

Clean Water State Revolving Fund (CWSRF)
Green Project Reserve Eligibility Determination

Name of System

The Duncan Public Utilities Authority

CWSRF Project Number/Loan Number

ORF-22-0072-CW

General Project Description:

Duncan Public Utilities Authority (Authority) has made a request for a non-point source project to replace their electric meters with more efficient models that would help improve energy usage by the community and encourage improved efficiency which should benefit water resources as well. The Oklahoma Conservation Commission has confirmed that replacement of the electric meters with more efficient models is consistent with the State's NPSMP and qualifies as a nonpoint source project. Also, the Authority replaced their water meters in 2009. The meters are no longer functioning and need to be replaced. The proposed project is to replace the electric meters with more efficient models, replace the water meters and all appurtenances required to complete the project.

GPR Component Description:

Item	Category*
Water Meters	Water Efficiency
Electric Meters	Energy Efficiency
	None

Approved GPR Amount:

\$10,250,000.00

Approved Subsidy Amount (if applicable)

\$0.00

Approved by:
