SFY 2006 and SFY 2007 are estimated based on the SFY 2006 budget request.

State matching dollars come not only from state appropriations, but also from fees and rebates.

- \* Input - Total Cost of Service: This measure reports the total program dollars, both state and federal, invested into the Oklahoma Medicaid program. SFY 2003 and SFY 2004 represent actual dollars, while the amount budgeted is reported for SFY 2005. SFY 2006 and SFY 2007 represent estimated dollars based on the budget request.

On average, for every state dollar invested in Medicaid, the state receives \$2.40 in federal assistance.

Total Cost of Service	\$2,373,412,787	\$2,639,871,399	\$2,771,177,059	\$3,045,115,374
-----------------------	-----------------	-----------------	-----------------	-----------------

- \* Input - State Cost of Administration: This measure reports the state's investment in the OHCA's administration of the Oklahoma Medicaid program. The measure does not reflect administration dollars funded directly through the DHS or the OJA, who also receive administration funds for the Medicaid program.

The increase in state investment experienced in SFY 2004 is attributable to provider increases that went into effect as well as a reduction in FMAP. The federal government matched state administration dollars related to the development and implementation of the new MMIS system at a 90% FMAP rate. This rate ended in SFY 2003.

It should be noted that in SFY 2005, the non-emergency transportation category of service was moved from administration costs to program costs. The purpose of this change was to reflect these costs with other expenditures receiving the program rate of FMAP. The effect of this change is a reduction in state costs of administration. The state cost for non-emergency transportation is now presented as a Cost of Service or Program Cost.

State Cost of Administration	\$18,383,635	\$27,167,409	\$20,130,996	\$22,317,554

- \* Input - Total State Cost: This measure reports the total state investment in the OHCA for the Medicaid program and includes both program dollars and administration dollars. As previously stated, administration dollars funded directly through the DHS and the OJA are not included.

The significant increase between SFY 2005 and SFY 2006 can be attributed to the reduction of the FMAP rate in FFY 2006 by 2.27% increasing the amount that the state must contribute toward medical services for Oklahoma Medicaid beneficiaries.

The increase in percentage change reported in SFY 2005 and SFY 2006 reflect the additional populations estimated for the Breast and Cervical Cancer program and the Family Planning Waiver, as well as populations associated with the budget request.

- \* Output - # of Level of Care / Long Term Care Service Entry Reviews: This measure reports the number of level of care reviews process by the OHCA.

To ensure appropriate placement for beneficiaries entering a nursing home for possible developmental disability or menta retardation (MR) and/or mental illness (MI), the federal government requires that a Pre-Admission Screening and Resident Review (PASRR) be administered. The OHCA Level of Care Unit is responsible for administering Level I PASRR screenings to all private pay and Medicaid beneficiaries with possible MR/MI needs. The above measure reports the number of reviews performed in SFY 2003 and SFY 2004. State fiscal years 2005 through 2007 report the number of reviews projected for the outlying years based on a five year trend.

The measures below are the rates o participation in the Early Periodic Screening Diagnosis and Treatment (EPSDT) program and immunizations. The higher cost reported in SFY 2004 is accounted for by the Jobs and Growth Relief Reconciliation Act of 2003 which provided state Medicaid budgets with a 2.95 percent temporary increase in the FMAP rate. This increase became effective in April 2003, and was in effect for five quarters ending June 2004.

**Program: Medicaid/Children's Health Insurance Program**

**Goal: To purchase the best value health care for beneficiaries by providing for appropriate reimbursement and exploring all available valid options for program financing in order to ensure access to medical services for our clients.**

- \* Input - Cost of Prescription Drugs: This measure reports the costs for Prescription Drugs for the fiscal year. Prescription drug costs in SFY 2006 and SFY 2007 reflect the reduction of costs associated with the transfer of dual eligibles (beneficiaries receiving benefits from both Medicaid and Medicare) out of the Prescription Drug program. This number has been revised since the original release of the SFY 2004 performance report to accurately reflect the projected costs for SFY 2006 and SFY 2007.

Oklahoma will be required to pay a percent of what the federal government estimates the State would have paid if still providing dual eligible drug benefits. Known as the "clawback," these costs will not be reflected in the Prescription Drug program category.

Cost of Prescription Drugs	\$280,094,928	\$355,209,786	\$461,956,623	\$285,748,521
----------------------------	---------------	---------------	---------------	---------------

- \* Input - Cost of Medicare Buy-In: This measure reports the costs associated with Medicare Buy-In. For the beneficiaries eligible for Medicare as well as Medicaid (dual eligibles), Medicaid contributes a percentage of the costs for which the patient is responsible.

Cost of Medicare Buy-In	\$62,963,651	\$69,240,600	\$79,095,312	\$107,941,381

- \* Input - Cost of Miscellaneous Medical Payments: This measure reports the cost of Miscellaneous Medical Payments for the state fiscal year.

Cost of Misc Medical Pymts	\$7,627,744	\$6,731,296	\$7,762,023	\$12,946,515

**Goal: To foster excellence in the design and administration of the Medicaid program.**

- \* Input - State Cost of Administration: This measure reports the state's investment in the OHCA's administration of the Oklahoma Medicaid program. This measure does not include administration dollars funded directly through the DHS or the OJA, who also receive administration funds for the Medicaid program.

The increase in state investment experienced in SFY 2004 is attributable to provider increases that went into effect as well as a reduction in FMAP. The federal government matched state administration dollars related to the development and implementation of the new MMIS system at a 90 percent FMAP rate. This rate ended in SFY 2003.

It should be noted that in SFY 2005, the non-emergency transportation category of service was moved from administration costs to program costs. The purpose of this change was to reflect these costs with other expenditures receiving the program rate of federal matching assistance participation (FMAP). The effect of this change is a reduction in state costs of administration. The state costs for non-emergency transportation is now presented as a Cost of Service or Program Cost.

State Cost - Administration	\$18,383,635	\$27,167,409	\$20,130,996	\$22,317,554

**Program: Medicaid/Children's Health Insurance Program**

**Goal: To foster excellence in the design and administration of the Medicaid program.**

- \* Input - Total Cost of Administration: This measure reports the state and federal government's investment in the OHCA's administration of the Medicaid program. These amounts do not reflect dollars funded directly through the DHS and the OJA, who also receive administration funding for the Medicaid program.

The federal matching assistance participation rate (FMAP) received for administration costs associated with the new MMIS system, was 90 percent. This increased FMAP rate ended in SFY 2003. The decrease in federal funding from SFY 2003 to SFY 2004 is caused by this reduction.

Until SFY 2005, the OHCA received the administration FMAP rate for it's non-emergency transportation program. This was increased to the program FMAP rate in SFY 2005. This amounts for the decrease in budgeted administration costs in that fiscal year and the estimated costs of the following years.

Total Cost Admn	\$73,994,922	\$65,186,266	\$64,408,000	\$70,840,000
-----------------	--------------	--------------	--------------	--------------

- \* Efficiency - Per Beneficiary - State Cost of Administration: This measure reports the state's investment in the administration of the Medicaid program through OHCA per total unduplicated beneficiary.

The increase in state investment experienced in SFY 2004 is attributable to providers increases that went into effect as well as a reduction in FMAP. The federal government matched state administration dollars related to the development and implementation of the new MMIS system at a 90 percent FMAP rate. This rate ended in SFY 2003.

It should be noted that in SFY 2005, the non-emergency transportation category of service was moved from administration costs to program costs. The purpose of this change was to reflect these with other expenditures receiving the program rate of federal matching assistance participation (FMAP). The effect of this change is a reduction in state costs of administration. The state cost for non-emergency transportation is now presented as a Cost of Service or Program Cost.

- \* Efficiency - Per Beneficiary - Total Cost of Administration: This measure reports the total investment in the administration of the State's Medicaid program. This includes federal and state dollars.

The federal matching assistance participation rate (FMAP) received for administration costs associated with the new MMIS system was 90 percent. This increased FMAP rate ended in SFY 2003. The decrease in federal funding from SFY 2003 to SFY 2004 is caused by this reduction.

Until SFY 2005, the OHCA received the administration FMAP rate for it's non-emergency transportation program. This was increased to the program FMAP rate in SFY 2005. Transportation costs were removed from administration and are now reflected in program costs. This accounts for the decrease in budgeted administration costs in that fiscal year and the estimated costs of the following years.

- \* Outcome - Beneficiaries Referred to Care Management: This measure reports the number of beneficiaries referred to Care Management due to 6 or more emergency room visits during the quarter. It should be noted that the number reported for SFY 2004 is for one quarter. As of yet, no trend data is available and therefore, no projections were made for the following fiscal years.

The OHCA's Quality Assurance unit has begun analysis of emergency room utilization. One of the results of this initiative has been a referral system that informs Care Management of beneficiaries that have had six or more ER visits within a quarter. The purpose of these referrals is to identify members who would benefit from Care Management service and to educate members on the proper utilization of ER services.

- \* Outcome - Care Management Intervention Rate: This measure reports the percent of beneficiaries, referred due to emergency room utilization, who were contacted by Care Management. The first referrals were from the last quarter of SFY 2004. This percentage represents the number of members contacted compared to the number of members referred.

The purpose of the referral system is to identify members who might benefit from Care Management services. It is also a means to educate beneficiaries on the appropriate use of ER services.

## **MENTAL HEALTH & SBST ABUSE SRVC DEPT (452)**

### **MISSION**

The mission of the Oklahoma Department of Mental Health and Substance Abuse Services is to promote healthy communities and provide the highest quality care to enhance the well being of all Oklahomans.

### **THE BOARD**

The Board of Mental Health and Substance Abuse Services is composed of eleven members appointed by the Governor with the consent of the Senate for a seven year term. Statutorily, membership must include a licensed physician, a psychiatrist, a psychologist, an attorney, three persons with education and experience in substance abuse recovery, and one person experienced in treating domestic violence and sexual assault.

### **DUTIES/RESPONSIBILITIES**

The Oklahoma State Department of Mental Health and Substance Abuse Services has the responsibility for developing and maintaining programs for the prevention and treatment of mental illness, substance abuse and dependency and domestic violence/sexual assault in Oklahoma. This responsibility includes the total population of children and adults and covers a wide range of programs. The Department of Mental Health and Substance Abuse Services, as the mental health, alcohol and drug abuse and domestic violence/sexual assault authority, plans, operates, funds and certifies a wide range of programs designed to create and maintain a continuum of care in the State of Oklahoma. Major components are as follows:

**MENTAL HEALTH CENTERS-** The department has developed comprehensive mental health services in each of the State's 19 service areas. Five of the existing community mental health centers are state-operated. They are located in Norman, Lawton, Ft. Supply, McAlester and Tahlequah. In addition, the department has performance contracts for services with nonprofit corporations located in: Nowata, Tulsa, Muskogee, Okmulgee, Ardmore, Clinton, Oklahoma City, Yukon, and Ponca City. CMHCs continue to target services to adults who have severe and persistent mental illness and children who have a serious emotional disturbance.

**SUBSTANCE ABUSE TREATMENT PROGRAMS-** As the alcohol and drug authority under Title 43A of the Oklahoma State Statutes, the department is responsible for comprehensive planning and program implementation in the areas of education, training, prevention, and treatment for individuals and families affected by alcohol and drug abuse.

The department directly operates treatment centers in Vinita, Norman, Woodward, Tahlequah, and seeks to provide a continuum of care in each of the 8 substance abuse regional planning areas of the state through contracts with nonprofit agencies offering comprehensive alcohol and drug abuse treatment services, including services to youth and inmates.

The department has established several projects for early intervention and prevention of alcohol and drug abuse related problems, including educating medical personnel, disseminating alcohol/drug information statewide through 18 Area Prevention Resource Centers, promoting and offering assistance to parent support groups, providing a parent training program on developing capable people and promoting and developing employee assistance programs. Specialized services are offered to pregnant women, women with dependent children, youth and older populations. These programs are both state-operated and contracted. Programs to meet the unique requirements of the dually diagnosed continue to be refined.

**CHILDREN'S SERVICES-** The department contracts for a variety of mental health services for children, including family based, in-home services, outpatient services, therapeutic nurseries, group homes and wrap around services. The Oklahoma Youth Center (OYC) is the only state-operated psychiatric hospital for children in the state. OYC also offers residential treatment services. In the substance abuse area, the Department is putting an increased emphasis on adolescent treatment, as well as treatment of mothers with dependent children.

**OKLAHOMA COUNTY CRISIS INTERVENTION CENTER/TULSA CENTER FOR BEHAVIORAL HEALTH-** The department operates a crisis center for persons in Oklahoma County and Tulsa County for mental health, alcohol, and

drug emergencies. The Oklahoma County crisis center operates the department's 24 hour toll-free hotline.

**DOMESTIC VIOLENCE/SEXUAL ASSAULT PROGRAMS-** The department is responsible for developing a statewide network of services for victims of domestic violence and sexual assault and their dependent children. The DV/SA network includes crisis intervention services, shelter, rape response services and education/training services in 29 primary locations. Some of these facilities offer batterer's treatment services. Some of these programs also offer longer term transitional living services.

**PSYCHIATRIC HOSPITALS-** The department operates a full service psychiatric hospital for adults in Norman, a forensic hospital for adults in Vinita, and a psychiatric hospital for children and youth in Norman. The two Norman hospitals receive voluntary and involuntary court committed patients while the forensic hospital in Vinita serves only individuals sent for evaluation or treatment through the court system.

**COMPREHENSIVE PLANNING-** Since 1983, the department has conducted an ongoing process of local health planning through eight Regional Advisory Boards and three statewide Service Advisory Councils. This process has been augmented and strengthened by P.L. 102-321 which mandates the submittal of an annual plan for achieving effective, organized community-based systems of care for seriously mentally ill individuals and children with serious emotional disturbances. Block grant funding to states by the Substance Abuse and Mental Health Services Administration is contingent upon receipt of an approved plan document.

**CENTRAL OFFICE-** The central office of the Department of Mental Health and Substance Abuse Services provides direction, orientation, and professional and technical assistance to various facilities and service units within the department, as well as to locally-based community mental health facilities, domestic violence and sexual assault programs alcohol and drug treatment and prevention programs, crisis centers, and a variety of other contracted programs. It sets standards, policies and goals for programs, and monitors the programs to assure each service.

**HORSE RACING COMMISSION (353)**

**MISSION**

Historical:

The Oklahoma Horse Racing Commission encourages agriculture, the breeding of horses, and generates public revenue through the forceful control of the highest quality Commission-sanctioned racing which maintains the appearance as well as the fact of complete honesty and integrity of horse racing in this State.

Current:

The Oklahoma Horse Racing Commission encourages agriculture, the breeding of horses, the growth, sustenance and development of live racing, and generates public revenue through the forceful control, regulation, implementation and enforcement of Commission-licensed racing and gaming.

**THE COMMISSION**

There is hereby created the Oklahoma Horse Racing Commission, which shall consist of seven (7) members appointed by the Governor with the advice and consent of the Senate. One member shall be appointed from each congressional district, and at least one of the remaining members shall be experienced in the horse industry and shall be appointed from the state at large. However, when congressional districts are redrawn each member appointed prior to July 1 of the year in which such modification becomes effective shall complete the current term of office and appointments made after July 1 of the year in which such modification becomes effective shall be based on the redrawn districts. Appointments made after July 1 of the year in which such modification becomes effective shall be from any redrawn districts which are not represented by a board member until such time as each of the modified congressional districts are represented by a board member. No appointments may be made after July 1 of the year in which such modification becomes effective if such appointment would result in more than two members serving from the same modified district. O.S. Title 3A, Section 201.A.

