\* Totals for 1979 encompass more than a 12 month period, due to the implementation of a staggered registration expiration system.

\*\* Please note when considering historical registration fee statistical trends, vehicle types may occasionally be added to, or deleted from, the individual totals reflected above, as Oklahoma vehicle registration law applications change. Please also note that fee assessment criterias change over time, as well. The most significant change occurred in 2000, when the fee basis changed from vehicle value to year registration.

## HISTORY OF OKLAHOMA LICENSE PLATES

- 1906** The town of Oklahoma (later to become Oklahoma City) was the only town in the Oklahoma Territory to start "tagging" horseless carriages, although most of the nation was not.
- 1909** Tulsa and Muskogee started issuing license plates to automobiles and motorcycles. Many other towns soon followed suit.
- 1911** State registration of motor vehicles began with paper registration certificates for \$1 per year, in addition to any fees charged by towns. Owners of automobiles used homemade plates reflecting the assigned number when traveling out of state, unless they had a city-issued plate. These plates were typically made of leather with metal characters attached, displaying "OKLA" and the assigned four digit number.
- 1915** The motor car's future looked so promising that the state legislature took over exclusive taxing rights and empowered its fledgling Department of Highways, now the Oklahoma Department of Transportation, to issue one state license tag for each vehicle, to go along with its duties of making the roads more inviting to this new fangled contraption. The Highway Department remained in charge of motor vehicle licensing for the next 16 years, using a different color scheme for the first 11 years. License plates were also required for farm tractors and self-propelled industrial machinery.
- 1917** The Oklahoma State Penitentiary near McAlester became one of the first prisons to manufacture license plates.
- 1920** The state began issuing tags in pairs, which continued through 1925. The tag plant was not prepared for doubling the number of plates, in addition to the increased registrations. Many motorists received their tags months late. The legislation authorizing this provided for the tags to be permanent plates with validation tabs, but annual tags were manufactured anyway.
- 1921** The legislature had not appropriated funds since 1918 to pay the prison authority for making the license plates, as the Highway Department was outspending their income with needed road construction projects. Prison officials refused to finish making the 1921 tags, until they were paid for 1919 through 1921. The legislature eventually arranged funding and production resumed. Some motorists did not receive their 1921 tags until September.
- 1923** Tags were made in 3 different sizes and 5 different dies, as plates were apparently made by 2 different private companies, as well as the prison.
- 1924** Oklahoma plates were sporting the state's official colors, white on green. Since the fees for trucks were based on the rated carrying capability, some truck owners were found to be registering their vehicles as a Model T Fords to get cheaper plates. To reduce this fraud, trucks began receiving a different plate, with a T added to the middle. Since automobile fees were based on the factory list price, more expensive autos were also sometimes registered as Fords so an F was added to the middle of the plate for Fords, which comprised well over half of the autos on the roads. The State began to issue titles, to deter theft.

## HISTORY OF OKLAHOMA LICENSE PLATES

- 1926** The Highway Department settled on its traditional road-equipment-yellow and black plate and started issuing single plates again, with that color combination.
- 1928** This was the last year for the special "F" plate designation for Fords, although the "T" designation continued for trucks.
- 1929** A grand total of 604,150 vehicles were registered. There were four types of vehicle registrations: Passenger Vehicle (516,322); Commercial Truck (60,390); Farm Tractor (26,242) and Motorcycle (1,196).
- 1930** Both automobile and truck registrations decreased.
- 1931** Under the leadership of newly elected Governor "Alfalfa" Bill Murray, the Oklahoma Tax Commission was created. A motor vehicle registration division was formed to administer motor vehicle licensing laws and supervise the statewide distribution of license plates, through 130 tag agents.
- 1932** Registration of vehicles in Oklahoma decreased to its lowest point during the depression. The first plates designed by the new commission reflected the name "OKLAHOMA" spelled out for the first time. The previous tags contained only the four-letter "OKLA" abbreviation.
- 1933** Commercial trailer plates were issued for the first time, along with one month registrations for out of state commercial vehicles and free visitor plates for out of state personal vehicles.
- 1934** Inter-city buses and publicly owned vehicles were added to the growing list of different types of registrations.
- 1935** By now, there were 543,775 registered vehicles! Although many states issued plate number 1 to the governor, Oklahoma was the only state to issue number 2 to the governor's wife (Lydia Marland), while numbers 3 and 4 went to the lieutenant governor and his wife.
- The City of Oklahoma City became the birthplace of the parking meter.
- 1936** Oklahoma Publishing Company and National Aid Life sponsored a driving safety contest in which the grand prizes were prestigious low-number license plates (#151-157). The result was a 25% decrease in accidents in Oklahoma City.
- 1937** Industrial Tractor registrations were sold for the first time.
- 1938** House trailer registrations were sold for the first time. About 200 pairs of vanity plates were issued to those with political clout, but were replaced when the attorney general ruled them to be invalid.

## HISTORY OF OKLAHOMA LICENSE PLATES

**1939** Saw a radical plate redesign, utilizing a letter of the alphabet, along with three black numbers on a silver background. The 1939 tag was roundly criticized. The state and date were reflected as “OK-39”, which proved confusing to people outside Oklahoma. Furthermore, the plate was shorter than previous models and the attaching holes didn't fit!

**1940** In response to criticism about the prior year's tags, the size is standardized at 12 1/2 inches wide and 6 inches high, which is about 1/2 inch wider than modern tags. For even better identification, the states name was lengthened to OKLA and (for those in the know) the numbers reflected the county of issuance. Car tags sold in the county with the highest population began with the number 1, the second highest with number 2, continuing on down through all 77 counties..

Farm truck, farm trailer, intra-city bus and private school bus registrations were sold for the first time.

**1942** The state experienced decreases in both the number and average cost of automobile registrations, lasting several years. These decreases were attributed to the lack of new cars, as production was stopped in 1942.

House trailers and intra-city buses showed an increase. This was attributed to the use of house trailers as housing and the use of buses for public transportation.

Registration of farm tractors, industrial tractors and farm trailers ceased.

**1943** Being unable to supply metal plates due to the war-related shortage of steel, the Commission issued windshield sticker licenses. Plates were issued only to car dealers and those registering trailers.

The total number of registered vehicles decreased. The decrease in automobile registrations was attributed to old cars being taken out of use.

**1944** Mindful of the steel situation, the state legislature and the Tax Commission cut the metal demand in half the next year, by issuing only one license plate per vehicle. Fears that only one license tag would hamper vehicle identification proved groundless. The single plate remains in effect today.

M. C. (Mike) Connors, head of the commission's Motor Vehicle Registration Division during the war years, is credited with the one-tag policy, saving the state millions of dollars in production costs.

## HISTORY OF OKLAHOMA LICENSE PLATES

Oklahoma has the distinction of Mr. Connors' introduction of reciprocity. During this time in history, commercial trucks were required to purchase a tag in each state through which it traveled. Needless to say, this was quite expensive and time consuming for truckers. To address this concern, Mr. Connors directed the implementation of reciprocity. The idea was to allow a trucker to pay one fee at one location and then travel throughout the United States.

Because this plan worked so well and was nationally recognized, President Harry S. Truman sent Mr. Connors to Europe to form a reciprocity Agreement among European Powers. Mr. Connors became known as the "Father of Reciprocity".

**1945** The registration rate for automobiles was raised to \$19.00 on the first \$600.00 of the factory delivered price, plus an additional \$1.50 for each additional \$100.00, or fraction thereof.

Although the automobile rate and number of licenses increased, collections were less than the previous year.

**1946** New cars were once again available, resulting in an increase in collections.

**1947** The next interruption came in 1947, when tag buyers received only a small metal tab bearing the number 47, which tab was fastened to the corner of the previous year's plate. This system was abandoned after that one year.

Mr. Connors went on to become Secretary Member of the Tax Commission from January 27, 1947 until April 3, 1974.

A special rate for Disabled American Veterans was established.

**1948** Inter-City and Intra-city bus tags were combined into a single "BUS" tag. Taxicab license plates were issued for the first time.