**DUTIES/RESPONSIBILITIES**

The Commission has plenary power to promulgate rules, and to license racetracks and individual participants for the conduct of live horse racing and simulcasting so as to: (1) encourage agriculture and the breeding of horses; (2) maintain race meetings of the highest quality and free of corrupt, incompetent, dishonest or unprincipled horse racing practices; (3) dissipate any cloud of association with the undesirable and maintain the appearance and fact of complete honesty and integrity of horse racing; and (4) generate public revenues.

In order to encourage the growth, sustenance and development of live horse racing in this state and of the state's agriculture and horse industries, the Commission is authorized to issue licenses to conduct authorized gaming to no more than three (3) organization licensees operating racetrack locations at which horse race meetings with pari-mutuel wagering, as authorized by the Commission pursuant to the provisions of Title 3A of the Oklahoma Statutes, occurred in calendar year 2001.

The Commission promulgates rules to regulate, implement and enforce the provisions of the State-Tribal Gaming Act with regard to the conduct of authorized gaming by organization licensees.

Goals/Measures	FY- 2003 Actual	FY- 2004 Actual	FY- 2005 Budgeted	FY-2006 Estimated

**Goal: Provide effective, impartial services and programs to our customers.**

\* We will increase the percentage of disputes resolved through Alternative Dispute Resolution (ADR), mediation and negotiation. We anticipate an increase by 1% each year.

-----------------------	----------------------------	----------------------------	------------------------------	------------------------------

**Goal: Reduce costs for other agencies.**

- \* Based on our internal operation improvement through increasing team members' problem-solving skills and taking preventive actions, we will be able to save other agencies time, money, and employee productivity by reducing appeal resolution time frames from the date of receipt in our office to the date of resolution.

Appeal Resolution Time	100 days	75 days	73 days	68 days
------------------------	----------	---------	---------	---------

- \* We will decrease the costs to other state agencies by increasing our on-site man-hours each year, which will negate the need for other agencies to pay travel costs. The travel cost of a member of the MPC staff, ALJ, or Facilitator to a remote location is estimated to be 1/4 the cost of others traveling to OKC. We anticipate decreasing the costs for other agencies with regard to grievances, investigations, alternative dispute resolutions, hearings, and training.

**PERSONNEL MANAGEMENT, OFFICE OF (548)**

**MISSION**

We serve the people of Oklahoma by delivering reliable and innovative human resource services to our partner agencies to achieve their missions.

**DUTIES/RESPONSIBILITIES**

The Office of Personnel Management (OPM) is responsible for providing both service and regulatory personnel administration functions that are efficient and effective in meeting the management needs of various state agencies. OPM maintains a classified system of employment and a fair and equitable compensation system for state employees. OPM adopts job families for Merit System jobs and assigns positions to them. It recommends a flexible and adaptable state employee pay system based on the market data found in relevant public and private sector markets, sets pay bands for individual job families and levels and administers the Longevity Payment Program. OPM also approves agency reduction-in-force plans.

OPM provides recruitment and referral services for state agencies, including the certification of qualified persons for state jobs and the development and administration of valid, job-related, nondiscriminatory selection procedures, providing for competitive examinations when practical and appropriate. It also provides special recruitment assistance and referral services designed to assist state agencies with their affirmative action program needs and objectives. OPM approves state agencies' Affirmative Action Plans and prepares the State's AA/EEO status report. OPM also administers a statewide Employee Assistance Program designed to help agencies and employees with performance deficiencies associated with personal problems, including alcoholism and drug abuse. The program provides counseling and referral assistance to employees and family members who are seeking help and assists state agencies in dealing with employees with such problems.

OPM provides many management training and development opportunities, including the Carl Albert Public Internship Program, a nationally-accredited Certified Public Manager Program, the Quality Oklahoma Program, the State Mentor Program and the State Personnel Interchange Program. It administers the statutorily required Supervisory Training Program, the certification of Discrimination Complaints Investigators, the certification of Personnel Professionals and the training of Civil Rights Administrators. OPM provides staff support for the Affirmative Action Review Council, the Employees Assistance Program Advisory Committee, the Committee for Incentive Awards for State Employees Program which administers the Productivity Enhancement Program (PEP), the State Agency Review Committee (SARC) which administers the State Charitable Campaign (SCC), the Commission on the Status of Women, and a variety of other advisory committees. OPM also administers the state employee's voluntary payroll deduction, direct deposit, and child care programs.

OPM provides system support activities for central systems applications including payroll and leave accounting, employee benefits, human resources, and direct deposit. The benefits system was replaced with the Benefit Administration System (BAS) in Fiscal Year 2003. That system is now maintained by the Employee Benefits Council. OPM continues to provide an interface between BAS and the state payroll system. The remainder of these systems are planned for replacement by the CORE System Project with a target date of January 1, 2005. However, it will be necessary to provide data maintenance for a limited time as we transition these systems to the new platform.

For agencies with classified employees, OPM maintains the OK-CAREERS system to provide agencies with lists of qualified job applicants. This system application will continue to be supported by OPM until a replacement system is identified and funded.

A new Oklahoma Health Professionals Recovery Program has been supported for the first time in July 2002 to ensure aftercare for licensed dentists. It allows mandating aftercare program through disciplinary orders. Each disciplined dentist will be mandated to actively participate. The dentist will also be required to report drug screenings and attendance of meetings like AA and other professional groups. The Board is pursuing new laws to eliminate probation time limit. This change will authorize the Board with discretion to ensure initial treatment is complete

**EMPLOYMENT SECURITY COMMISSION (290)**

**MISSION**

To be the foundation in building a world class workforce system in Oklahoma.

**THE COMMISSION**

The Oklahoma Employment Security Commission was created in 1941 through amendment to the Oklahoma Compensation Law. A five member commission, appointed by the Governor with the advice and consent of the Senate, is responsible for administering the Employment Security Act. Two members represent employers, two represent employees, and one represents the public. The representative from the public is the Chairman of the Commission. Each member is a citizen of the United States, and has been a resident and qualified voter of the State of Oklahoma for more than five years. Each member holds office for a term of six years.

**DUTIES/RESPONSIBILITIES**

The Employment Security Commission operates under the guidelines of Federal-State grant agreements. The four primary Agency programs include Unemployment Insurance, Employment Service, Employment and Training and Economic Research and Analysis.

The Unemployment Insurance Program is responsible for the payment of benefits to eligible unemployed individuals and the collection of unemployment taxes from employers. The Unemployment Insurance system is designed to provide workers with insurance against involuntary unemployment by partial replacement of lost wages and to facilitate the reemployment of such workers.

The Employment Service Program provides job finding and placement services to job seekers and recruitment services to employers with job vacancies. Veterans receive priority referral to jobs as well as special employment services and assistance. Specialized employment services are also provided to applicants with special needs.

The Employment and Training Program is responsible for administering the Workforce Investment Act (WIA). The purpose of the Act is to establish programs designed to provide job training and related assistance to economically disadvantaged adults and youth facing significant employment barriers. The ultimate goal of the Act is to move trainees into permanent, self-sustaining employment, resulting in increased employment and earnings and reduced welfare dependency.

Economic Research and Analysis develops and disseminates statistical and labor market information regarding employment, unemployment, labor force, average wages, industry and occupational projections, labor supply and demand. The goal of this program is to provide quality information that will improve the functioning of labor markets by serving the needs of workers, employers, economic developers, planners and policy makers.

## **HUMAN SERVICES, DEPARTMENT OF (830)**

### **MISSION**

The Mission of the Oklahoma Department of Human Services is to help individuals and families in need help themselves lead safer, healthier, more independent and productive lives.

### **THE COMMISSION**

The Department of Human Services is under the governance of the Human Services Commission which is composed of nine members appointed by the Governor and selected on the basis of recognized interest in and knowledge of the problems of public welfare. Members are appointed for terms of nine years. Commission members are to be at least thirty years of age, a citizen of the United States, and an Oklahoma resident for at least five years. The commission chairman is designated by the Governor. The commission formulates policies and adopts rules and regulations for the effective administration of the duties of the department.

### **DUTIES/RESPONSIBILITIES**

The Department of Human Services (DHS) is charged with the administration and fulfillment of all laws and legislative resolutions enacted pursuant to the authority granted under the Oklahoma Social Security Act and other duties that have from time to time, been prescribed by law. As authorized by the adoption of Initiative Petitions 154 (establishing the Department) and 155 (establishing the State Administration Fund) in 1936, the DHS is designated as the single state agency responsible for the administration of a variety of state programs and for obtaining federal reimbursement where available. This designation makes the DHS responsible for a broad range of income support programs, medical services, institutional care programs, home and community programs and other social services. In the material below, descriptions are given of the individual functions and responsibilities of each DHS component.

**FAMILY SUPPORT SERVICES DIVISION:** Working through offices located in all counties of the state, the Family Support Services Division has responsibilities in three major program areas: Financial Assistance, Family Social Services and Food and Nutrition Services. Financial Assistance Program responsibilities include developing and monitoring the implementation of policies and procedures for determining eligibility for Temporary Assistance to Needy Families (TANF), Food Stamps, Low Income Home Energy Assistance Payments (LIHEAP), Medical Assistance, Refugee Assistance via contracts and State Aid to the Aged, Blind and Disabled. Family Social Service responsibilities include developing and monitoring the implementation of policies and procedures for determining eligibility and developing service plans for child care, TANF work, health-related services and refugee social services.

**CHILDREN AND FAMILY SERVICES DIVISION:** The Division of Children and Family Services (DCFS) administers programs to children and families at the home, community and residential level. Field staff administered by the Office of Field Operations, specialize in child welfare services and program delivery. The DCFS also administers two shelter programs: the Oklahoma County Juvenile Center in Oklahoma City and the Dester Center in Tulsa. The mission of the DCFS is to provide programs and services necessary to prevent or reduce the abuse, neglect or exploitation of children, preserve and strengthen families, and to provide permanency planning for children in the system. A continuum of placement services is provided for children placed in DHS custody who cannot remain in their own homes. A statewide hotline and central child abuse/neglect registry are also maintained by the division.

**FIELD OPERATIONS DIVISION:** The Field Operations Division is responsible for coordinating the delivery of all agency services at the local level as well as supervision of local Child Welfare, and Family Support programs. Coordination includes the integration of agency programs to fill service gaps and avoid duplication as well as developing and maintaining linkages with other agencies. These responsibilities are accomplished primarily through county directors in 87 local offices across the state. Six area directors provide supervision and technical support to county directors in the six major geographical areas of the state. County directors oversee personnel, housing, equipment and supplies for all local staff housed in the county. They coordinate with all program divisions to ensure that client and staff needs are met, serve as chief spokespersons for the DHS in the community, and establish and maintain linkages with other human service agencies. The Office of Field Operations also directs the AIDS Coordination and Information Services (ACIS) Unit. This unit works with DHS divisions and other public and private entities to coordinate the development and

provision of services to persons with AIDS and HIV infection. This unit directs statewide program activities of the Field Operations Division's HIV/AIDS case management services through Tulsa, Oklahoma and Comanche county offices. HIV/AIDS care coordinators assist hundreds of persons with HIV disease in accessing needed health care and social services.

**AGING SERVICES DIVISION:** The Aging Services Division (ASD) serves as the focal point for all matters relating to the needs of older persons within Oklahoma. ASD works with and through DHS county offices, area agencies, local governments, local agencies and organizations of older persons. The division serves as an effective and visible advocat for older persons and for planning, developing, conducting, monitoring and evaluating programs and services. The State Council on Aging serves in an advisory capacity to the division, DHS, the Legislature and the Governor. The National Senior Service Corps allows senior citizens to participate in their communities through volunteer services with emphasis on intergenerational programs. The Volunteer Service Credit Bank Program encourages volunteers to provide in-home services to homebound persons and respite for family caregivers. Through congregate and home delivered meal programs and nutritional education, this division enables older persons to have the opportunity for adequate nutrition and social interaction with their peers. By providing transportation and in-home personal care, many frail and elderly individuals are able to avoid unnecessary institutionalization and to live independently in their own homes. The division administers the ADvantage program, a Medicaid waiver program for frail elders and adults with physical disabilities, it provides an opportunity for individuals who are eligible for nursing facility level of care to receive services while they remain at home in the community. The program, now available statewide, was developed through the division's Community System Development Project. Services which can be obtained through the ADvantage Program include case management, personal care, skilled nursing care, adult day health care, home delivered meals, home modifications and prescription drugs. Other services such as legal services, geriatric day care, counseling, escort, outreach, information and referral also enhance the independence of older individuals. Adult protective services protect vulnerable individuals who are at risk from abuse, exploitation or neglect. Division staff are responsible for policy, training, technical assistance and quality assurance for the program; most investigations are done by local Field Operations staff, Division long-term care investigators and ombudsmen who investigate and resolve complaints from facilities involving abuse, neglect, nursing care, financial management, sanitation, food service and other issues of concern to residents and their families. Long Term Care Ombudsman Office representatives advocate for the elderly in long-term care facilities through individual problem response as well as systems advocacy in the regulatory and legislative arenas. ASD is in liaison with other DHS service programs on matters concerning the elderly and with other state agencies and several aging organizations. Through educational and training programs, volunteer organizations, and a wide range of media activities, public awareness is heightened on the positive contributions made by the elderly as well as their need for services. Special activities include a state conference on aging, an elderly abuse state conference, sessions of the 'Silver Haired Legislature', senior advocates activities, Senior Classic Games and special efforts to represent the interests of minority and handicapped elderly persons.

**DIVISION OF CHILD CARE:** The primary responsibility of the Office of Child Care is to assure that Oklahoma children and their parents have access to licensed, affordable, quality child care. This is accomplished through the administration of the federal Child Care Development Fund, the statewide licensing program that monitors child care programs for compliance with minimum requirements, and encouraging facilities to upgrade to a Two-Star level or a Three-Star level.

**CHILD SUPPORT ENFORCEMENT DIVISION:** The Child Support Enforcement Division has responsibility for the establishment and enforcement of the child support responsibilities of absent parents. Pursuant to Title IV, Part D, of the Social Security Act, every state must designate a single state agency to administer a statewide plan for child support enforcement. The DHS has been designated as that agency and, in turn, has established a Child Support Enforcement Division (CSED) to administer the plan. The primary function of the CSED is to provide child support enforcement services in all TANF and medical assistance cases and in non-TANF cases for individuals who have applied for services and have paid a \$25 fee (unless the non-TANF case is converted from an TANF case). In addition, the CSED provides these services in all interstate cases forwarded by Title IV-D agencies of other states. Pursuant to Oklahoma's State Plan for Child Support Enforcement, the CSED has four major responsibilities: (1) to establish paternity, (2) to enforce child support, (3) to locate absent parents, and (4) to collect and distribute child support payments. Paternity, child support obligations, medical support obligations and collections are established through administrative and court actions. Child support, medical support and in some instances, spousal support obligations are enforced through administrative and court action. Methods of enforcement include wage assignment, contempt orders, federal and state tax return intercepts, liens on real and personal property and various other remedies. Absent parents are located through the establishment

and use of links in Oklahoma and in other states with local, state and federal agencies. Links such as law enforcement agencies, the Department of Public Safety, the Oklahoma Employment Security Commission, the Oklahoma Tax Commission, the Department of Defense, the Internal Revenue Service, the Federal Parent Locator Service and various private sources are utilized. Child support payments are collected and distributed in accordance with state and federal law. Each office is staffed by child support case workers; most have investigators and a full or part time assistant district attorney or staff attorney. The state office provides administrative support to local offices. Responsibilities of the state office include coordination of automated links and information exchange with state and federal agencies and with agencies in other states, administration of the Federal and State Tax Intercept Program, the Unemployment Compensation Intercept Program, processing and distribution of all child support payments and other required financial and accounting activities, operation of a central registry of all incoming interstate child support cases, administration of various contracts maintenance of certain records, policy development, program monitoring, training and legal advice.