**1949** Oversize and Overweight permits were collected for the first time.

**1952** In transit tags were sold for the first time.

**1955** From 1955 through 1962, every Sooner motorist was a mobile tourism promoter, his license tag inviting all who saw it to "VISIT OKLAHOMA". In 1955, Oklahoma hit the million mark, registering 1,051,668 vehicles!

**1956** The width of the plates was reduced by 1/2 inch to 12 inches (by 6 inches wide), to comply with the new Federal standards.

**1958** Rental trailers were registered for the first time.

**1959** Special Mobilized machinery was registered for the first time.

## HISTORY OF OKLAHOMA LICENSE PLATES

**1960** About the time all Oklahomans became expert at telling what county other cars came from, the 1960 census forced many counties to switch identification numbers, as their population ranking went up or down.

Legislation provided for the first special license plate. Amateur Radio operators could order two plates to place on the same vehicle, displaying their call sign.

**1962** The invitation to VISIT OKLAHOMA was dropped, as a new tag design called for a more specific county designation.

**1963** To put an end to the confusion caused by the census takers, beginning with the 1963 plates, the first two numerical characters were replaced with the two letters of the alphabet most clearly indicating the name of the county. Thus, tags bought in Adair County began with AD; Alfalfa County - AL; Atoka County - AT, etc. Since the plates accommodated only four numbers, in addition to the two-letter prefix, this system created a bit of a problem for those counties needing more than 9,999 tags. There were not enough combinations to serve the two largest counties (Oklahoma and Tulsa). Oklahoma County was assigned additional prefixes beginning with X and Y. Tulsa County was assigned a prefix beginning with Z.

**1967** "OKLAHOMA IS OK" first adorned license plates.

For an additional \$10.00, Oklahomans could order a personalized tag to be displayed on their vehicles. These plates were available to any person in a combination of numbers of letters from one (1) to seven (7) characters. The message on a personalized plate was required to be in "good taste" and could not conflict with any valid license plate.

The state began alternating tag colors between Oklahoma State University (OSU) and the University of Oklahoma (OU), with OU's red and white colors being displayed first.

**1968** There were 80,000 more vehicles registered than in 1967. Overall revenue was up by 6.6 million dollars, the greatest 1 year increase in history. Passenger automobiles accounted for slightly over 66% of the increase.

The OSU colors (orange and black) were displayed. Colorful in the right setting, they were criticized by some as being "hideous" and in "bad taste" for an Oklahoma tag.

**1969** Revenue was up by another 6.5 million dollars.

The OU colors (red and white) were used again and were considered acceptable by most patrons and fans of the University of Oklahoma.

**1970** The legislative session decreed that school colors would never be used again! Tags reverted to the official state colors of green and white and all Oklahomans settled down.

## HISTORY OF OKLAHOMA LICENSE PLATES

- 1974** Due to M. C. Connors' service and dedication to the Tax Commission, a new building was built and dedicated as the M. C. Connors Building.

The license tag factory at the Oklahoma State Penitentiary was destroyed by fire in the summer of 1973, preventing the production of vehicle license plates for 1974. With well over two million vehicles to be licensed and not enough time to negotiate a delivery commitment from private firms, the vehicle registration division of the Oklahoma Tax Commission designed a plastic validation sticker to be issued in lieu of regular metal license plates for 1974.

Along with the self sticking tabs, some 400,000 new metal plates were obtained from a private factory for use on new vehicles and those entering from out-of-state. Most of these new tags were stamped "1973" and required attachment of the 1974 validation tab.

- 1975** Although the prison license tag factory was still unable to produce 1975 plates, a private firm was employed to do the job and all Oklahoma vehicles were issued regular metal license tags for 1975.

- 1977** On November 15, 1977, the state initiated a mail order vehicle registration notification program. Vehicle owners now had the option of renewing by mail.

- 1978** Legislation was passed providing that all automobiles and farm trucks were to be registered on a staggered monthly system, to distribute the work of registering automobile and farm trucks as uniformly and expeditiously as practical throughout the calendar year. Prior to this legislative change, all vehicles registrations expired in December.