**DEVELOPMENTAL DISABILITIES SERVICES DIVISION:** The Developmental Disabilities Services Division is responsible for the administration and coordination of a full range of community-based and institutional programs for Oklahomans who are developmentally disabled. Services are supplied to children and adults with disabilities as well as the families of these individuals. The division supplies community services mainly through contracts with private corporations. Residential services, which vary from serving one to twelve individuals per home, include supported living specialized foster care, adult companions, group homes and assisted living. Employment services include sheltered workshops and community integrated employment. The range of support services available include therapy psychological services, habilitative training, nursing services, architectural modifications, adaptive equipment, transportation, emergency services and family income support. Three area offices operated by the division provide case management services to many of the individuals receiving community services. Community services are individualized to meet the unique needs of the persons served and are intended to enable persons with developmental disabilities to successfully live, work, learn and recreate in the least restrictive environment. In accordance with Public Law 100-203, the division is responsible for arranging alternative community services for individuals with mental retardation who reside in nursing facilities and have expressed a desire to relocate. The division directly and through contract provides specialized services to those persons that have chosen to remain at nursing facilities. This division is also responsible for the operation of three Intermediate Care Facilities for the Mentally Retarded (ICF/MR's). These facilities are: The Northern Oklahoma Resource Center at Enid, the Southern Oklahoma Resource Center at Pauls Valley, and, by contract, the Robert M. Greer Center. In cooperation with the Oklahoma Health Care Authority, the division contracts with private corporations to deliver ICF/MR programs in twenty-four facilities. ICF/MR programs provide a full range of residential, therapy, health care and active treatment twenty-four hours a day. These programs are certified and licensed by the Oklahoma Department of Health in accordance with federal regulations.

**OFFICE OF FINANCE:** The Office of Finance, under the Direction of the Chief Financial Officer, supports the delivery of program services by presenting the agency's annual Budget Request, preparing and monitoring the annual Budget Work Program, monitoring receipts and expenditures, processing vendor and some client payments, producing financial reports and statements to meet state and federal requirements, preparing the agency payroll, distributing food stamps and administering the Electronic Benefit Transfer (EBT) program for distribution of client assistance payments.

**OFFICE OF VOLUNTEERISM:** The Office of Volunteerism utilizes volunteers to provide services, staff support and resource development in each division of the agency. Volunteer services are used throughout DHS to augment the agency's mandated programs and fill gaps in available services. Programs utilizing volunteerism include Visitor or Companion, Mom-to-mom, Mentor or Special Friend, Tutoring, Transportation, and Share-a-trip.

**OFFICE OF CLIENT ADVOCACY:** The Office of Client Advocacy (OCA) provides a variety of protection and advocacy services for DHS clients. OCA's Ombudsmen provide advocacy assistance to individuals with developmental disabilities. An Ombudsman is a person who assists individuals in resolving problems with regard to services they need and the quality of those services. Their mission is to provide an independent, proactive voice for all clients to ensure their safety and the delivery of services and programs in a fair, honest and professional manner. OCA's investigation unit promotes the protection of Oklahoma's citizens by investigating allegations of abuse, neglect, mistreatment, and financial exploitation with regard to all children living outside their homes (except for foster home placements and children living with relatives) and certain individuals with developmental disabilities, including those who reside in DHS operated facilities. Any person having reasonable cause to believe an individual served by OCA has been subjected to abuse, neglect or financial exploitation is required to promptly report it to OCA's intake. In the past few years, approximately one

third of OCA's investigations have resulted in a finding that abuse, neglect, mistreatment, and/or exploitation had occurred. OCA also coordinates and monitors the DHS grievance system for resolution of grievances/complaints of a person who received services from DHS for whom there is no other grievance system. OCA's main office is on the first floor of the Sequoyah Building in Oklahoma City. It also has offices in Tulsa, Muskogee, Pauls Valley and Enid. In addition to the Advocate General, OCA's staff consists of three programs administrators, six supervisors, twenty-one Ombudsmen, twelve investigators, and support staff.

OFFICE OF THE INSPECTOR GENERAL: The Office of the Inspector General investigates situations that involve possible fraud, abuse or error, to assure DHS accountability in all programs administered by the department. Investigations may involve recipients, vendors, service providers or employees. Particular emphasis is placed on these programs: Temporary Assistance to Needy Families (TANF), Medicaid, Daycare and Food Stamps. The Audit Unit conducts financial, compliance and special purpose audits. These may be conducted either within the DHS or externally. Subjects of external provider audits may include vendors, day care centers or any other parties having contractual arrangements with the department. The Administrative Review Unit conducts quality control reviews on (TANF), Medicaid, and Food Stamp cases to determine the accuracy of local offices in administering policies regarding eligibility determination and benefit amounts and helps identify ways to improve performance.

The estimated numbers are based on increased funding in the maintenance budget for 408 persons. This amount will only slow the rate of increase as a net of 600 persons have been added each year in recent years to the waiting list. - \* Because much of what the OIAC does to meet its mission is based on communication, improving written, oral, and telecommunication methods is integral. The OIAC develops plans of development and implementation for each product or activity to ensure that the information communicated is (1) accurate and factual, (2) cost-effective in staff time and delivery, and (3) targeting the maximum audience. Performance measurements for this goal include (1) By 2004, purchase an upgraded facsimile machine and a minimum of four upgraded computer workstations to re-establish uniformity of hardware and programs and increase the level of staff productivity by 20%, decrease staff production time by 25% and decrease the expenditures for external vendors by 25%.

**JUVENILE AFFAIRS, OFFICE OF (400)**

**MISSION**

The Office of Juvenile Affairs is a state agency entrusted by the people of Oklahoma to provide professional prevention, education and treatment services as well as secure facilities for juveniles in order to promote public safety and reduce juvenile delinquency. (Refer to Title 10, Section 7301-1.2)

**THE BOARD**

The Board of Juvenile Affairs is composed of seven members appointed by the Governor with the advice and consent of the State Senate. One member is appointed from each of the state's five Congressional districts and two are appointed from the state at large. Pursuant to HB 2612 enacted during the 2004 session, Board members appointed after July 1, 2004 will be appointed for terms of four (4) years, and they shall include persons having experience in social work, juvenile justice, criminal justice, criminal-justice-related behavioral sciences, indigent defense, and education. In making the appointments, the Governor shall also give consideration to urban, rural, gender, and minority representation.

**DUTIES/RESPONSIBILITIES**

In 1994, the Oklahoma Legislature passed the Juvenile Reform Act (H.B. 2640), which created the Office of Juvenile Affairs (OJA) as the state juvenile justice agency, effective July 1, 1995, which is governed by the Oklahoma Board of Juvenile Affairs. The Board is composed of seven individuals, appointed by the Governor, from all areas of the state.

OJA was given the responsibility and authority to develop and manage the state's juvenile justice system. This ushered in a new era of innovative programs, community involvement and enhanced relationships with the judiciary. As a result, the justice system provides a wide variety of placement options and consequences for juvenile delinquent offenders. Treatment affectively uncovers root causes and helps bring healing and renewal. Recidivism is down and juveniles are learning to focus on their future.

As stated in Title 10, O.S., Section 7301-1.2, the Office of Juvenile Affairs is to promote the public safety; and reduce delinquency.

\* Oklahoma employs a more rigorous definition of recidivism than many states. OJA captures information about arrests for felonies and misdemeanors, post arrest stipulations of guilt involving prosecution agreements and post arrest convictions or adjudications and allows ample tracking time. Many other states either do not measure recidivism or limit their measures to either arrests or convictions, but not both. Other states only measure re-incarcerations.

Although there is no such thing as a national average for recidivism because programs differ, recidivism definitions vary, and placement criteria differ, some very general comparisons can be made between Oklahoma and other states. These comparisons involve programs where there are similarities such as secure institutions and staff secure group homes. The following rankings for recidivism were developed based on a survey of states undertaken in FY2001. Comments have been added to elaborate on some of the variation in measurement.

## CORRECTIONS DEPARTMENT (131)

### MISSION

The mission of the Oklahoma Department of Corrections is to protect the public, the employees and the offenders.