- 1979** Collections for auto and farm trucks encompassed more than 12 months, because of the implementation of the staggered registration system. Vehicles were initially licensed for more or less than 12 months, as the system was implemented. Those registrations issued for less than 12 months were later registered for 12 months extending into 1980.

- 1980** In 1980, the staggered registration system for automobiles and farm trucks was in full operation, wherein most registration types expired during the months of February through November, with December and January reserved for registration of vehicle types still subject to calendar year registration.

Legislation was passed providing for the issuance of a five (5) year plate. The plate was to have a white reflexive background with green letters and numerals and "Oklahoma is OK" in green letters across the top of the plate. Automobile and farm truck license plates were issued in 1980 with a decal in the upper left-hand corner showing the month of expiration and an embossed expiration date of "81". These tags were subsequently renewed via a yearly decal.

## HISTORY OF OKLAHOMA LICENSE PLATES

**1982** Controversy was brought about with the introduction of Oklahoma's first graphic license plate. The tag had a white reflexive background, "Oklahoma is OK" in green letters across the top of plate, with green letters and numerals over a gold Sunbelt across the bottom of the plate. The license plate was to remain with the vehicle for a period of five (5) years. A yearly decal was to validate the license plate for each registration period.

Oklahomans now displayed two (2) types of valid license plates on their motor vehicles - graphic and non-graphic.

**1984** Effective July 1, 1984, legislation providing for five (5) year license plates was amended. The "five year" plates were to remain with the vehicle until a replacement license plate was requested by the taxpayer. The extended tenure of "Five (5) Year Plates" requires new numbering/lettering combinations with county designations.

**1985** Oklahoma statutes no longer required automobile (passenger or noncommercial) plates to identify the counties of registration. Due to the increased number of vehicles registered in Oklahoma each year and the many possible prefix combinations available for numbering license plates, the designation of county prefixes was eventually phased out.

**1986** Registered vehicles for the year totaled 3,068,022. Passenger vehicle registrations increased by 688,736. This was attributed to a change in motor vehicle statutes that required pickups to be registered as passenger vehicles, unless specifically used for commercial or farm purposes.

**1987** Legislation was passed providing for Oklahoma's second graphic license plate. The new graphic plate was to have a white reflective background with a new slogan "Oklahoma OK!" across the top of the plate. "OKLAHOMA" was to be printed in brown letters and "OK!" in tan letters. The emblem appearing on Oklahoma's state flag was to be displayed in the center of the tag. Three green letters and numerals were to be printed on each side of the emblem.

The new graphics were to be a part of all license plates issued after December 31, 1988. The Oklahoma Legislature provided that the Oklahoma Tax Commission could continue to issue license plates with the legend "OKLAHOMA IS OK", until any inventory was depleted.

With the issuance of Oklahoma's second graphic plate, Oklahoman's were displaying three (3) types of valid license plates on their motor vehicles.

Personalized Plates for motorcycles became available. The taxpayer was allowed 6 spaces to display the plate of their choice, provided it did not conflict with any other plate.

Used Motor Vehicle Dealer plates and Commercial Trailer Receipts were issued for the first time.

## HISTORY OF OKLAHOMA LICENSE PLATES

**1993** Legislation was passed providing for Oklahoma's third graphic license plate. This plate was to have a white reflexive background with "OKLAHOMA" in black letters across the top, the shield that appears on Oklahoma's state flag in the center and "NATIVE AMERICA" in red letters across the bottom.

Legislation also provided for eight (8) new types of special plates: Round and Square Dance ; Environmental Awareness; Iwo Jima License; Silver Star Recipient; Vietnam Veteran ; D-Day Survivor; Distinguished Flying Cross; and Distinguished Service Medal. Additionally, the option of personalization on two (2) existing special plates; World War II Veteran and Korean War Veteran was permitted.

Registration expiration for all special license plates was now to be on a staggered basis, with the exception of: Legislative, Amateur Radio, Motorcycle and the Vintage Decals.

Volunteer Fire Department organized pursuant to Section 592 of Title 18 of the Oklahoma Statutes were now entitled to a permanent tax exempt license plate. Legislation also provided special license plates for vehicles owned by the Oklahoma Capitol Patrol and the Oklahoma Lake Patrol.