### THE BOARD

The Oklahoma Department of Corrections was created May 1, 1967, as a result of the 1967 Oklahoma Corrections Act. The Department is governed by the state Board of Corrections, a seven-member bi-partisan panel of gubernatorial appointees serving six-year staggered terms. One member is to be appointed from each of the six Congressional Districts; the seventh is selected from the state at large. Not more than four members of the Board shall be from the same political party. The Board is empowered by statute to set policies for the operation of the Department, to establish and maintain institutions as necessary and to appoint a Department Director. Meetings of the board are conducted monthly and are normally open to the public. Meeting locations are throughout the state to encourage local participation and attendance.

### DUTIES/RESPONSIBILITIES

The Division of Administration is responsible for support functions such as personnel, data processing and information systems, purchasing, statistical and inmate research, finance and accounting, human resources, employee assistance, and operating a central mail room and print shop. Also, this division supervises prison industries which includes manufacturing and agricultural production. This involves the manufacture of furniture, modular buildings, road signs, license plates, clothing, and other items tailored to meet changing market demands. Agriculture production consists of cattle, dairy, pigs and eggs. A meat processing plant also exists and other agricultural activity occurs as needed to meet prison population requirements.

Internal Affairs is responsible for conducting internal investigations. This area monitors and controls all internal investigations within the Agency.

The Administrator of Internal Audit conducts all financial related audits within the Agency and other audits as directed.

The Division of Medical Services is responsible for planning, developing, providing and documenting health care services to meet the needs of all inmates in department facilities.

The Division of Staff & Organizational Development oversees the training academies and management training. This involves monitoring course development and effectiveness.

The Division of Operations Support is responsible for national accreditation of facilities, management of offender programs to include all educational activity, inmate classification, placement and transportation, environmental safety and sentence administration. Also, the management of all contracted services from private prisons, halfway houses and county jails.

The Eastern Region is responsible for the operations of nine prisons in the eastern part of the state. This region consists of Howard McLeod CC, a male offender minimum security facility located at Farris; Jackie Brannon CC, a male offender minimum security facility located at McAlester; Mack Alford CC, a male offender medium security facility located at Stringtown; James E. Hamilton CC, a male offender minimum security facility located at Hodgen; Oklahoma State Penitentiary, a male offender maximum security facility at McAlester; Dick Conner CC, a male offender medium security facility located at Hominy; Eddie Warrior CC, a female offender minimum security facility located at Taft; Jess Dunn CC, a male offender minimum security facility located at Taft; and Northeast Oklahoma CC, a male offender minimum security facility located at Vinita.

The West Central Region is responsible for the operation of eight prisons in the west and central part of the state. This region consists of Oklahoma State Reformatory, a male offender medium security facility located at Granite; William Key CC, a male minimum security facility located at Ft. Supply; John Lilley CC, a male offender minimum security facility at Boley; Joseph Harp CC, a male offender medium security facility located at Lexington; Lexington Assessment and

Receptions Center (A&R) which is the receiving point for all incarcerated offenders entering the system and a male offender medium security facility at Lexington; Mabel Bassett CC, a female offender minimum, medium, and maximum security facility at McLoud; Bill Johnson CC, a male offender minimum level facility located at Alva; and James Crabtree CC, a male offender medium/minimum security facility located at Helena.

The Division of Community Corrections is responsible for the operation of five community corrections centers, fifteen inmate work centers, state-wide probation and parole operations and community sentencing. Community sentencing is responsible for implementing community corrections as specified by statute. This involves responsibility for the Community Service Sentencing Program and thirty-eight state-wide planning councils.

The Division of Legal Services provides legal representation for the department in matters involving inmates and staff. They also provide legal representation for all legal documents, contracts and negotiations with private and public concerns.

**Goal: Secure Management of Sentenced Offenders in Correctional Facilities:**

**A premium is placed on offender classification and management systems when incarceration rates maintain themselves at or near physical plant capacities. Many of the facilities today operated by the Oklahoma Department of Corrections were not originally designed for offender housing. These facilities became correctional institutions after their original design use was no longer needed by the state. Despite extensive renovations and constant maintenance, physical plants suffer from age, over use and inadequate design. Housing limitations become a security problem when bed space fails to meet system demands and restrictive housing cells fill up throughout the system. Institutional staffing levels directly relate to a facility's design and security level. Budgetary constraints have increased staff vacancy rates and created additional challenges that impact offender programs, education and infrastructure needs.**

- \* Total Number of Inmate Escapes - All security levels (Outcome Measurement)  
Most inmate escapes occur at non-secure facilities. One of the goals of a good classification system with periodic review is placement of offenders at the lowest classification level commensurate with the inmate's propensity to offend while incarcerated in a correctional institution. While offender action is difficult to predict, good classification systems reduce risk and increase public safety by ensuring offenders with the greatest potential for escape are appropriately classified. The goal will be to keep lower security offender escapes below historical trends and offenders housed in secure facilities at a zero escape rate.

- \* Number of inmates housed in correctional facilities (Input Measurement)  
The number of sentenced offenders and their offender classification level identifies bed space need. With the establishment of 85 percent crimes, the need for secure bed space is expected to rise over time with these "deadly sins" offenders spending more time in a correctional setting. Oklahoma's high incarceration rate per capita indicates that court-sentencing practices are fairly consistent. The Criminal Justice Resource Center (CJRC) projects offender population projections will continue to increase. FY 2005 to FY 2010 numbers are based upon the CJRC estimate. Actual offender counts are already exceeding this very conservative projection.

**Goal: Promote Successful Re-Entry of Offenders:**

Successful re-entry begins at reception, continues throughout the incarceration process and does not end with the offender's release from the Department of Corrections. Every offender, whether incarcerated or supervised in the community, should be provided an opportunity for self-improvement to include skills development and behavior modification. Every offender must somehow address how he or she can become a productive member of the community upon release. Programs that support this objective need to be continually monitored and evaluated to ensure they are effective and are providing the needed services.

Offender incarceration cost the state precious resources and tends to reduce the incarcerated individual's future economic opportunities. Successfully addressing offender criminogenic needs has long-term benefits for both the offender and society by reducing recidivism and restoring that person's benefit to society.

- \* Number of offenders completing general education diploma program (Output Measurement)  
Research indicates that offender participation in cognitive behavior programs has a direct correlation with reduction in criminogenic behavior. Increased offender participation in cognitive based treatment related services are a direct result of the availability of those services, however it is up to the offender upon enrollment to successfully complete course requirements.

**Goal: Provide Constitutional and Efficient Medical Care To Offenders:**

The Department of Corrections is no longer under federal court intervention as a result of successfully prevailing in a twenty-seven year old court case that addressed offender conditions of confinement. Major improvements to Oklahoma's offender healthcare system helped to resolve this litigation. The state must ensure that adequate medical care does not again erode to a point where court intervention is deemed necessary.

Nationally, healthcare costs are rising faster than the general inflation rate. Advances in medical knowledge, technology and healthcare standards are combining to create an environment where expectations often exceed resources. The challenge for the future is to ensure constitutionally required medical services are met within available resources.

- \* Number of community hospital patient days. (Efficiency Measurement)

Offender hospitalization utilizes three different types of options. First, hospitalization can occur at OUMC without charge to the department if the offender has been referred to that facility and OUMC accepts the offender for hospitalization. Second, offender hospitalization can occur at LMH under the agreement between the department and Lindsay Hospital Authority Trust. Third, hospitalization can occur in the community. This option requires the department to provide security services at a greater level than required by the other two options and, therefore, is the most expensive option. Economic advantages occur to the department's budget when OUMC and LMH utilization is increased.

The department, until January 2001, used Griffin Memorial Hospital (GMH) for most of its secondary medical services. Inmate medical services at GMH by law were provided without charge to the department. The closure of GMH brought about a need to replace these medical services in a cost efficient manner. The department entered into an agreement with the Lindsay Municipal Hospital Authority Trust to modify its closed hospital and reopen it as a joint use facility. After extensive modifications and upgrades this hospital was reopened in July 2002.

- \* Expenditures for specialty appointments completed by other contract providers. (Efficiency Measurement)

The management of chronic and serious illness requires greater levels of medical care. National trends indicate that the cost of these services is rising faster than the inflation rate. Prior to its closure Griffin Memorial Hospital (GMH) provided many of these services without charge to the department. The Lindsay Municipal Hospital agreement does not replace in total the loss of GMH services, but does increase the cost of delivering those services since the department is now billed for these costs.

It is a delicate balancing act to manage a correctional health care delivery system because of the need to transport inmates, address security concerns, and ensure needed care is provided in a timely manner. The department utilizes a system of regional supervising physician reviews to ensure decisions are made in a timely and efficient manner without compromising care. When adverse trends are identified corrective action is applied.

The number of sentenced offenders and their offender classification level identifies bed space need. \* Number of inmate assaults on staff. An (Outcome Measurement) of system performance

A well-managed correctional system that properly classifies its inmate population, employs a professional and well-trained staff, and utilizes its resources efficiently reduces physical risk for both the staff who work there and the inmates who live there. One measurement of how secure a facility is the number of assaults on staff. While zero assaults are not realistic it is the ultimate goal. The five year average for the period FY 2000 to FY 2004 was 190 inmate on staff assaults. It is this average that the department is trying to reduce.

**Program: 1 through 17 - Prison Operations**

**Goal: Secure Management of Sentenced Offenders in Correctional Facilities**

- \* Average inmate to correctional officer ratio. A (Risk Measurement) assessing the risk environment.

Correctional officer (CO) to inmate staffing ratio needs are affected both by facility design and operational security needs. Older, less efficient and secure facilities require lower officer staffing than the more modern facilities. The FY 2002 Corrections Yearbook identified an average inmate to correctional officer ratio of 5.5 nationwide. A 2002 National Institute of Corrections study of Oklahoma's inmate to officer ratios indicated that even if authorized positions were fully funded, it would still leave DOC with a lower than average officer staffing ratio. The 100 percent authorized level ratio is 6.1 inmates to one officer. Of course this ratio fails to reflect actual operational realities of a 24/7 working environment but is useful for national average comparisons.

Inmate to C.O. ratio	7.5		8.5	7.9	7.5
----------------------	-----	--	-----	-----	-----

- \* Number of reported offender misconducts (Outcome Measurement)  
An offender disciplinary process is utilized to ensure an inmate receives due process when an alleged violation of inmate/offender rules of conduct has occurred. This process begins with an "offense report" being written and progresses to a (disciplinary hearing) with a complete review of all relevant facts and evidence. There are basically three ranges of allowable sanctions (Class X, A, and B), with a Class X being the most severe. Well-managed systems of incarceration facilitate positive offender behavior with reduced misconduct trends.

- \* Average cost per inmate day - public facilities. An (Efficiency Measurement) of operating costs at public facilities. There are many factors that identify how much it cost to operate an institutional facility. Large, modern designed facilities allow for higher occupancy levels with lower inmate to staff ratios. Smaller, older designed facilities require more staff resulting in higher inmate to staff ratios. Many of Oklahoma's correctional facilities are older, smaller occupancy level facilities with many of them not originally designed for correctional purposes. The 2000 Corrections Year Book national state average daily cost of incarceration was listed at \$57.92 per day. The inflation growth factor used for the FY 2005 - FY 2008 per diem rates is based on a 4.12% historical average growth trend based on FY 2003 expenditures,

Inmate Unit Cost	\$45.17	\$44.22 budgeted	\$43.66	\$44.66
------------------	---------	------------------	---------	---------

- \* Number of maximum/medium institution escapes. An (Outcome Measurement) that acts as a determinate for security measures and their effectiveness.

Oklahoma has approximately 58 percent of its public and contract bed space designated as secure beds. Most inmate escapes occur at non-secure facilities. One of the goals of a good classification system with periodic review is placement of offenders at the lowest classification level commensurate with the inmate's propensity to offend while incarcerated in a correctional institution. While offender action is difficult to predict, good classification systems reduce risk and increase public safety by ensuring offenders with the greatest potential for escape are appropriately classified.

It is often said that idle hands are the devils workshop. It is also a fact that many offenders who enter prison do so because they have poor work habits and little or no job skills. This program is a fully integrated production effort that provides all the meat and dairy products consumed by the Department. While not totally self-supporting, The Agricultural Services Division does efficiently provide needed food products at cost for institutional use while providing agricultural industry experience to inmates for future job opportunities upon release.

Assignment of inmates to GPS Surveillance Program began during June 2004, with a count of 27 inmates. A total of 76 inmates have been assigned to the program since the initial placement. The current count is 49. The low count is indicative of the rapid turnover of the population. A total of 132 inmates have been reviewed for placement into the program. Fifty six have been denied placement due to eligibility requirements or due to prior criminal history. Two offenders have been removed from the program due to rule violations.

* Annual growth in the number of offenders participating in community programs in lieu of being incarcerated (Output Measurement). The continuum of community punishments includes community sentencing, drug court, mental health court, intermediate parole sanctions, and sanction centers. Offenders who receive a community sentence do so for a wide range of offenses. It appears from recent sentencing data that the greatest percentage of offenses for which offenders receive a community sentence is for substance abuse crimes. Property crimes, which encompass crimes such as uttering forged instruments and larceny of merchandise, make up the next largest category. - \* Percentage of non-violent offenders with 0 prior felony convictions that receive community sentencing sanctions (Input Measurement). There is a tendency for new community corrections programs, intended for offenders who were likely to be prison-bound to become filled with low risk, non-violent offenders who were probable candidates for traditional probation. It is likely that offenders with no prior felony conviction would have received a traditional probation sentence without the availability of Community Sentencing. If Community Sentencing is to impact prison receptions, planning councils should not target offenders with prior felony convictions.

Community sanctions	43%	47%	43%	41%
---------------------	-----	-----	-----	-----

- \* Percentage of Community Sentencing offenders with three or more prior felony convictions (Input Measurement).

The Oklahoma Community Sentencing Act mandates that local sentencing systems endeavor to reduce future criminal behavior by targeting appropriate offenders for specific punishments. The assessment process is designed to assist the courts in the identification and prioritization of the criminogenic needs of each offender so that conditions appropriate to an individual's circumstances can be imposed. Community Sentencing is intended to reduce the number of non-violent, low risk offenders sentenced to prison and provide appropriate sanctions in the community to address identified criminogenic needs. It is important to target for participation in the community corrections programs those offenders who are likely prison-bound rather than those offenders who are probable candidates for probation. Thus, it is desirable to increase the percentage of Community Sentencing offenders who have three or more prior felony convictions and decrease the number of offenders with no prior felonies. If Community Sentencing is to have its desired impact on reducing the number of non-violent offenders given prison sentences, planning councils must stress the targeting of offenders with three or more prior felony convictions.

Second, offender hospitalization can occur at Lindsay Hospital under the agreement between the Department and Lindsay Hospital Authority Trust. Third, hospitalization can occur in the community but this option requires the Department to provide security services at a greater level than required by the other two options and therefore is the most expensive option.

- \* The Department, until January 2001, used Griffin Memorial Hospital (GMH) for most of its secondary medical services. Inmate medical services at GMH by law were provided without charge to the Department. The closure of GMH brought about a need to replace these medical services in a cost efficient manner. The Department entered into an agreement with the Lindsay Municipal Hospital Authority Trust to modify its closed hospital and reopen it as a joint use facility. After extensive modifications and upgrades this hospital was reopened in July 2002. Clinical services had begun earlier in February 2002.

**FIRE MARSHAL (310)**

**MISSION**

To promote safety and awareness and reduce the loss of lives and property to the citizens and businesses of Oklahoma through public education, investigations, inspections, building plan reviews, code enforcement and statistical data collection.

**THE AUTHORITY**

The Oklahoma Fire Marshal Commission consists of seven (7) members appointed by the Governor to staggered terms of five (5) years. The statewide association of career and volunteer firefighters (OSFA), the statewide association of fire chiefs (OFCA), and the statewide association of municipalities (OML) each have a representative on the Commission. One member shall be a Safety Engineer. The fifth member is selected by the Governor. Each appointment requires Senate confirmation.

**DUTIES/RESPONSIBILITIES**

State Fire Marshal agents are located throughout the state. The Fire Investigation Division investigates crimes of arson, conspiracy to commit fraud by arson and other laws of the state and accurately maintains records of all investigations conducted. Investigating agents work in conjunction with city and county law enforcement officials to secure convictions and testify in court as expert witnesses when necessitated.

The Code Enforcement Division conducts life safety inspections in nursing homes, schools, childcare centers, hospitals and other public use buildings. The Agency issues orders for condemnation or repair of dangerous, dilapidated buildings that constitute a hazard to life or property. The Agency examines plans and specifications of certain types of new construction or remodeling to ensure minimum safety standards adopted by the Commission and State Legislature. The Agency is authorized to assist any city, town or county in the enforcement of the building codes and standards adopted by the state. The Agency issues permits and enforces the laws governing transportation, storage and use of explosives and inspects, at least once a year by statute, all public and private correctional facilities, room and board houses and juvenile institutions.

The Agency compiles and documents every fire in the state by receiving annual incident reports from all fire departments in the state as required by law. This information is collected under the Oklahoma Fire Incident Report System (OFIRS) as directed by the State Fire Marshal Commission and reported nationally. Agency personnel participate and/or coordinate fire prevention programs with public, private and educational organizations and volunteer and municipal fire, police and sheriff departments.

**INDIGENT DEFENSE (47)**

**MISSION**

The Oklahoma Indigent Defense System implements the Indigent Defense Act by providing trial, appellate and post-conviction criminal defense services to persons who have been judicially determined to be entitled to legal counsel at State expense. The mission of the System is to provide indigents with legal representation comparable to that obtainable by those who can afford counsel and to do so in the most cost effective manner possible.

**THE BOARD**

The Board of Directors is composed of five members appointed by the Governor for five-year terms with the advice and conser of the Senate. At least three Board members must be attorneys with criminal defense experience who are licensed to practice law in the State. The Governor designates one member as chair for the Board. No congressional district or county may be represented by more than one member on the Board. A Board member continues to serve until a successor is appointed, qualified, and confirmed by the Senate.

**DUTIES/RESPONSIBILITES**

The Oklahoma Indigent Defense System is appointed by the courts to represent all adult and juvenile indigents in 75 counties who are charged in felony, misdemeanor, and traffic cases punishable by incarceration. The System is appointed by the courts to represent all adult and juvenile indigents in 75 counties where the State is seeking the death penalty. The agency continues to represent those court appointments made prior to July 1, 2003, in the remaining two counties where the county public defenders had a conflict of interest in a death penalty case.

Upon conviction, the System is appointed by the courts to represent defendants on direct appeal to the Oklahoma Court of Criminal Appeals and, in death penalty cases, in post-conviction proceedings before the Oklahoma Court of Criminal Appeals. The System is responsible for capital and noncapital direct appeals from judgments and sentences, including death sentences, imposed in 75 counties and in the remaining two counties if the indigent appellant was represented at trial by retained counsel or by court-appointed counsel other than the county public defender or where the county defender has a conflict of interest on appeal. The System is responsible for all capital post-conviction appeals in the State, including those where the indigent appellant was represented by a county defender on direct appeal.

**Goal: Improve the level of service provided to the public by the private security and private investigative industries.**

- \* This measure reflects the number of complaints against security guards, private investigators, and agencies. It is CLEET's goal to reduce the number of complaints in FY-2004 by 20% in FY-2010.

Complaints on licensees	291	206	202	194
-------------------------	-----	-----	-----	-----

- \* This measure will illustrate the trend in licensing for security guards and private investigators. This number was projected to increase on a national level annually by 3% through FY-08. During the past five years, activity in Oklahoma decreased overall by 4%, fluctuating with the economy and perception of safety. In part, the lack of compliance work to check for unlicensed activity may have contributed to fewer licenses also. Due to the improved job market, Oklahoma is expected to see an increase in licensing over the next five years. Increases for subsequent years has been projected to 1.7% increase per year through FY-2010 to more accurately reflect Oklahoma's experience.

**PARDON AND PAROLE BOARD (306)**

**MISSION**

The mission of the Pardon and Parole Board as a vital part of the Criminal Justice System is to determine the best possible decision, through a case-by-case investigative process and to protect the public while recommending the supervised release of adult felons. Although, in recent years the Board has been mandated to assist with alleviating prison overcrowding, it remains our goal to maintain a low revocation and recidivism rate for the State of Oklahoma.

Administrative staff provides quality and timely information to the Board members and Governor enabling informed clemency decision(s) on adult incarcerated felons.

Our staff notifies victims/representatives, offender's families, general public and criminal justice agencies to allow them to provide input throughout the clemency process.

**THE BOARD**

The Pardon and Parole Board is a constitutional, (Article 6.10) five-member, part-time body charged with making clemency recommendations to the Governor concerning convicted adult felons. Members of the Board are appointed, three by the Governor, one by the Chief Justice of the State Supreme Court, and one by the presiding Judge of the Court of Criminal Appeals. They hold office co-terminous with that of the Governor. Board members are removable only for cause in the manner provided by law for elected officers not liable for impeachment. The Board meets several days each month at one of the State penal institutions. Upon Board recommendation, the Governor has the authority to make the final decision on the granting of clemency, with the restrictions and stipulations recommended by the Board.

**DUTIES/RESPONSIBILITIES**

The Board appoints an Executive Director who employs a full-time staff and administers the daily operations of the agency. The staff determine eligibility, based on the law, for each person sentenced to the Department of Corrections, prepares an extensive investigative report that includes a recommendation to the Board, provides notifications to victims/representatives and various entities as required by law and processes parole recommendations.

**Program: Administrative Services**

**Goal: Keep Oklahoma as one of the most successful release programs**

- \* The number of paroles that returned to prison during the same fiscal year. Ideally, you would want to measure the revocations to see how long they had been successful before being revoked. Nationally the average considered successful is if they have been out for three years or longer, however we don't have the capability to monitor each person against the date released and the date returned. Some of these might have been counted as "successful" if they had been out for at least three years. We only know that this many went out during the fiscal year and this many came back in this fiscal year and they had not completed their sentence so they are unsuccessful returns whether they had been out 1 year or 4 years. We are only measuring actual paroles here because they are the only ones that can be revoked.

<b>Goal: Provide adequate staffing levels</b>				
* This measure is to compare the docket assignment average to the investigative staff. The ideal caseload assignment should be 30 to research the file information and prepare the extensive investigative report each month. This is especially critical in medium/maximum security levels where the files on one person are very large due to the long sentences. It is critical for the investigator to take the time to carefully research the file, check the chronology and the eligibility of the person, both for legal and policy reasons. Currently the average caseload is about 49 and projected to continue to climb. We are requesting two investigators to assist with locations who have very large caseloads but they are not included in this projection.

- \* This measure indicates the number of passenger trips made by the Department's federally funded public transit projects. The ridership shown is based on the state fiscal year. The increase from 2003 is due in part to the improved effort to coordinate our transportation service with human service agencies and the Road to Work program.  

Public transit trips	1,406,561	2,082,059	2,100,000	2,200,000
----------------------	-----------	-----------	-----------	-----------
- \* This measure indicates the expenditures per lane mile for routine maintenance and traffic operations including snow and ice removal. It excludes special maintenance projects which normally are included in the construction program. The estimated improvements in future years assumes additional requested funding is obtained.  

Maintenance expenditures	\$2,602	\$2,345	\$2,893	\$3,477

**Goal: To provide responsible and effective asset management**

- \* This measure indicates the percentage growth in construction project costs, which is the difference between the contract award amount versus the actual cost to complete the project. In the field of highway construction any growth less than 3% is considered excellent and reflects on the quality of preconstruction plans and sound construction management practices.
